NEW QUESTION # 693

$49 \times 64 =$

- A. 3,136
- **B. 0**
- C. 1
- D. 2

Answer: B

Explanation:

The square root of 49 is 7; the square root of 64 is 8. $7 \times 8 = 56$.

NEW QUESTION # 694

Sarah found a wallet containing \$500 in the street. She returned the wallet to its owner, who gave her a \$30 reward. What percentage of the \$500 was the reward?

- A. 5%
- **B. 6%**
- C. 4%
- D. 7%

Answer: B

Explanation:

Divide \$30 by \$500 to determine the percentage of \$500 that the reward comprised.

NEW QUESTION # 695

In privatization, the government relies on the private sector to provide a service. However, the government divests itself of the entire process, including all assets. With privatized functions, the government may specify quality, quantity, and timeliness requirements, but it has no control over the operations of the activity.

Also, the government may not be the only customer. Whoever the government chooses to provide the services would likely provide the same services to others.

This paragraph best supports the statement that:

- A. The government must closely supervise privatized functions.
- **B. Privatized functions provide essential services to the government.**
- C. Privatized functions consist of a mixture of government employees, military personnel, and private contractors.
- D. Privatized functions are those institutions that provide services only to a government agency.

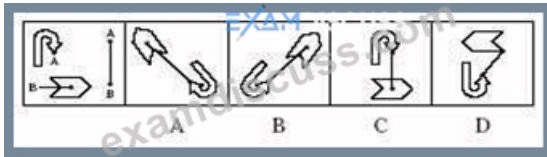

Answer: B

Explanation:

Privatized functions operate independently of the government, making Choices A and B incorrect. The passage states that privatized functions may sell goods and services to other customers as well as the government, so Choice C is also incorrect. Choice D is the correct answer, as privatized functions do perform essential services to government agencies.
