We promise that if you have used Exams4sures's latest SAP certification C-S4CPR-2502 exam practice questions and answers exam but fail to pass the exam, Exams4sures will give you a full refund.

SAP C-S4CPR-2502 Exam Syllabus Topics:

Topic	Details
Topic 1	• Introduction to Cloud Computing and SAP Cloud ERP Deployment Options: This section of the exam measures skills of a Cloud ERP Consultant and covers foundational knowledge of cloud computing and SAP S • 4HANA Cloud deployment options. It provides insights into multi-tenant vs single-tenant models and helps determine the best fit for customer requirements.

Topic 2	• Implementation and Configuration for Sourcing and Procurement: This section of the exam measures skills of a SAP Sourcing and Procurement Consultant and covers the core configuration tasks required to set up sourcing and procurement processes in SAP S • 4HANA Cloud. It includes implementing purchase requisitions, purchase orders, approvals, sourcing, and invoice management while ensuring alignment with organizational procurement needs.
Topic 3	• Configuration and the SAP Fiori Launchpad: This section of the exam measures skills of a SAP Implementation Specialist and covers how to configure and personalize the SAP Fiori Launchpad. It includes understanding app management, tile groups, catalogs, and business roles to ensure a user-friendly and efficient experience for end users.
Topic 4	• Extensibility and Integration: This section of the exam measures skills of a SAP Integration Consultant and covers the basic principles of system extensibility and integration in SAP S • 4HANA Cloud. It touches upon in-app and side-by-side extensions as well as integrating with external systems through APIs and standard tools.
Topic 5	• Data Migration and Business Process Testing: This section of the exam measures skills of a SAP Data Migration Analyst and covers the tools and processes used to migrate legacy data into SAP S • 4HANA Cloud. It includes preparation, validation, execution of data loads, and conducting business process testing to ensure data accuracy and system readiness.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Sourcing and Procurement Sample Questions (Q52-Q57):

NEW QUESTION # 52

Which tasks are mandatory before you can migrate data for a specific object? Note: There are 2 correct answers to this question.

- A. Predecessor objects have been migrated
- B. All previous migration projects are in the "Finished" status
- C. You select the same migration method previously used for other objects
- D. Permission to migrate the data has been assigned

Answer: A,D

Explanation:

Before migrating data for a specific object in SAP S/4HANA Cloud Public Edition, certain prerequisites must be fulfilled to ensure the migration process is successful and consistent. Based on SAP's official documentation, the following two tasks are mandatory:

* Predecessor objects have been migrated (Option B): In SAP S/4HANA Cloud Public Edition, many objects have dependencies on other objects. For example, before migrating purchase orders, you must ensure that the related vendor master data and material master data have already been migrated. This ensures referential integrity and avoids errors during the migration process. The SAP Help Portal and SAP Data Migration Guide explicitly state that predecessor objects must be migrated first to maintain data consistency.

* Permission to migrate the data has been assigned (Option C): To perform data migration, users must have the necessary permissions and roles assigned in the system. These permissions are required to access the migration tools, upload data files, and execute migration projects. Without the appropriate permissions, users will not be able to initiate or complete the migration process. This requirement is documented in the SAP S/4HANA Cloud Security Guide and the SAP Data Migration Best Practices.

* A. You select the same migration method previously used for other objects: While consistency in migration methods can simplify the process, it is not a mandatory requirement. Different objects may require different migration methods based on their complexity and dependencies. SAP allows flexibility in choosing migration methods for each object.

* D. All previous migration projects are in the "Finished" status: It is not mandatory for all previous migration projects to be in the "Finished" status before starting a new migration. However, ensuring that predecessor objects are migrated (as stated in Option B) is critical. Some migration projects can run in parallel, provided there are no dependencies between them.

* SAP Help Portal - Data Migration Overview: Provides an overview of the data migration process, including prerequisites and dependencies. <https://help.sap.com>

* SAP Data Migration Guide for SAP S/4HANA Cloud Public Edition: Details the steps and prerequisites for migrating data, including the importance of migrating predecessor objects.

* SAP S/4HANA Cloud Security Guide: Explains the role-based permissions required for performing data migration tasks.

* SAP Data Migration Best Practices: Outlines best practices for ensuring a smooth and error-free migration process, including

permission assignments and dependency management.

Why the other options are incorrect:Key References:By adhering to these verified guidelines, organizations can ensure a seamless and compliant data migration process in SAP S/4HANA Cloud Public Edition.

NEW QUESTION # 53

What does a partner line of business configuration expert reference when identifying business processes to cover in the Fit-to-Standard workshops?

- A. SAP Signavio Process Collaboration Hub
- B. Business Driven Configuration Questionnaire
- C. SAP Signavio Journey Modeler
- D. Digital Discovery Assessment

Answer: C

Explanation:

During Fit-to-Standard workshops, a partner line of business configuration expert uses the Business Driven Configuration Questionnaire (BDCQ) to identify and document business processes that need to be covered.

Below is an explanation of the correct answer:

* Business Driven Configuration Questionnaire (A):The BDCQ is a structured tool provided by SAP to capture customer-specific requirements and align them with standard SAP processes. It serves as a reference for identifying gaps and configuring the system accordingly.

* Digital Discovery Assessment (B):The Digital Discovery Assessment is used to evaluate a customer's digital readiness and transformation needs, but it is not directly used during Fit-to-Standard workshops.

* SAP Signavio Journey Modeler (C):SAP Signavio Journey Modeler is used for process modeling and visualization but is not the primary reference for identifying business processes during Fit-to-Standard workshops.

* SAP Signavio Process Collaboration Hub (D):The Process Collaboration Hub is a platform for collaborating on process designs, but it is not used to identify business processes during these workshops.

SAP Activate Methodology Documentation:Business Driven Configuration Questionnaire

NEW QUESTION # 54

What are the key process flows of service procurement? Note: There are 3 correct answers to this question.

- A. Manage purchase orders
- B. Maintain quota arrangements
- C. Manage invoices
- D. Manage service contracts
- E. Manage service entry sheets

Answer: A,C,E

Explanation:

Service procurement involves specific process flows that ensure the proper acquisition and management of services. Below is an explanation of the correct answers:

* Manage invoices (A):Invoicing is a critical step in service procurement, where the supplier submits an invoice for the services rendered. This process ensures accurate payment based on agreed terms.

* Manage purchase orders (B):Purchase orders are used to formally request services from a supplier.

They define the scope, terms, and conditions of the service procurement.

* Manage service entry sheets (C):Service entry sheets are used to confirm the completion of services by the supplier. They serve as a basis for invoice verification and payment.

* Manage service contracts (D):While service contracts are important for long-term agreements, they are not part of the standard service procurement process flows.

* Maintain quota arrangements (E):Quota arrangements are used for material procurement to allocate sources of supply and are not relevant to service procurement.

NEW QUESTION # 55

How can you open a new posting period for material master records? Note: There are 2 correct answers to this question.

- A. By using the Manage Product Master Data app.
- B. By closing the current period using the Close Periods app.
- C. By triggering a background job using Close Period for Product Master app
- D. By using Manage Posting Periods app.

Answer: A,D

NEW QUESTION # 56

Which of the values are mandatory when creating purchase orders in procurement of stock material? Note: There are 2 correct answers to this question.

- A. Purchasing organization
- B. Material number
- C. Account assignment category
- D. Cost center

Answer: A,B
