

Free PDF Fortinet - FCP_ZCS-AD-7.4 Accurate Exam Question

BTW, DOWNLOAD part of ActualtestPDF FCP_ZCS-AD-7.4 dumps from Cloud Storage: https://drive.google.com/open?id=1CQMT5NpdIQwkc_t4VqCe4aLq16cly-q4

ActualtestPDF has one of the most comprehensive and top-notch Fortinet FCP_ZCS-AD-7.4 Exam Questions. We eliminated the filler and simplified the FCP - Azure Cloud Security 7.4 Administrator exam preparation process so you can ace the Fortinet exam on your first try. Our Fortinet FCP_ZCS-AD-7.4 Questions include real-world examples to help you learn the fundamentals of the subject not only for the Fortinet exam but also for your future job.

Our FCP_ZCS-AD-7.4 study question has high quality. So there is all effective and central practice for you to prepare for your test. With our professional ability, we can accord to the necessary testing points to edit FCP_ZCS-AD-7.4 exam questions. It points to the exam heart to solve your difficulty. With a minimum number of questions and answers of FCP_ZCS-AD-7.4 Test Guide to the most important message, to make every user can easily efficient learning, not to increase their extra burden, finally to let the FCP_ZCS-AD-7.4 exam questions help users quickly to pass the exam.

>> FCP_ZCS-AD-7.4 Exam Question <<

ActualtestPDF FCP_ZCS-AD-7.4 FCP - Azure Cloud Security 7.4 Administrator Exam Questions are Available in Three Different Formats

The software version of our FCP_ZCS-AD-7.4 study engine is designed to simulate a real exam situation. You can install it to as many computers as you need as long as the computer is in Windows system. With our software of FCP_ZCS-AD-7.4 guide exam, you can practice and test yourself just like you are in a real exam. The results of your test will be analyzed and a statistics will be presented to you. So you can see how you have done and know which kinds of questions of the FCP_ZCS-AD-7.4 Exam are to be learned more.

Fortinet FCP - Azure Cloud Security 7.4 Administrator Sample Questions (Q16-Q21):

NEW QUESTION # 16

What characterizes the branch-to-branch topology in an Azure virtual WAN?

- A. Increased redundancy through multiple connections to the central hub
- B. Simplified network architecture with reduced hub dependencies
- C. Improved scalability for branch offices connecting to Azure
- D. Enhanced security through centralized traffic management

Answer: C

Explanation:

The branch-to-branch topology in Azure Virtual WAN is characterized by direct connectivity between branches through the Virtual

WAN backbone, which reduces dependency on centralized hubs. This results in a simplified network architecture, lowering latency and optimizing routing between branch locations.

NEW QUESTION # 17

When you deploy a single FortiGate VM using the available template from the Azure Marketplace, several other resources are also created.

Which two resources, among others, are created during the process? (Choose two.)

- A. One NSG for each interface
- B. One VM Scale set
- C. One new route table
- D. Two virtual NICs

Answer: A,D

Explanation:

Two virtual NICs - The FortiGate Azure Marketplace template deploys the VM with at least two network interfaces: one for the external/public interface and one for the internal/private interface.

One NSG for each interface - The deployment creates separate Network Security Groups (NSGs) attached to each NIC to control inbound and outbound traffic as per Fortinet's best practices.

NEW QUESTION # 18

What are two characteristics of Azure standard public IP addresses? (Choose two.)

- A. They can be dynamic or static
- B. They require the configuration of NSGs for inbound traffic
- C. They can be used with load balancers of any SKU
- D. They support the use of availability zones

Answer: A,D

Explanation:

They support the use of availability zones - Standard public IP addresses are zone-redundant and support availability zone deployments for high availability.

They can be dynamic or static - Azure standard public IPs can be configured as static or dynamic, offering flexibility based on deployment needs.

NEW QUESTION # 19

Refer to the exhibits, which show the outputs of two commands taken on a Windows VM running in Azure.

```
C:\windows\system32>ipconfig

Windows IP Configuration

Ethernet adapter Local Area Connection:

Connection-specific DNS Suffix . : 12htgkvlwy3e1kwr2zeco.cloudapp.net
Link-local IPv6 Address . . . . . : fe80::51f1:1be4:a33b:d868%2
IPv4 Address. . . . . : 10.0.1.4
Subnet Mask . . . . . : 255.255.255.0
Default Gateway . . . . . : 10.0.1.1
```

Trace output

```
C:\windows\system32>tracert 10.0.2.4

Tracing route to 10.0.2.4 over a maximum of 30 hops
 1      <1 ms      <1 ms      <1 ms  10.0.2.4

Trace complete.
```

Which statement is true about the device with the IP address 10.0.2.4?

