Free PDF 2025 ISTQB The Best CTAL-TM-001 Test Testking

As we all know, examination is a difficult problem for most students, but getting the test CTAL-TM-001 certification and obtaining the relevant certificate is of great significance to the workers in a certain field, so the employment in the new period is under great pressure. Fortunately, however, you don't have to worry about this kind of problem anymore because you can find the best solution on a powerful Internet - CTAL-TM-001 Study Materials. With our technology, personnel and ancillary facilities of the continuous

investment and research, our company's future is a bright, the CTAL-TM-001 study materials have many advantages, and now I would like to briefly introduce.

ISTQB Certified Tester Advanced Level - Test Manager Sample Questions (Q104-Q109):

NEW QUESTION # 104

You are the Test Manager for a software house (SoftTech), who provide a core banking product to retail banks around the world to enable their customers to process payments via the Internet and telephone banking.

Your current project is to integrate SoftTech's core banking product with Welsh Bank's existing bank systems. However, Welsh Bank's systems are maintained by experienced developers and are poorly documented.

Welsh Bank has stated that this project must comply with Financial Conduct Authority (FCA) regulatory banking standards.

A specification for the 10 interfaces to Welsh Bank's existing systems has been produced by SoftTech's development team.

You have been asked to plan and conduct reviews for the system integration and support documentation of all the systems. Which of the following is the BEST approach for this project?

SELECT ONE OPTION

- A. Conduct Inspections to verify that all documentation conforms to a set standard.
- B. Conduct an informal review of the integration documentation before the systems are integrated.
- C. Conduct an audit to verify that all test deliverables have been produced and signed off.
- D. Conduct a management review to assess progress of the integration features.

Answer: A

NEW QUESTION # 105

Which of the following is MOST likely to influence the choice of test levels for a project?

- A. Test resource constraints
- B. The type of project
- C. Availability of test data
- D. The product domain

Answer: B

Explanation:

According to ISTQB, test levels are defined based on project and product characteristics, including whether it's a safety-critical system, customer-facing application, or infrastructure update. Hence, the type of project is most influential.

ISTQB emphasizes adapting the lifecycle model (and hence the test levels) to the context of project and product characteristics.

NEW QUESTION # 106

In addition to risk, identify TWO other components of a testing strategy. 1 credit

- A. The test schedule
- B. The test design techniques to be used
- C. Test performance indicators
- D. Test training needs for the project resources
- E. The entry and exit criteria for each test phase

Answer: B,E

NEW QUESTION # 107

You are working with a development team who have a CI/CD pipeline implemented. They want to integrate your team's existing test automation into the pipeline to augment their unit tests so they will have continuous testing. They have already determined that this is

technically possible with the tool you are using but with require some changes to the test automation framework to integrate the results reporting What will your team need to make this happen?

- A. Training regarding how to make the framework modifications so the integration is possible
- B. A review to determine if this is the best tool to use for the integration with the CI/CD pipeline
- **C. Investigation that the tool will be fit for purpose**
- D. investigation of the licensing models of the tool and an understanding of any potential costs

Answer: C

Explanation:

* Context Analysis: The question involves integrating an existing test automation framework into a CI /CD pipeline. The integration requires modifications to the framework and results reporting. This aligns with ISTQB Advanced Test Management concepts focusing on evaluating and adapting test tools for specific project needs (Syllabus reference: TM-1.6.1 and TM-1.6.4).

* Evaluation of Options:

* A. Investigation that the tool will be fit for purpose:

* Correct. Before integrating the framework, a thorough investigation is necessary to confirm whether the tool can support the required modifications and functionality. This aligns with the emphasis on ensuring tools meet both current and future needs as per the ISTQB syllabus section TM-1.6.1.

* B. Training regarding how to make the framework modifications so the integration is possible:

* Incorrect. While training might be useful later, it is not the first step or the primary requirement to ensure the integration is feasible.

* C. A review to determine if this is the best tool to use for the integration with the CI/CD pipeline:

* Incorrect. This step might be relevant in an earlier phase of tool selection, but the question assumes the tool has already been chosen.

* D. Investigation of the licensing models of the tool and an understanding of any potential costs:

* Incorrect. Licensing investigation is part of tool selection and budgeting, not directly related to technical integration feasibility.

* Syllabus Alignment: The ISTQB Advanced Level Test Management syllabus emphasizes the importance of ensuring the selected tools and technologies align with organizational requirements and technical feasibility. This is outlined in the "Test Tools" section of the syllabus (TM-1.6.1, TM-1.6.4).

* Conclusion: The correct answer is A. Investigation that the tool will be fit for purpose, as this step ensures the technical requirements for integration are met before proceeding with modifications or training.

ISTQB CTAL-TM Sample Exam Questions

ISTQB CTAL-TM Sample Exam Answers

NEW QUESTION # 108

You are monitoring the test results for the first week of system test execution to ensure they conform to the test plan objectives. You are guided by the list of test conditions and traceability matrix produced following test design. Test Plan objectives

* Approach - Risk-based and depth first

* Status reporting - Execution statuses must be either "Passed*", "Failed", "Blocked" or "Not Run"

* Traceability - Test execution results must be traceable back to the test conditions Test Conditions

Test Condition	Risk Level
TC 1	Very High
TC 2	Medium
TC 3	High
TC 4	Low

Traceability matrix

Which one of the following is a correct statement regarding the current status of test plan objectives?

SELECT ONE OPTION

- **A. All the Traceability objective has been met.**
- B. Only Approach and Traceability objectives have been met.
- C. All objectives have been met.
- D. None of the objectives have been met.

Answer: A

NEW QUESTION # 109

.....

If you are considering to get help from the exam braindumps for you to pass the exam, you need to get a reliable and authentic valid CTAL-TM-001 study material, which will help you to pass exams with an ease. But, this is also a must have updated CTAL-TM-001 exam questions to save you from the tedious task of collecting resources from multiple sources. And at the same time, the CTAL-TM-001 learning guide must stand the test of the market and can make the customers understood by all over the world. And these are exactly the advantages of our CTAL-TM-001 practice engine has. Just come and have a try!
