NEW QUESTION # 80

Which type of decision should remain centralized even in a decentralized decision-making environment?

- A. Decisions that require local information
- B. Decisions that come with a high cost of delay
- C. Decisions that deliver large and broad economic benefits
- D. Decisions that are made frequently

Answer: C

Explanation:
Decisions that deliver large and broad economic benefits are the type of decisions that should remain centralized even in a decentralized decision-making environment. Decentralized decision-making is a principle and practice that empowers individuals and teams to make decisions about their work without excessive interference or control from others. Decentralized decision-making fosters autonomy, agility, innovation, and ownership among knowledge workers. However, some decisions are better made centrally by those who have more authority, information, or expertise. These include decisions that affect the whole enterprise or portfolio, such as strategy, vision, budgeting, governance, compliance, etc. References: SAFe Lean-Agile Principles, SAFe Principle #9
