You can experience the effects of outside products in advance by downloading clue versions of our OGEA-101 exam torrent. In addition, it has simple procedure to buy our learning materials. After your payment is successful, you will receive an e-mail from our company within 10 minutes. In a matter of seconds, you will receive an assessment report based on each question you have practiced on our OGEA-101 test material. The final result will show you the correct and wrong answers so that you can understand your learning ability so that you can arrange the learning tasks properly and focus on the targeted learning tasks with OGEA-101 test questions. So you can understand the wrong places and deepen the impression of them to avoid making the same mistake again.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q42-Q47):

NEW QUESTION # 42

Consider the following statement.

According to the TOGAF standard, a governed approach of a particular deliverable will ensure adherence to the principles, standards, and requirements of the existing or developing architectures.

Which deliverable does this refer to?

- **A. An Architecture Contract**
- B. The Architecture Definition Document
- C. The Architecture Vision
- D. The Statement of Architecture Work

Answer: A

Explanation:

According to the TOGAF Standard, 10th Edition, an architecture contract is "a formal agreement between a service provider and a service consumer that defines the mutual commitments and expectations for the delivery of an architecture" 1. An architecture contract is a governed approach of a particular deliverable that will ensure adherence to the principles, standards, and requirements of the existing or developing architectures, as it specifies the roles, responsibilities, deliverables, quality criteria, and acceptance criteria for the architecture work 1. The other options are not correct, as they are not governed approaches of a particular deliverable, but rather different types of deliverables within the architecture development process. An architecture vision is "a high-level, aspirational view of the target architecture" 1. A statement of architecture work is "a document that defines the scope and approach that will be used to complete an architecture project"

1. An architecture definition document is "a document that describes the baseline and target architectures for one or more domains"

1. References: 1: TOGAF Standard, 10th Edition, Part I: Introduction, Chapter 3:

Definitions.

NEW QUESTION # 43

Complete the sentence Business Transformation Readiness Assessment is _____.

- A. to ensure the active support of powerful stakeholders
- B. widely used to validate an architecture that is being developed
- **C. a joint effort between corporate staff lines of business and IT planners**
- D. a way to put building blocks into context thereby supporting re-usable solutions

Answer: C

Explanation:

Business Transformation Readiness Assessment is a joint effort between corporate staff lines of business and IT planners to evaluate the readiness of the organization to undergo change. It involves assessing factors such as vision, commitment, capacity, capability, culture, and motivation that may influence the success of a business transformation initiative. Reference: The TOGAF Standard | The Open Group Website, Section 3.3.2 Business Transformation Readiness Assessment.

NEW QUESTION # 44

What are the four dimensions used to scope an architecture?

- A. Business Data Application Technology
- **B. Breadth Depth Time Period Architecture Domains**
- C. Strategy Segment Capability Budget
- D. Strategy Portfolio Project Solution Delivery

Answer: B

Explanation:

The four dimensions used to scope an architecture are Breadth, Depth, Time Period, and Architecture Domains 1, p. 8.

Breadth refers to the extent of the enterprise covered by the architecture, which can range from a specific business unit to the entire organization 1, p. 8.

Depth refers to the level of detail and completeness of the architecture, which can vary depending on the purpose, scope, and stakeholders of the architecture 1, p. 8.

Time Period refers to the temporal aspects of the architecture, such as the current state, the target state, and the transition plan 1, p. 8.

Architecture Domains refers to the classification of the architecture into four domains: Business, Data, Application, and Technology¹, p. 8.

These four dimensions help define the scope and boundaries of the architecture and ensure that it meets the needs and expectations of the stakeholders.

1: The Open Group (2018). The TOGAF Standard, Version 9.2. 1

NEW QUESTION # 45

Consider the following descriptions of deliverables consumed and produced across the TOGAF ADM cycle.

| | |
|---|--|
| 1 | General rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission |
| 2 | A set of quantitative statements that outline what an implementation project must do in order to comply with the architecture. |
| 3 | A document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle |
| 4 |  GETCERTKEY that will be used to complete an architecture development cycle <small>100% guarantee you pass IT cert exam!</small> |

Which deliverables match these descriptions?

- A. 1 Architecture Requirements Specification - 2 Request for Architecture Work - 3 Statement of Architecture Work - 4 Architecture Principles
- **B. 1 Request for Architecture Work - 2 Statement of Architecture Work - 3 Architecture Principles - 4 Architecture Requirements Specification**
- C. 1 Architecture Principles - 2 Architecture Requirements Specification - 3 Request for Architecture Work - 4 Statement of Architecture Work
- D. 1 Statement of Architecture Work - 2 Architecture Principles - 3 Architecture Requirements Specification - 4 Request for Architecture Work

Answer: B

Explanation:

The Request for Architecture Work is a deliverable that is sent from the sponsor and triggers the start of an architecture development cycle. It defines the scope, budget, schedule, and deliverables for a specific architecture project. The Statement of Architecture Work is a deliverable that is produced by the architect and defines the approach and resources needed to complete an architecture project. It forms the basis of a contractual agreement between the sponsor and the architecture organization. The Architecture Principles are a deliverable that is produced by the architect and defines the general rules and guidelines for the architecture work. They reflect the business principles, business goals, and business drivers of the organization. The Architecture Requirements Specification is a deliverable that is produced by the architect and defines the requirements that govern the architecture work. It covers both functional and non-functional requirements as well as constraints and assumptions.

NEW QUESTION # 46

Complete the following sentence. In the ADM documents which are under development and have not undergone any formal review and approval process are _____.

- A. In between phases
- B. Known as "Version 0.1"
- **C. Called "draft"**
- D. Invalid

Answer: C

Explanation:

In the ADM documents which are under development and have not undergone any formal review and approval process are called

"draft". This indicates that they are subject to change and refinement as the architecture development progresses. Reference: The TOGAF Standard | The Open Group Website, Section 4.2.5 Architecture Deliverables.