- A. It is on the same subnet as the Windows VM
- **B. It is on the same VNET as the Windows VM**
- C. It is provided by Azure for routing traffic among subnets
- D. It is reachable through FortiGate in transparent mode

Answer: B

Explanation:

The trace output shows only one hop to reach 10.0.2.4, indicating that the destination is in the same Azure virtual network (VNet) as the Windows VM. Since the VM's IP is 10.0.1.4 and the destination is 10.0.2.4, they are in different subnets, but Azure allows direct routing between subnets within the same VNet without additional hops.

NEW QUESTION # 20

Refer to the exhibits.

FGT connector settings

Azure Connector

Server region: Global

Use managed identity:

Directory ID: 60b93279-efda-45f5-9c1d-e7f999c

Application ID: e7ac2b2f-25b1-4e66-96b4-9dbc90e

Client secret: (This field is required.)

Resource path:

Subscription ID: 9a359c2e-e035-4d1e-ba17-0b600cb2

Resource group: SxLab

Application registration key

Client secrets

A secret string that the application uses to prove its identity when requesting a token. Also can be referred to as application password.

+ New client secret

Description	Expires	Value	ID
FortiGateKey	12/31/2299	application secret	

You are configuring an SDN connector for Azure on a FortiGate device. You completed all the required steps on the Azure side. While configuring the FortiGate side, you notice that you did not save the client secret used in the Azure App Registration. What is the quickest way to obtain the value of the client secret?

- A. Create a new resource group
- B. Create a new app registration
- C. Create a new external connector for Azure
- D. Create a new client secret

Answer: D

Explanation:

Azure does not allow you to view an existing client secret's value after creation for security reasons. If you did not save the client secret when it was first generated, the quickest and only option is to create a new client secret under the existing app registration and use the new value in your FortiGate configuration.

NEW QUESTION # 21

.....

Competition has a catalytic effect on human development and social progress. Competition will give us direct goals that can inspire our potential and give us a lot of pressure. We must translate these pressures into motivation for progress. This road may not be easy to go. But with our FCP_ZCS-AD-7.4 Exam Questions, you can be the most competitive genius in your field with the least time and efforts. As long as you follow with our FCP_ZCS-AD-7.4 study guide, you will succeed for sure. Just come and try our FCP_ZCS-AD-7.4 practice braindumps!

New FCP_ZCS-AD-7.4 Exam Prep: https://www.actualtestpdf.com/Fortinet/FCP_ZCS-AD-7.4-practice-exam-dumps.html

Fortinet FCP_ZCS-AD-7.4 Exam Question Exams have always played an important part in our life not only as anxiety-marker, but also function as the easiest way to prove your personal ability and to pass the exam right now. Obtaining the FCP_ZCS-AD-7.4 certification is not an easy task. There is always a version of New FCP_ZCS-AD-7.4 Exam Prep - FCP - Azure Cloud Security 7.4 Administrator learning materials that fits you most. So you don't need to check the updating of FCP_ZCS-AD-7.4 exam dumps every day, you just need to check your email.

What are you waiting for, just go for our FCP_ZCS-AD-7.4 exam resources. Second, the form displays custom cursors when the

mouse is over certain areas on the form, Exams have always played an important part in our life not only as anxiety-marker, FCP_ZCS-AD-7.4 but also function as the easiest way to prove your personal ability and to pass the exam right now.

Pass Guaranteed 2026 Updated Fortinet FCP_ZCS-AD-7.4: FCP - Azure Cloud Security 7.4 Administrator Exam Question

Obtaining the FCP_ZCS-AD-7.4 certification is not an easy task, There is always a version of FCP - Azure Cloud Security 7.4 Administrator learning materials that fits you most, So you don't need to check the updating of FCP_ZCS-AD-7.4 exam dumps every day, you just need to check your email.

We assure candidates that our FCP_ZCS-AD-7.4 actual real questions have more than 80% similarity with the real exam dumps.
