Every candidate faces just one problem, and that is not getting updated ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) practice questions.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q18-Q23):

NEW QUESTION # 18

Who is required to ensure that staff are supported so that they can contribute to the information security management system?

- A. Auditors who audit each area of operation
- B. Management responsible for each area of operation
- C. ISO/IEC 27001 practitioners within the organization
- **D. Top management of the organization**

Answer: D

Explanation:

Clause 5.1 (Leadership and Commitment) requires that:

"Top management shall demonstrate leadership and commitment with respect to the information security management system by... ensuring that the resources needed for the ISMS are available... and supporting persons to contribute to the effectiveness of the ISMS." This makes it explicit that top management has the responsibility to ensure personnel are supported so they can contribute to the ISMS. Option B (line management) may provide local support, but ultimate accountability rests with top management. Auditors (C) only evaluate compliance, not provide support.

Practitioners (D) help implement, but they don't bear formal responsibility under the standard.

Thus, the verified answer is A: Top management of the organization.

NEW QUESTION # 19

Which statement describes the control for the Compliance with policies, rules and standards for information security within Annex A of ISO/IEC 27001?

- A. Maintain contact with legal authorities
- **B. Regular review of compliance**
- C. Regular review of contractual compliance
- D. Return assets to their legal owners

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.36 (Compliance with policies, rules and standards for information security) requires:

"Compliance with the organization's information security policies, rules and standards for information security should be regularly reviewed." This directly matches option A. Option B refers to contractual compliance, which is part of supplier management controls (Annex A.5.19). Option C relates to Annex A.5.7 (Contact with authorities). Option D refers to asset return controls (Annex A.5.9).

Thus, the correct answer is A.

NEW QUESTION # 20

Which item is required to be included in an information security policy?

- A. A plan for the continual improvement of the information security management system
- B. A framework enabling concerns with the information security policy to be addressed
- **C. A commitment to satisfy applicable requirements related to information security**
- D. A Statement of Applicability which defines the necessary controls to be implemented

Answer: C

Explanation:

Clause 5.2 (Information security policy) requires that the policy:

* "includes information security objectives (or provides a framework for setting them)"

* "includes a commitment to satisfy applicable requirements related to information security"

* "includes a commitment to continual improvement of the ISMS."

Among the listed options, the exact mandatory requirement is "a commitment to satisfy applicable requirements related to information security". Option B partially reflects Clause 5.2 (commitment to continual improvement), but the wording given in the standard prioritizes the satisfaction of applicable requirements (e.g., legal, regulatory, contractual). Option C is not a policy requirement.

Option D (Statement of Applicability) is a separate mandatory document (Clause 6.1.3) and not part of the policy itself.

Thus, the correct answer is A.

NEW QUESTION # 21

Which International Standard can be used to implement an integrated management system with ISO/IEC 27001?

- A. None of the above
- B. ISO 9001
- **C. ISO/IEC 27013**
- D. ISO/IEC 27003

Answer: C

Explanation:

ISO/IEC 27013 provides specific guidance on the integration of ISO/IEC 27001 (Information Security Management) and ISO/IEC 20000-1 (IT Service Management). It offers practical advice for organizations seeking a unified management system approach. While ISO/IEC 27003 (A) provides guidance on ISMS implementation, it does not address integration. ISO 9001 (C) is the Quality Management Standard and can be integrated, but the specific standard designed for integrating 27001 with ITSM is ISO/IEC 27013. Therefore, the correct answer is B: ISO/IEC 27013, as it is explicitly published for this purpose.

NEW QUESTION # 22

Who determines the number of days required for a certification audit?

- A. Both the management representative and the external auditor together
- B. The lead internal auditor from the organization to be audited
- C. The management representative from the organization to be audited
- **D. The external auditor from the Certification Body who will undertake the audit**

Answer: D

Explanation:

Certification audits are carried out by Certification Bodies (CBs), not the organization itself. ISO/IEC 27001 requires external certification audits to be independent, impartial, and objective. According to ISO/IEC 27006 (Requirements for bodies providing audit and certification of ISMS), the Certification Body determines the audit duration and number of audit days based on factors such as organizational size, complexity, scope, and risk environment. This ensures consistency across organizations and prevents manipulation by the auditee. ISO/IEC 27001 Clause 9.2 and 9.3 address internal audit and management review, but the determination of certification audit days is outside the organization's control; it rests solely with the accredited Certification Body auditors. Thus, answer: B is correct, as the CB's external auditor formally calculates and assigns the audit time.

NEW QUESTION # 23

.....

For years our team has built a top-ranking brand with mighty and main which bears a high reputation both at home and abroad. The sales volume of the ISO-IEC-27001-Foundation test practice guide we sell has far exceeded the same industry and favorable rate about our ISO-IEC-27001-Foundation learning guide is approximate to 100%. Why the clients speak highly of our ISO-IEC-27001-Foundation reliable exam torrent? Our dedicated service, high quality and passing rate and diversified functions contribute greatly to the high prestige of our ISO-IEC-27001-Foundation exam questions.
