So Cisco certification 300-535 exam is also a very popular IT certification exam. Cisco 300-535 certificate is very helpful to your work in the IT industry, which can help promote your position and salary a lot and let your life have more security.

Cisco Automating and Programming Cisco Collaboration Solutions Sample Questions (Q25-Q30):

NEW QUESTION # 25

Refer to the exhibit.

```
<?xml version="1.0" encoding="UTF-8" ?>
<employees>
  <employee>
    <id>1</id>
    <firstName>Jane</firstName>
    <lastName>Doe</lastName>
  </employee>
  <employee>
    <id>2</id>
    <firstName>Tim</firstName>
    <lastName>Public</lastName>
  </employee>
  <employee>
    <id>3</id>
    <firstName>John</firstName>
    <lastName>Doe</lastName>
  </employee>
</employees>
```

Using the provided XML snippet, which Xpath expression prints "Jane"?

- A. `//employee[0]/firstName/text()`
- B. `//employee[0]/firstName/value()`
- C. `//employee[1]/firstName/value()`
- D. `//employee[1]/firstName/text()`

Answer: A

NEW QUESTION # 26

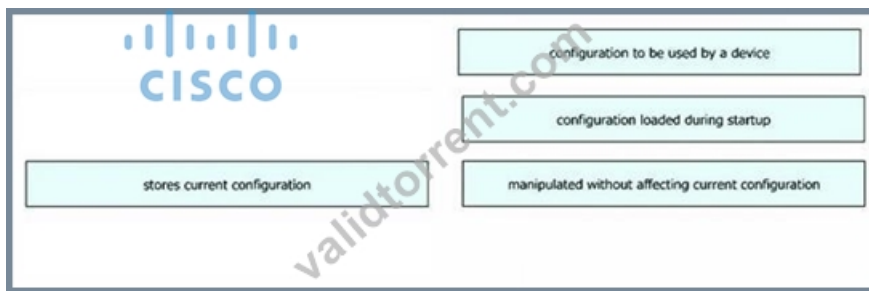

Drag and Drop Question

Drag and drop the characteristics from the left onto the corresponding NETCONF datastores on the right. Not all options are used.

configuration to be used by a device	running
manipulated without affecting current configuration	startup
stores current configuration	candidate
configuration loaded during startup	

Answer:

Explanation:

NEW QUESTION # 27

You create a simple service package skeleton in Cisco NSO using ncs-make-package service- skeleton template vlan. Which two steps must be performed to complete the service? (Choose two.)

- A. Create the VLAN service template in XML.
- B. Modify the VLAN FastMap algorithm.
- C. Compile the VLAN NED.
- D. Start the VLAN Python VM.
- E. Create the VLAN service model in YANG.

Answer: A,E

Explanation:

There is no such thing as VLAN NED, NED is dedicated for connection with network devices.

The thing with the compilation of the service package is the make, and it is only used for YANG file compilation and clean the directories.

And if using a template based service, a service YANG and a service XML template must be created and parameterized.

NEW QUESTION # 28

Refer to the exhibit. An engineer needs a script to immediately change the hostname of the target endpoint. The hostname must revert to the previous hostname after rebooting. Which command must be used?

```
from ncclient import manager

host = 'sandbox-iosxe-latest-1.cisco.com'
user = 'developer'
pasw = 'Cisc012345'
port = 830

with manager.connect(host=host, port=port, username=user, password=pasw,
                    hostkey_verify=False,
                    device_params={'name': 'iosxe'}) as mgr:
    config_to_apply = '''
    <config>
      <native xmlns="http://cisco.com/ns/yang/Cisco-IOS-XE-native">
        <hostname>new_hostname</hostname>
      </native>
    </config>'''
    <command>
    print (edited_config)
```

- A. `edited_config = mgr.edit_config(target='startup', config=config_to_apply)`
- B. `edited_config = mgr.edit_config(target='failover', config=config_to_apply)`
- C. `edited_config = mgr.edit_config(target='boot', config=config_to_apply)`
- D. `edited_config = mgr.edit_config(target='running', config=config_to_apply)`

Answer: D

Explanation:

To change the configuration immediately but have it revert after a reboot, the configuration must be applied to the running datastore, not the startup (which persists across reboots). Changes to the running datastore are lost after a reboot unless they are also saved to startup.

NEW QUESTION # 29

Refer to the exhibit. Based on the YANG presented, what is the correct xpath to retrieve the router named "ios-device" under the "CustomerA" service name?

```
module abc_service {
  namespace "http://com/abc/service";
  prefix abc_service;

  import ietf-inet-types { prefix inet; }
  import tailf-ncs { prefix ncs; }
  imports tailf-common { prefix tailf; }
  import tailf-ned-cisco-ios { prefix ios; }

  augment "/ncs:services" {

    list abc_service {
      key "name";
      ncs:servicepoint "abc_service";

      leaf name {
        mandatory true;
        type string;
      }

      list link {
        key "router_name";

        leaf router_name {
          mandatory true;
          type leafref {
            path "/ncs:devices/ncs:device/ncs:name";
          }
        }
      }
    }
  }
}
```

- A. /ncs:abc_service/CustomerA/ios-device
- B. /ncs:services/abc_service/CustomerA/ios-device
- C. /ncs:service/abc_service/"CustomerA"/ios-device
- D. /abc_service/CustomerA/"ios-device"

Answer: B

NEW QUESTION # 30

.....

If you lack confidence for your exam, you can strengthen your confidence for your exam through using 300-535 exam torrent of us. 300-535 Soff test engine can simulate the real exam environment, so that you can know the procedure for the exam, and your confidence for the exam can also be built up. What's more, 300-535 Exam Braindumps are famous for instant access to download, and you can receive downloading link and password within ten minutes, so you start the training right now. You can enjoy free update for 365 days for 300-535 test materials after payment, and the update version will be sent to you automatically.
