Most feedback received from our candidates tell the truth that our 77201X guide torrent implement good practices, systems as well as strengthen our ability to launch newer and more competitive products. In fact, you can totally believe in our 77201X Test Questions for us 100% guarantee you pass exam. If you unfortunately fail in the exam after using our 77201X test questions, you will also get a full refund from our company by virtue of the proof certificate.

Avaya IP Office™ Platform Implement Certified Exam Sample Questions (Q97-Q102):

NEW QUESTION # 97
What is the maximum number of simultaneous calls supported by a single SIP trunk channel license?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
Each "SIP Trunk Channels" license supports 1 simultaneous call (Option A). Multiple licenses are required to increase capacity (e.g., 10 licenses for 10 calls). Options B, C, and D incorrectly suggest a single license supports multiple calls.References: Avaya IP Office SIP Trunk Configuration Guide.

NEW QUESTION # 98
Which feature allows an IP Office user to see the presence status of other users?

- A. System Status
- B. SoftConsole
- C. one-X Portal
- D. Voicemail Pro

Answer: C

Explanation:
The one-X Portal (Option B) provides a web-based interface where users can see the presence status (e.g., available, busy) of other IP Office users, enhancing collaboration. Option A (SoftConsole) is for call handling, Option C (Voicemail Pro) is for voicemail, and Option D (System Status) is for system monitoring-not user presence.References: Avaya IP Office one-X Portal User Guide.

NEW QUESTION # 99
What is the purpose of the IP Office Server Edition Secondary Server?

- A. To provide additional user capacity
- B. To manage voicemail services
- C. To handle SIP trunking
- D. To act as a failover for the Primary Server

Answer: D

Explanation:
The Secondary Server in IP Office Server Edition is designed to act as a failover for the Primary Server (Option B), ensuring resilience. If the Primary Server fails, the Secondary takes over call processing and management, maintaining service continuity. Option A is incorrect as capacity is expanded via Expansion Systems, not the Secondary Server. Option C is false because voicemail is typically handled by Voicemail Pro, which can run on either server or a separate system. Option D is incorrect as SIP trunking is managed by the Primary Server or Expansion Systems, not specifically the Secondary Server.References: Avaya IP Office Server Edition Resilience Configuration Guide.

NEW QUESTION # 100
Which tool is used to view active alarms on IP Office?

- A. IP Office Manager
- B. System Status Application

- C. Web Manager
- D. Voicemail Pro

Answer: B

Explanation:
The System Status Application (SSA) (Option B) displays active alarms and system health in real time.
Option A configures settings, Option C manages voicemail, and Option D is for Server Edition configuration-not alarm viewing.References: Avaya IP Office System Status Application Guide.

NEW QUESTION # 101
What is the maximum number of voicemail channels supported by Embedded Voicemail on an IP500 V2?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:
Embedded Voicemail on the IP500 V2 is a lightweight voicemail solution stored on an SD card. It supports a maximum of 6 simultaneous voicemail channels (Option B), allowing up to 6 users to access voicemail or leave messages at once. This capacity is fixed and cannot be expanded, unlike Voicemail Pro, which supports more channels with additional licensing. Options A, C, and D do not match the documented limit.References:
Avaya IP Office Embedded Voicemail User Guide.

NEW QUESTION # 102
......

With the arrival of experience economy and consumption, the experience marketing is well received in the market. If you are fully attracted by our 77201X training practice and plan to have a try before purchasing, we have free trials to help you understand our products better before you completely accept our 77201X study dumps. you must open the online engine of the study materials in a network environment for the first time. In addition, the 77201X Study Dumps don't occupy the memory of your computer. When the online engine is running, it just needs to occupy little running memory. At the same time, all operation of the online engine of the 77201X training practice is very flexible as long as the network is stable.
