As we all know, the AZ-140 certificate has a very high reputation in the global market and has a great influence. But how to get the certificate has become a headache for many people. Our AZ-140 learning materials provide you with an opportunity. Once you choose our AZ-140 exam practice, we will do our best to provide you with a full range of thoughtful services. Our products are designed from the customer's perspective, and experts that we employed will update our AZ-140 Learning Materials according to changing trends to ensure the high quality of the AZ-140 study material.

Is Microsoft AZ-140 certification worth it?

Microsoft AZ-140 exam is a hot certification today. Based on my own experience, I have taken different kinds of testing exams before, Microsoft AZ-140 exam was the easiest one! I am very lucky that I discovered **Microsoft AZ-140 Dumps** practice exams. These practice exams helped me understand Microsoft AZ-140 objectives. They gave me an insight into the real testing environment and the structure of the exam. Understand the Microsoft AZ-140 Exam structure is the key to passing this exam. I used the PrepAwayTest study guide and found it very simple and easy to understand. The study material was well-structured and organized with precise information. It gave me a great idea about how to take this exam and what will be expected from me. Our practice exams were excellent enough that they completely covered all the topics in this study guide. Both of them are highly recommended for everyone who wants to pass this exam!

AZ-140 Exam Assessment & AZ-140 Valid Exam Review

It was a Xian coach byword that if you give up, the game is over at the same time. The game likes this, so is the exam. Not having enough time to prepare for their exam, many people give up taking IT certification exam. However, with the help of the best training materials, you can completely pass Microsoft AZ-140 test in a short period of time. Don't you believe in it? PrepAwayTest real questions and answers are the materials that it can help you get high marks and pass the certification exam. Please try it.

One of the key benefits of earning the Microsoft AZ-140 Certification is that it demonstrates your proficiency in deploying and managing virtual desktop environments using Azure services. This is particularly valuable in today's rapidly evolving business landscape, where remote work and collaboration have become increasingly important. With this certification, you can demonstrate to employers that you have the skills and knowledge needed to successfully deploy and manage virtual desktops in a secure, efficient, and scalable manner.

Microsoft Configuring and Operating Microsoft Azure Virtual Desktop Sample Questions (Q119-Q124):

NEW QUESTION # 119

You have a Azure Virtual Desktop deployment.

You publish a RemoteApp named AppVersion1.

You need AppVersion1 to appear in the Remote Desktop client as Sales Contact Application.

Which PowerShell cmdlet should you use?

- A. New-AzADApplication
- B. Register-AzWvdApplicationGroup
- C. Update-AzWvdApplicationGroup
- D. Update-AzWvdApplication

Answer: D

Explanation:

To assign a friendly name to a RemoteApp, run the following cmdlet with the required parameters:

Update-AzWvdApplication -ResourceGroupName <resourcegroupname> -

ApplicationGroupName <appgroupname> -Name <applicationname> -FriendlyName
<newfriendlyname>

NEW QUESTION # 120

You have an Azure subscription that contains the virtual machines shown in the following table.

Name	Location	vCPUs	Generation
VM1	West Europe	8	2
VM2	East US	2	1
VM3	West US	12	1

You create an Azure Compute Gallery as shown in the Azure compute gallery exhibit. (Click the Azure compute gallery tab.)

Create Azure compute gallery

✓ Validation passed

Basics Sharing Tags Review + create

Basics

Subscription	Azure Pass - Sponsorship
Resource group	RG1
Region	West Europe
Name	ComputeGallery1
Description	None

You create a virtual machine image definition as shown in the VM image definition exhibit. (Click the VM image definition tab.)

