NEW QUESTION # 57
What does it mean when a position is subjected to capacity control?

- A. The standard hours are checked to prevent the position from being understaffed.
- B. The target FTE is checked to prevent the position from being understaffed.
- C. The standard hours are checked to prevent the position from being overstaffed.
- D. The target FTE is checked to prevent the position from being overstaffed.

Answer: D

Explanation:
When a position is subjected to capacity control in SAP SuccessFactors Employee Central, the system checks the target Full-Time Equivalent (FTE) to ensure that the position is not overstaffed. Capacity control enforces constraints on the maximum number of employees or FTEs that can occupy a position, helping organizations manage resources effectively and avoid exceeding the predefined limits. This feature is particularly useful for managing budgetary and organizational constraints.
