- B. To advise the customer and partner in solution configurations
- C. To act as the liaison between the customer and SAP Support in resolving technical issues and manage customer escalations
- D. To perform configuration changes required to the SAP Ariba Strategic Sourcing suite solutions

Answer: C

NEW QUESTION # 12

How can you set the order of your custom Contract Workspace fields? Note: There are 2 correct answers to this question.

- A. The fields are presented in alphabetical order of the field label. By carefully choosing the
- B. Navigate to the UI where the class is presented, select Customize in the banner, select Edit, and drag and drop the fields in the order they should be presented. Once all changes are performed, publish all changes via Customizing → Publish
- C. Select Field Configuration, find the class, and select the Layout tab. Here you can drag and drop the order of the fields. Once all changes are performed, publish all changes via Customizing Publish.
- D. Select Field Configuration and under the advanced tab select property Sequence. Fields are sorted by this field in the UL. Once all changes are performed, publish all changes via Customizing Publish.

Answer: B,C

NEW QUESTION # 13

While working on a customer project, the customer asks if specific details can be captured and made available in reporting for a sourcing project or contract that doesn't fit the standard fields.

What is the recommended way to handle this scenario?

- A. Create a dynamic form (dform) where common data can be synced with the project header through customization.
- B. Suggest the customer put a word document on the template and capture all information in that document.
- C. Create a Microsoft Form from the Actions menu for managing all the requirements.
- D. Configure as many custom fields as possible for data capture purposes.

Answer: A

NEW QUESTION # 14

Which of the following accurately describes the migration of flex master data templates using the migration tool?

- A. Neither the templates nor the data is migrated using the tool
- B. Both the templates and their data are fully migrated by the tool.
- C. Only the data of the flex master data templates is migrated; templates must be created manually.
- D. The templates are migrated by the tool, but the data must be loaded manually later.

Answer: D

NEW QUESTION # 15

How can you set the order of your custom Contract Workspace fields? (Select 2 correct answers)

- A. Fields are presented in alphabetical order of the field label.
- **B. Select Field Configuration, find the class, and select the Layout tab. Drag and drop the order of the fields, then publish.**
- C. Navigate to the UI where the class is presented, select Customize in the banner, edit, and drag and drop fields, then publish.
- **D. Select Field Configuration and under the Advanced tab set the Sequence property, then publish.**

Answer: B,D

Explanation:

Custom Contract Workspace field order can be controlled through two methods:

* Using the Layout tab in Field Configuration, where fields can be dragged and dropped to reorder them visually, followed by publishing the changes.

* Using the Sequence property under the Advanced tab, assigning numeric values that define the sort order, with lower numbers appearing first. Option B is incorrect because UI banner customization does not manage field order in Contract Workspace screens. Option C is incorrect; field order is controlled by explicit settings, not alphabetical label order.
