ATLASSIAN Managing Jira Cloud Projects Sample Questions (Q53-Q58):

NEW QUESTION # 53

DEV is a company-managed Kanban project with many statuses.

Users should never see issues in Cancelled or Rejected status when viewing their project board.

You want to remove the issues from the board but still have them counted in project reports.

Identify the approach that satisfies this requirement.

- A. add a board sub-filter to exclude the two statuses
- B. hide the two statuses through a quick filter
- C. exclude the two statuses from the board filter
- D. create swimlanes for all the statuses except these two
- E. remove the statuses from the project workflow

Answer: A

Explanation:

Adding a board sub-filter to exclude the Cancelled and Rejected statuses removes those issues from the board view while still including them in project-level reports. This approach hides them from the board without deleting or modifying workflow data.
