- A. Generate from a rule
- B. Upload via report
- C. Maintain in default route
- D. Copy from a freight booking

Answer: A,B

Explanation:

In SAP S/4HANA Transportation Management, schedule departures define planned departure times for transportation, such as for regular routes. According to the SAP documentation, schedule departures can be created by:

* Upload via report (A): Users can upload schedule departures using a report or data import tool, allowing mass creation or updates.

* Generate from a rule (B): Schedule departures can be generated automatically based on predefined rules, such as recurring schedules for specific routes.

The other options are incorrect:

* Copy from a freight booking (C) is not a standard method for creating schedule departures, as freight bookings are execution documents for ocean or air transport.

* Maintain in default route (D) relates to route configuration but does not directly involve creating schedule departures.
