Questions and Correct

Answers | Latest Update

2024/2025 | 100% PASS

Airway bill : **Answer** :A bill of lading for air transport that serves as a receipt for the shipper, indicates that the carrier has accepted the goods listed, obligates the carrier to carry the consignment to the airport of destination according to specified conditions.

Advanced ship notice (ASN) : **Answer** :An electronic data interchange (EDI) notification of shipment of product.

Aggregate inventory management : **Answer** :Establishing the overall level (dollar value) of inventory desired and implementing controls to achieve this goal.

Batch pick : **Answer** :A method of picking orders in which order requirements are aggregated by product across orders to reduce movement to and from product locations. The aggregated quantities of each product are then transported to a common area where the individual orders are constructed.

Exams-boost MSSC CLT test answers are the most effective and we guarantee your success in the first attempt. If you do not pass MSSC CLT exam, we will give you a FULL REFUND of your purchasing fee. Failure in exam will not affect your finance. On request we can provide you with another exam of your choice absolutely free of cost. Think you! What do you have to lose? MSSC CLT Test Answers are the latest and 100% guarantee to pass your CLT exam.

Exams-boost cares for your queries also, there is a competition going on in market who is offering CLT Study Material, but to remove all the ambiguities, Exams-boost offers you to try a free demo of actual CLT exam questions. The free demo will give you a clear image of what exactly Exams-boost offers you. You may buy the product if you are satisfied with the demo. Exams-boost also offers you a best feature of free updates. We update the product on a consistent basis. We own a dedicated team of experts in standby, who make the necessary changes in the material, as and when required.

Multiple Formats Of Real CLT Exam Questions

Exams-boost's products can not only help customers 100% pass their first time to attend MSSC Certification CLT Exam, but also provide a one-year of free online update service for them, which will delivery the latest exam materials to customers at the first time to let them know the latest certification exam information. So Exams-boost is a very good website which not only provide good quality products, but also a good after-sales service.

MSSC Certified Logistics Technician (CLT) 4.0 Sample Questions (Q32-Q37):

NEW QUESTION # 32

Which inventory counting method is associated with the ABC inventory control method?

- A. random count
- B. wall-to-wall physical count
- C. demand count
- D. cycle count

Answer: D

Explanation:

The cycle count method is directly tied to ABC inventory control, where inventory items are classified based on value and turnover rate. CLT "Inventory Control" principles state that A-class items (high value or high usage) are counted most frequently, while B and C items are checked less often. This approach maintains high accuracy where it matters most while reducing unnecessary labor. Unlike wall-to-wall counts, cycle counting allows continuous verification without halting operations. The CLT framework teaches that successful cycle counting relies on well-organized locations, accurate labeling, and WMS integration. By combining ABC classification and cycle counting, organizations achieve precise inventory management and maintain data integrity across the supply chain.

NEW QUESTION # 33

Which logistics automated system generates the pick list?

- A. Warehouse Management System (WMS)
- B. Inventory Management System (IMS)
- C. Multi-Order Batch Picking System (MOBPS)
- D. Order Processing System (OPS)

Answer: A

Explanation:

The Warehouse Management System (WMS) is the logistics automation platform responsible for generating pick lists and directing warehouse associates on which items to select, in what order, and from which locations. In the CLT "Order Processing and Warehouse Systems" competencies, the WMS integrates with order entry and inventory databases to translate customer orders into actionable picking instructions. The system also tracks task completion and updates inventory records in real-time. While Inventory Management Systems and Order Processing Systems provide related data, the WMS manages the physical execution of warehouse activities, including picking, packing, and shipping. Its use ensures efficiency, accountability, and traceability throughout the order fulfillment process, aligning with CLT standards for data-driven warehouse operations.

NEW QUESTION # 34

Which of the following products require special handling and storage?

- A. shoes
- B. canned food goods
- C. paper products
- D. refrigerated products

Answer: D

Explanation:

Refrigerated products require specialized handling and storage due to temperature sensitivity and spoilage risk. The CLT "Safe Handling and Storage" section classifies temperature-controlled goods, including perishable foods and pharmaceuticals, as requiring cold chain management. This involves continuous monitoring, insulated containers, and precise environmental controls to maintain product quality and safety. Canned goods, paper, and footwear do not require such conditions. CLT emphasizes that handling refrigerated materials demands adherence to Food Safety Modernization Act (FSMA) and Good Distribution Practice (GDP) standards. Proper temperature verification, documentation, and equipment calibration are essential for compliance. Failure to maintain specified conditions can result in contamination, product loss, or legal violations, making refrigerated storage one of the

most regulated areas in logistics.

NEW QUESTION # 35

What action is required by the consignee to complete the delivery receipt?

- A. create carrier freight bill
- **B. inventory and inspection of materials**
- C. notify supervisor
- D. put away materials

Answer: B

Explanation:

Completion of proof-of-delivery relies on verifying that what arrived matches what was shipped and is in acceptable condition. The consignee (receiving facility) performs inventory and condition checks before signing delivery documents. CLT receiving/dispatch content reinforces verifying quantities, item identity, and damage status against the pre-advice (ASN) and shipping documents prior to formal acceptance. Creating a carrier freight bill is the carrier's function; putaway happens after acceptance and documentation. Notifying a supervisor may occur if discrepancies are found, but the core requirement to complete delivery documentation is to perform inventory and inspection, ensuring accurate receipt records for subsequent inventory updates and claims processing if needed.

NEW QUESTION # 36

Generally speaking, ASRS refers to a variety of computer-controlled methods for

- A. picking loads from a conveyor
- **B. automatically depositing and retrieving loads from defined storage locations**
- C. automatically loading trucks
- D. moving pallets to the shipping dock

Answer: B

Explanation:

The Automated Storage and Retrieval System (AS/RS) is a mechanized system that places and retrieves materials in defined storage locations using computer-controlled cranes, shuttles, or lifts. The CLT's "Product Storage" competency defines AS/RS as a key component of automated warehouse design, improving space utilization, accuracy, and cycle time. Unlike conveyors or dock systems, AS/RS focuses on vertical and high-density storage environments where automation handles pallet or tote movements to minimize manual labor. Proper integration of AS/RS supports just-in-time inventory and efficient order processing by ensuring that stored goods can be quickly and precisely accessed as needed.

NEW QUESTION # 37

.....

To avail of all these MSSC CLT certification exam benefits you need to enroll in MSSC CLT certification exam and pass it with good scores. Are you ready for this? If your answer is right then you do not need to go anywhere. Just download MSSC CLT Dumps questions and start preparing today.
