

Free PDF 2026 Marvelous Juniper JN0-105: Online Junos, Associate (JNCIA-Junos) Bootcamps

What's more, part of that ExamTorrent JN0-105 dumps now are free: <https://drive.google.com/open?id=1VTxmHJvLpSz0virYNQtAAqDGFpVIae8B>

Our JN0-105 exam questions are unlike other study materials that are available on the market, JN0-105 guide quiz specially proposed different versions to allow you to learn not only on paper, but also to use mobile phones to learn. And if you buy the value pack, you have all of the three versions, the price is quite preferential and you can enjoy all of the study experiences. This means you can JN0-105 Practice Engine anytime and anyplace for the convenience these three versions bring.

ExamTorrent JN0-105 exam dumps are audited by our certified subject matter experts and published authors for development. JN0-105 exam dumps are one of the highest quality JN0-105 Q&AS in the world. It covers nearly 96% real questions and answers, including the entire testing scope. ExamTorrent guarantees you Pass JN0-105 Exam at first attempt.

JN0-105 Dump Check | JN0-105 Exam Objectives Pdf

With the best quality and high accuracy, our JN0-105 vce braindumps are the best study materials for the certification exam among the dumps vendors. Our experts constantly keep the pace of the current exam requirement for JN0-105 Actual Test to ensure the accuracy of our questions. The pass rate of our JN0-105 exam dumps almost reach to 98% because our questions and answers always updated according to the latest exam information.

Juniper Junos, Associate (JNCIA-Junos) Sample Questions (Q12-Q17):

NEW QUESTION # 12

You have configured some interfaces on a Junos device; however, you have not yet committed the configuration. What happens if you issue the rollback 0 command in this scenario?

- A. The Junos device is rebooted.
- B. The factory default configuration is loaded.
- C. The interface changes you made are discarded.
- D. The messages.log file is deleted.

Answer: C

Explanation:

In Junos OS, issuing the rollback 0 command reverts the candidate configuration to the last committed configuration. If you have

made changes to some interfaces but have not committed those changes, using `rollback 0` will discard these uncommitted changes, reverting to the state of the configuration at the time of the last commit. This command does not affect system files like `messages.log`, reboot the device, or load the factory default configuration; it simply undoes uncommitted changes.

NEW QUESTION # 13

Which command displays all IPv6 routes in the default routing instance?

- A. `show route table inet6.1`
- B. `show route table inet.0`
- C. `show route table inet.1`
- D. `show route table inet6.0`

Answer: D

Explanation:

In Junos OS, the command to display IPv6 routes in the default routing instance is `show route table inet6.0`.

The routing table `inet6.0` specifically holds IPv6 routes. The command `show route table inet.0` is used for IPv4 routes, and `inet6.1` or `inet.1` (assuming `inet.1` is a typo for `inet.1`) are not standard Junos routing tables for displaying IPv6 routes in the default routing instance.

NEW QUESTION # 14

You received a new Junos device and are configuring the system-related settings. You must configure this device for the current date and time on the US West coast. You have set the time zone to `America/Los_Angeles`, however the time and date did not change. In this scenario, which two additional actions would satisfy this requirement? (Choose two.)

- A. Reboot the device.
- B. Set the date and time setting manually.
- C. Configure a DNS server.
- D. Configure an NTP server.

Answer: B,D

Explanation:

When configuring the system-related settings for the current date and time on a Junos device, especially for a specific time zone like `America/Los_Angeles`, and the time does not automatically adjust, two effective actions can be taken. Firstly, setting the date and time manually allows for immediate correction of the system clock. This can be done via the CLI with the appropriate `set date and time` command. Secondly, configuring the device to use an NTP server can provide ongoing synchronization with an accurate time source, ensuring that the device maintains the correct time and date automatically in the future, even in the case of restarts or minor drifts in the internal clock.

NEW QUESTION # 15

You are asked to view the real-time usage statistics for the busiest interfaces on a device running Junos OS. Which command will achieve this task?

- A. `monitor traffic`
- B. `monitor interface traffic`
- C. `show interfaces extensive`
- D. `monitor traffic absolute-sequence`

Answer: B

Explanation:

To view real-time usage statistics for the busiest interfaces on a device running Junos OS, the correct command is B, "monitor interface traffic." This command provides a dynamic, real-time view of the traffic flowing through the interfaces, allowing administrators to quickly identify and monitor the busiest interfaces on the device.

NEW QUESTION # 16

Which two statements are correct regarding Layer 2 network switches? (Choose two.)

- **A. Switches are susceptible to traffic loops.**
- B. Switches do not learn MAC addresses.
- **C. Switches flood broadcast traffic.**
- D. Switches create a single collision domain.

Answer: A,C

Explanation:

Layer 2 network switches are crucial components in local area networks (LANs), providing multiple functions for data packet forwarding and network segmentation. One inherent characteristic of switches is their susceptibility to traffic loops, especially in networks with redundant paths. Without proper loop prevention protocols like Spanning Tree Protocol (STP), loops can cause broadcast storms and network instability. Additionally, switches inherently flood broadcast traffic to all ports within the broadcast domain, except the port on which the broadcast was received. This is because broadcast frames are meant to be delivered to all devices within the VLAN, and the switch ensures this by flooding these frames to all ports in the VLAN, except the source port.

NEW QUESTION # 17

.....

In the era of information, everything around us is changing all the time, so do the JN0-105 exam. But you don't need to worry it. We take our candidates' future into consideration and pay attention to the development of our Junos, Associate (JNCIA-Junos) study training dumps constantly. Free renewal is provided for you for one year after purchase, so the JN0-105 Latest Questions won't be outdated. The latest JN0-105 latest questions will be sent to you email, so please check then, and just feel free to contact with us if you have any problem. Our reliable JN0-105 exam material will help pass the exam smoothly.

JN0-105 Dump Check: <https://www.examtorent.com/JN0-105-valid-vce-dumps.html>

The JN0-105 examination certification, as other world-renowned certification, will get international recognition and acceptance, Why I am recommending you ExamTorrent I am recommending you ExamTorrent just because it is a leading platform that provides you best JN0-105 exam dumps, That is to say you will have more time to prepare for the actual exam, so you can be rest assured that you can figure out all of the essences in our JN0-105 Dump Check - Junos, Associate (JNCIA-Junos) exam study material, which will help you to pass the exam as well as getting the certification with great ease, Our JN0-105 Dump Check - Junos, Associate (JNCIA-Junos) exam lab question has seized the opportunity and has achieved fast growth in the manufacturing of electronic information products, and in the telecommunication and software industries.

Physically unsecured equipment is vulnerable JN0-105 Dump Check to which of the following type of attacks, Everyone wants to succeed, The JN0-105 examination certification, as other JN0-105 Dump Check world-renowned certification, will get international recognition and acceptance.

JN0-105 Certification Training Dumps Give You Latest Exam Questions

Why I am recommending you ExamTorrent I am recommending you ExamTorrent just because it is a leading platform that provides you best JN0-105 ExamDumps, That is to say you will have more time to prepare for the actual exam, so you can be rest assured that you can figure out all of the JN0-105 essences in our Junos, Associate (JNCIA-Junos) exam study material, which will help you to pass the exam as well as getting the certification with great ease.

Our Junos, Associate (JNCIA-Junos) exam lab question has seized the opportunity and has Online JN0-105 Bootcamps achieved fast growth in the manufacturing of electronic information products, and in the telecommunication and software industries.

Among them, the software model is designed for computer users, can let users through the use of Windows interface to open the JN0-105 test prep of learning.
