

Free PDF CWAP-404 Valid Test Guide - How to Study & Well Prepare for CWNP CWAP-404 Exam

DOWNLOAD the newest Itcerttest CWAP-404 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1cJAfrieXPZL8sS2n0aosklpFwCRiZ61>

With our CWAP-404 training braindumps, you must feel respected. We believe that every individual has his or her own will, and we will not force you to make any decision. What we can do is to make our CWAP-404 learning prep perfect as much as possible, and let our CWAP-404 practice quiz conquer you with your own charm. And there are three versions of the CWAP-404 exam questions: the PDF, Software and APP online which you can choose as you like.

In order to let customers understand our CWAP-404 exam dumps better, our company will provide customers with a trail version. And the trail version is free for customers. The trail version will offer demo to customers, it means customers can study the demo of our CWAP-404 Exam Torrent for free. If you use our CWAP-404 test quiz, we believe you will know fully well that our product is of superior quality, other products can't be compared with it. Don't hesitate, just buy our CWAP-404 test quiz!

CWAP-404 Reliable Test Topics & New CWAP-404 Exam Papers

Whether you want to improve your skills, expertise or career growth of CWAP-404 exam, with Itcerttest's CWAP-404 training materials and CWAP-404 certification resources can help you achieve your goals. Our CWAP-404 Exams files feature hands-on tasks and real-world scenarios; in just a matter of days, you'll be more productive and embracing new technology standards.

CWNP CWAP-404 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Spectrum Analysis: The topic assesses the ability of a wireless network professional to capture and interpret RF spectrum data. The exam targets the skills in identifying device signatures and RF issues through spectrum analyzers.
Topic 2	<ul style="list-style-type: none"> • Frame Exchanges: The topic evaluates the skills of a wireless network professional in capturing, understanding, and analyzing various frame exchanges, including BSS discovery, joining, roaming, and data frames. The CWAP-404 exam targets the ability of candidates to troubleshoot and resolve issues related to MAC layer operations, ensuring they can maintain robust and efficient WLAN communications.
Topic 3	<ul style="list-style-type: none"> • MAC Sublayer and Functions: The topic measures the ability of a wireless network professional to understand and analyze the MAC layer operations. Candidates are expected to validate BSS configurations and identify issues like CRC errors and retransmissions, ensuring they can maintain the integrity and performance of the WLAN.
Topic 4	<ul style="list-style-type: none"> • PHY Layers and Technologies: In the topic, the CWAP-404 Exam Tests the understanding of a wireless network professional about the Physical (PHY) layer functions and technologies. Wireless analysts need to describe and apply knowledge of PHY headers, PPDU, and other PHY-related data. This topic ensures that analysts are proficient in interpreting PHY information within protocol analyzers and can select appropriate capture devices for different PHY types.

CWNP Certified Wireless Analysis Professional Sample Questions (Q56-Q61):

NEW QUESTION # 56

What is the default 802.11 authentication method for a STA when using Pre-RSNA?

- A. Shared Key
- B. PSK
- C. Open System
- D. 4-Way Handshake

Answer: C

Explanation:

The default 802.11 authentication method for a STA when using Pre-RSNA is Open System. This is the simplest and most common authentication method, which does not provide any security or encryption. In Open System authentication, the STA sends an Authentication Request frame to the AP, and the AP responds with an Authentication Response frame with a status code of success. After this, the STA can proceed to association with the AP.

NEW QUESTION # 57

Which one of the following portions of information is communicated in the PHY Header?

- A. Noise
- B. Signal strength
- C. SNR
- D. Data rate

Answer: D

Explanation:

One of the information that is communicated by bits in the PHY header is data rate. Data rate is the speed at which data is transmitted or received over the wireless medium. Data rate depends on factors such as modulation, coding, channel width, spatial streams, and guard interval. Data rate is indicated by bits in different fields of the PHY header, depending on the type of PPDU (e.g., OFDM, HT, VHT, HE). The receiver uses these bits to determine how to decode and demodulate the rest of the PPDU. The other options are not correct, as they are not communicated by bits in the PHY header. SNR (Signal-to-Noise Ratio), noise, and signal strength are measured by the receiver based on its own capabilities and environment.

NEW QUESTION # 58

What should the To DS and From DS flags be set to in an Association Response frame?

- A. To DS = 1, From DS = 0
- B. To DS = 0, From DS = 1
- **C. To DS = 0, From DS = 0**
- D. To DS = 1, From DS = 1

Answer: C

Explanation:

Explanation

The To DS and From DS flags should be set to 0 in an Association Response frame. An Association Response frame is a type of management frame that is transmitted by an AP to accept or reject an association request from a STA. The To DS (To Distribution System) and From DS (From Distribution System) flags are two bits in the Frame Control field of the MAC header that indicate whether a frame is destined for or originated from the DS (Distribution System), which is a system that connects multiple BSSs together. The To DS and From DS flags can have four possible combinations: 00, 01, 10, or 11. For an Association Response frame, which is sent from an AP to a STA within a BSS, both flags should be set to 0. References: [Wireless Analysis Professional Study Guide CWAP-404], Chapter 5: 802.11 MAC Sublayer, page 121-122

NEW QUESTION # 59

What element was added to the general frame of 802.11 with the 802.11e amendment and the 802.11-2007 rollout?

- **A. QoS Control**
- B. RSN-IE
- C. Address 4
- D. HT Control

Answer: A

NEW QUESTION # 60

In which element of a Beacon frame would you look to identify the current HT protection mode in which an AP is operating?

- **A. HT Information Element**
- B. HT Protection Element
- C. HT Capabilities Element
- D. HT Operations Element

Answer: A

Explanation:

The HT Information Element in a Beacon frame contains information about the current HT (High Throughput) protection mode in which an access point (AP) is operating. This element is used to ensure backward compatibility between HT (802.11n) and non-HT stations.

NEW QUESTION # 61

.....

Itcerttest has focus on offering the accurate and professional exam dumps for CWNP certification test. All questions and answers of CWAP-404 are written by our IT experts who has more than 10 years' experience in IT field. With the help of our CWAP-404 Dumps Torrent, you will get high passing score in the test with less time and money.