Create a VM image definition

✓ Validation passed

Basics Version Publishing options Tags Review + create

Basics

Subscription	Azure Pass - Sponsorship
Resource group	RG1
Region	East US
Target Azure compute gallery	ComputeGallery1
VM image definition name	Image1
OS type	Windows
Security type	Standard
VM generation	V1

Question	Azure compute gallery	VM image definition
Publisher	Contoso	
Offer	WindowsServer2022	
SKU	Datacenter	
Publishing options		
Product name	None	
License terms link	None

Purchase plan name	None	
Purchase plan publisher name	None	
Recommended VM vCPUs	4-16	
Recommended VM memory	1-32 GB	
Excluded disk types	None	
VM image definition end of life date	None	

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Statements	Yes	No
You can use VM1 as a source for the version of the image definition.	☐	☐
You can use VM2 as a source for the version of the image definition.	☐	☐
You can use VM3 as a source for the version of the image definition.	☐	☐

Answer:

Explanation:

Statements	Yes	No
You can use VM1 as a source for the version of the image definition.	☐	☒
You can use VM2 as a source for the version of the image definition.	☐	☒
You can use VM3 as a source for the version of the image definition.	☐	☒

Explanation

Text Description automatically generated with medium confidence

Statements	Yes	No
You can use VM1 as a source for the version of the image definition.	☐	☒
You can use VM2 as a source for the version of the image definition.	☐	☒
You can use VM3 as a source for the version of the image definition.	☐	☒

NEW QUESTION # 121

HOTSPOT -

You have an Azure Virtual Desktop deployment that contains two users named User1 and User2 and the storage accounts shown in the following table.

The File share settings for storage1 are configured as shown in the following exhibit.

The File share settings for storage2 are configured as shown in the following exhibit.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

YES, NO , Yes

<https://docs.microsoft.com/en-us/azure/storage/files/storage-files-identity-ad-ds-assign-permissions?tabs=azure-portal> "Once you've enabled Active Directory Domain Services (AD DS) authentication on your storage account, you must configure share-level permissions in order to get access to your file shares. There are two ways you can assign share-level permissions. You can assign them to specific Azure AD users/user groups and you can assign them to all authenticated identities as a default share level permission."

NEW QUESTION # 122

Hotspot Question

You have an Azure Virtual Desktop host pool that contains 20 Windows 11 session hosts.

You create a Windows Defender Application Control (WDAC) policy named Policy1.xml.

You need to deploy Policy1.xml to the session hosts.

How should you prepare the policy, and to where should you copy the policy? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

To prepare the policy:

- Compress Policy1.xml.
- Convert Policy1.xml to its binary form.
- Digitally sign Policy1.xml.

Copy the policy to:

- C:\Windows\System32\AppLocker
- C:\Windows\System32\Configuration
- C:\Windows\System32\Codeintegrity\CiPolicies\Active
- C:\Windows\SystemResources\Windows\UI.AccountsControl

Answer:

Explanation:

Answer Area

To prepare the policy:

- Compress Policy1.xml.
- Convert Policy1.xml to its binary form.
- Digitally sign Policy1.xml.

Copy the policy to:

- C:\Windows\System32\AppLocker
- C:\Windows\System32\Configuration
- C:\Windows\System32\Codeintegrity\CiPolicies\Active
- C:\Windows\SystemResources\Windows\UI.AccountsControl

<https://learn.microsoft.com/en-us/windows/security/application-security/application-control/windows-defender-application-control/deployment/wdac-deployment-guide>

NEW QUESTION # 123

-

You have an Azure subscription.

You plan to deploy an Azure Virtual Desktop solution that will contain Windows 10 multi-session hosts in a single host pool. The solution has the requirements shown in the following table.

Requirement	Value
Total users	1,200
Shifts per day	3
Users per shift	400
User workload type	Medium
Concurrent users per session host	16

You need to configure the session host for the host pool. The solution must minimize costs.

How many session hosts should the host pool contain, and how many vCPUs should each session host have? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Session hosts:

25
75
400
1200

vCPUs per session host:

2
4
8
16

Answer:

Explanation:

Session hosts:

25
75
400
1200

vCPUs per session host:

2
4
8
16
