

# Free PDF Quiz 2025 Latest Oracle Exam 1z0-076 Dump

P.S. Free 2025 Oracle 1z0-076 dumps are available on Google Drive shared by ExamcollectionPass:  
[https://drive.google.com/open?id=1ELKyxfv-\\_IzDMC1Mi7JmHAXCPb61tszO](https://drive.google.com/open?id=1ELKyxfv-_IzDMC1Mi7JmHAXCPb61tszO)

In cyber age, it's essential to pass the 1z0-076 exam to prove ability especially for lots of office workers. Our company, with a history of ten years, has been committed to making efforts on developing 1z0-076 exam guides in this field. Since the establishment, we have won wonderful feedback from customers and ceaseless business and continuously worked on developing our 1z0-076 Exam prepare to make it more received by the public. Moreover, our understanding of the importance of information technology has reached a new level. Efforts have been made in our experts to help our candidates successfully pass 1z0-076 exam. Seldom dose the e-market have an authorized study materials for reference.

## Oracle 1z0-076 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Using Oracle Active Data Guard: Supported Workloads in Read-Only Standby Databases: Here, the usage of physical standby databases for real-time queries is discussed.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Creating a Data Guard Broker Configuration: This section delves into the practical aspects of creating and managing a Data Guard broker configuration, including command-line and Enterprise Manager approaches.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Performing Role Transitions: Here, the concept of database roles is explained, along with the steps for performing switchovers, failovers, and maintaining physical standby sessions during role transitions.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>Oracle Data Guard Basics: This topic covers the essential architecture and concepts of Oracle Data Guard. It includes sub-topics such as the physical and logical standby database comparison, benefits of Data Guard, and its integration with multi-tenant databases.</li></ul>

Topic 6	<ul style="list-style-type: none"> <li>• Oracle Data Guard Broker Basics: An overview of the Data Guard broker, its architecture, components, benefits, and configurations, is provided here. It serves as an introduction to the tool used for managing Data Guard configurations.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• Patching and Upgrading Databases in a Data Guard Configuration: This section provides guidance on patching and upgrading databases in a Data Guard environment, along with performance optimization techniques and monitoring considerations.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• Managing Oracle Net Services in a Data Guard Environment: The section focuses on Oracle Net Services and its role in Data Guard networking setup.</li> </ul>

## 1z0-076 Updated Dumps | 1z0-076 Reliable Exam Question

The software keeps track of the previous Oracle Database 19c: Data Guard Administration (1z0-076) practice exam attempts and shows the changes of each attempt. You don't need to wait days or weeks to get your performance report. The software displays the result of the Oracle 1z0-076 Practice Test immediately, which is an excellent way to understand which area needs more attention.

### Oracle Database 19c: Data Guard Administration Sample Questions (Q65-Q70):

#### NEW QUESTION # 65

Which TWO statements are true about Far Sync instances?

- A. They do not work with Snapshot Standby databases.
- B. They work in Maximum Availability mode.
- C. They work in Maximum Performance mode.
- D. They do not work with Logical Standby databases.
- E. They work in Maximum Protection mode.

**Answer: C,D**

#### NEW QUESTION # 66

Which THREE steps are prerequisites for the creation of a physical standby database on a separate server using the RMAN active database duplication method?

- A. Put the primary database into archivelog mode.
- B. Set the DB\_UNIQUE\_NAME parameter on the primary database to a different value than that of the DB\_NAME name parameter.
- C. Configure Oracle Net connectivity on the primary host to the standby database instance.
- D. startup nomount the standby database instance.
- E. Establish user equivalence for the database software owner between the primary host and standby host.

**Answer: C,D,E**

Explanation:

Creating a physical standby database using RMAN active database duplication requires certain prerequisites to ensure a successful and seamless operation:

\* Configure Oracle Net connectivity on the primary host to the standby database instance (A):

\* Proper Oracle Net connectivity between the primary and standby servers is essential for communication and data transfer during the duplication process. Oracle Net services provide the network foundation for Oracle Database, Oracle Net Listener, and Oracle applications.

\* Establish user equivalence for the database software owner between the primary host and standby host (B): User equivalence ensures that the user who owns the Oracle Database software on the primary server has the same privileges on the standby server.

This is crucial for RMAN to perform operations on both servers without encountering permission issues.

