ExamsLabs gives its customers an opportunity to try its C-SIGDA-2403 product with a free demo.

## SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q17-Q22):

### NEW QUESTION # 17

Which ID is needed to visualize KPIs in the SAP Signavio Process Collaboration Hub?

- A. Variant ID
- B. Widget ID
- C. Customer ID
- D. Case ID

**Answer: B**

Explanation:

To visualize KPIs in the SAP Signavio Process Collaboration Hub, specific widgets are used, and these widgets are identified by a unique ID. The documentation clarifies:

- \* Option C (Widget ID): The Widget ID is required to configure and display KPIs in the Collaboration Hub. Each widget (e.g., Value Widget, Over Time Widget) has a unique ID that links it to the specific KPI data and visualization settings.
- \* Option A (Variant ID) is incorrect as Variant IDs are used in Process Mining to identify process variants, not for KPI visualization.
- \* Option B (Customer ID) is incorrect because it relates to customer data, not KPI visualization setup.

Reference:SAP Signavio Process Collaboration Hub Documentation, section on Widget Configuration for KPIs; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 3: Collaboration Hub KPI Visualization.

### NEW QUESTION # 18

What is the heart of the SAP Signavio Process Transformation Suite?

- A. SAP Signavio Process Manager
- B. **SAP Signavio Process Collaboration Hub**
- C. SAP Signavio Process Intelligence
- D. SAP Signavio Process Governance

**Answer: B**

### NEW QUESTION # 19

How do you filter all published processes in the workspace?

- A. Type the word "Publish" in the Search field and press Enter.
- B. **Type the word "Publishing state" in the search field and press Enter.**
- C. Switch to Advanced Search, and select the field "Publishing date".
- D. Switch to Advanced Search, and select the field "Publishing state".

**Answer: B**

### NEW QUESTION # 20

In the Explorer, how can you see all changes made on a diagram in a timeline?

- A. Select the process model. Expand the panel at the bottom of the screen. Choose Preview.
- B. Select the process model. On the menu bar, choose Reporting. Choose Process documentation.
- C. **Select the process model. Expand the panel at the bottom of the screen. Choose Feed.**
- D. Select the process model. On the menu bar, choose Reporting. Run the Governance report.

**Answer: C**

Explanation:

In SAP Signavio's Explorer, to view all changes made on a diagram in a chronological timeline, the correct approach is:

- \* Option B (Select the process model. Expand the panel at the bottom of the screen. Choose Feed.):

This option allows users to view the history of changes made to a process model in a feed format. By selecting a process model and expanding the feed panel at the bottom of the screen, users can see a timeline of modifications, including who made the change and when it was made. This feature is essential for tracking the evolution of a process model over time and understanding the rationale behind specific changes.

### NEW QUESTION # 21

What most accurately describes the availability of the guided analysis?

- A. Only Innovation recommendations have a guided analysis
- B. Only correction recommendations have a guided analysis
- C. **Some process flows have a guided analysis**

- D. All process flows have a guided analysis

**Answer: C**

Explanation:

Guided analysis in SAP Signavio Process Intelligence provides structured insights for specific process analyses, but its availability is not universal across all processes. The documentation clarifies:

\* Exact Extract:"Guided analysis is available for selected process flows within SAP Signavio Process Intelligence, particularly those involving performance indicators or conformance checks. It is not automatically applied to all process flows but is enabled for processes where predefined analytical paths can provide meaningful insights." (SAP Signavio Process Intelligence User Guide, section on "Guided Analysis Availability").

\* Explanation:

\* Option C (Some process flows have a guided analysis):This is correct because guided analysis is provided for specific process flows where it can offer valuable recommendations, such as those with complex variants or significant performance issues. For example, guided analysis might be available for an order-to-cash process to identify bottlenecks but not for a simple administrative process with minimal data.

\* Option A (Only Innovation recommendations have a guided analysis)is incorrect as guided analysis covers both innovation (e.g., new process designs) and correction recommendations (e.g., fixing inefficiencies), not just innovation.

\* Option B (Only correction recommendations have a guided analysis)is incorrect because guided analysis includes a broader scope, including performance analysis and improvement opportunities, not limited to corrections.

\* Option D (All process flows have a guided analysis)is incorrect as guided analysis is selectively applied based on the process complexity and data availability, not universally available.

Reference:SAP Signavio Process Intelligence User Guide, section on "Guided AnalysisAvailability"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 4: Analytical Tools.

**NEW QUESTION # 22**

.....

We provide all candidates with C-SIGDA-2403 test torrent that is compiled by experts who have good knowledge of exam, and they are very experience in compile study materials. Not only that, our team checks the update every day, in order to keep the latest information of C-SIGDA-2403 latest question. Once we have latest version, we will send it to your mailbox as soon as possible. our C-SIGDA-2403 Exam Questions just need students to spend 20 to 30 hours practicing on the platform which provides simulation problems, can let them have the confidence to pass the C-SIGDA-2403 exam, so little time great convenience for some workers. It must be your best tool to pass your exam and achieve your target.
