NEW QUESTION # 152
You have a Microsoft 365 E5 subscription.
You plan to implement insider risk management for users that manage sensitive data associated with a project.
You need to create a protection policy for the users. The solution must meet the following requirements:
Minimize the impact on users who are NOT part of the project.
Minimize administrative effort.
What should you do first?

- A. From the Microsoft Purview portal create a priority user group
- B. From the Microsoft Entra admin center, create a security group.
- C. From the Microsoft Entra admin center create a User risk policy
- D. From the Microsoft Purview portal, create an insider risk management policy.

Answer: A

Explanation:
Insider risk management policies in Microsoft Purview target users based on priority user groups.
If you want to monitor a specific project team, you must first define those users in a priority user group so that policies affect only them.
This approach:
Minimizes the impact on users not part of the project.
Reduces administrative effort since you don't need to manage multiple security groups in Entra ID.