\* Startup nomount the standby database instance (C): The standby database instance needs to be started in the NOMOUNT stage before the duplication can begin. This prepares the environment for creating the control file and restoring the database without mounting it, which is a necessary step in the RMAN duplication process. References:

#### NEW QUESTION # 67

Examine the Data Guard configuration:

```
DGMGRL> show configuration;
```

Configuration - Animals

Protection Mode: MaxAvailability

Databases:

dogs - Primary database

sheep - Snapshot standby database

cats - Physical standby database

Fast-Start Failover: DISABLED

Configuration Status:

SUCCESS

You receive an error while attempting to raise the protection mode to Maximum Protection:

```
DGMGRL> edit configuration set protection mode as maxprotection;
```

Error: ORA-16627: operation disallowed since no standby databases would remain to support protection mode Failed.

Which is the minimum statement, or sequence of statements you must execute to enable successful raising of the protection mode to Maximum Protection?

- A. DGMGRL> edit database sheep set property LogXptMode=sync;
- B. DGMGRL> edit database dogs set property LogXptMode=sync;  
DGMGRL> edit database cats set property LogXptMode=sync;
- C. DGMGRL> edit database cats set property LogXptMode=sync;
- D. DGMGRL> edit database dogs set property LogxptMode=sync;  
DGMGRL> edit database sheep set property LogxptMode=sync;
- E. DGMGRL> edit database dogs set property LogXptMode=sync;  
DGMGRL> edit database sheep set property LogxptMode=sync;  
DGMGRL> edit database cats set property LogXptMode=sync;
- F. DGMGRL> edit database dogs set property LogxptMode=sync;

**Answer: B**

#### NEW QUESTION # 68

You created two remote physical standby databases using SQL and RMAN.

The primary database is a four-instance RAC database and each physical standby database has two instances.

Roles-based services are used for client connectivity and have been defined in the Grid Infrastructure.

Consider these operational requirements:

\* The ability to manage multiple standby databases with a single tool

\* The simplification of switchovers, failovers, reinstatements, and conversions to and from snapshot standby databases

\* The automation of failovers to a specified target standby database

Which TWO tools can be used to fulfill these requirements?

- A. SRVCTL
- B. CRSCTL
- C. RMAN
- D. GDCCTL
- E. DGMGRL
- F. Enterprise Manager Cloud Control
- G. SQL\*Plus

**Answer: E,F**

Explanation:

Enterprise Manager Cloud Control provides a graphical interface to manage multiple standby databases, simplify switchovers and failovers, and automate failover processes to a specified target standby database. It offers a comprehensive view and control over the Data Guard configuration, making complex operations more manageable.

DGMGRL is a command-line tool specifically designed for managing Data Guard configurations. It allows the administration of multiple standby databases, simplifies the execution of switchovers and failovers, reinstatements, and conversions to and from snapshot standby databases, and supports the automation of failover processes to a specified standby database.

Other options like RMAN, SQL\*Plus, CRSCTL, SRVCTL, and GDCCTL do not provide the same level of integrated management functionality for Data Guard environments as Enterprise Manager Cloud Control and DGMGRL.

#### NEW QUESTION # 69

Active Data Guard (ADG) databases are widely used to offload reporting or ad hoc query-only jobs from the primary database. Reporting workload profile is different from the primary database and often requires tuning.

Which tool is used to tune SQL workloads running on an ADG database?

- A. Automatic Workload Repository (AWR)
- B. In-Memory Active Session History (ASH)
- C. SQL Tuning Advisor
- D. Automatic Diagnostic Database Monitor (ADDM)
- E. Standby Statspack

**Answer: A**

Explanation:

AWR collects, processes, and maintains performance statistics for problem detection and self-tuning purposes.

In an Active Data Guard environment, where the physical standby database can be used for read-only workloads, AWR can be instrumental in identifying performance bottlenecks and areas for optimization. It provides detailed reports that include wait events, time model statistics, and active session history, making it an invaluable tool for tuning SQL queries and overall database performance in an ADG setup.

#### NEW QUESTION # 70

.....

For candidates who are going to attend the exam, the pass rate is quite important. 1z0-076 training materials of us are pass guaranteed, and if you can't pass the exam one time, we are money back guaranteed. Besides 1z0-076 training materials are verified by skilled experts, therefore the quality and accuracy can be guaranteed, and you can use the 1z0-076 Exam Dumps at ease. We also have online and offline chat service stuff, if any other questions, please contact us, we will give a reply to you as quickly as possible.
