Pass Guaranteed Quiz Latest Oracle - 1Z0-1163-1 Exam Consultant

The great advantage of our Oracle 1Z0-1163-1 study prep is that we offer free updates for one year long. On one hand, these free updates can greatly spare your money since you have the right to free download Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 real dumps as long as you need to. On the other hand, we offer this after-sales service to all our customers to ensure that they have plenty of opportunities to successfully pass their 1Z0-1163-1 Actual Exam and finally get their

desired certification of 1Z0-1163-1 practice materials.

Oracle 1Z0-1163-1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Oracle Cloud Success Navigator & Oracle Cloud Quality Standards: This section evaluates the skills of Cloud Implementation Managers in leveraging Oracle Cloud Success Navigator and Quality Standards for cloud adoption. It explains how best practices are embedded into Oracle Cloud Applications and applied using Starter Configuration. Candidates will understand how to optimize cloud performance and ensure successful deployments following Oracle's quality guidelines.
Topic 2	<ul style="list-style-type: none">OMBPs for Innovation: This section evaluates the expertise of Supply Chain Innovation Analysts in leveraging SCM Innovation modules. It focuses on understanding the functionalities that drive product development and improving time-to-market. Candidates will explore key design considerations, best practices, and performance metrics that ensure faster product launches and enhanced innovation processes.
Topic 3	<ul style="list-style-type: none">OMBPs for Procurement: This section tests the abilities of Procurement Specialists in managing procurement operations within Oracle Cloud Applications. It covers the flow of procurement processes, integration points with other SCM modules, and best practices for improving procurement efficiency. Candidates will gain insights into the key metrics used to evaluate procurement performance and cost-effectiveness.
Topic 4	<ul style="list-style-type: none">OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q23-Q28):

NEW QUESTION # 23

What is the main purpose of the Supply Chain Collaboration feature in Oracle Fusion Cloud SCM?

- A. It enables real-time communication between suppliers and buyers for improved supply chain visibility.
- B. It eliminates the need for supplier contracts.
- C. It automates internal financial reporting without supplier interaction.

Answer: A

Explanation:

The Supply Chain Collaboration feature in Oracle Fusion Cloud SCM facilitates real-time communication between suppliers and buyers through tools like the Supplier Portal, improving visibility into supply chain activities such as order status and inventory levels. Option A is incorrect as it involves supplier interaction, not just internal reporting. Option B is false—contracts remain essential. This collaboration enhances coordination and responsiveness across the supply chain.

NEW QUESTION # 24

Which feature in Oracle Fusion Cloud SCM provides real-time order promising based on supply and demand constraints?

- A. Global Order Promising
- B. Supplier Portal
- C. Cost Accounting
- D. Manufacturing Execution

Answer: A

Explanation:

Global Order Promising (A) provides real-time order promising by analyzing supply (inventory, production) and demand (orders, forecasts) constraints across the enterprise. For instance, if a customer requests 100 units and only 80 are available with a 2-day production lead time, GOP promises delivery in 2 days. Option B (Supplier Portal) supports collaboration, not promising. Option C (Manufacturing Execution) tracks production, not order commitments. Option D (Cost Accounting) handles financials. GOP enhances customer trust and planning accuracy by delivering feasible, data-driven promises.

NEW QUESTION # 25

What is a key advantage of the Production Order to Cost Update OMBP in Oracle Fusion Cloud SCM?

- A. It provides real-time cost updates, ensuring immediate financial benefits.
- B. It automates the production process, requiring minimal human supervision.
- C. It enhances customer relationship management, leading to effective cost analysis.
- D. **It provides accurate cost calculations, leading to better decision-making and improved profitability.**

Answer: D

Explanation:

The Production Order to Cost Update process within Oracle Manufacturing Business Process (OMBP) in Oracle Fusion Cloud SCM ensures accurate cost calculations by capturing and updating costs associated with production orders, such as materials, labor, and overhead. This accuracy supports better decision-making and improves profitability by enabling precise cost analysis and pricing strategies. Option A is irrelevant as it ties to CRM, not cost updates. Option B exaggerates automation-human oversight remains necessary. Option D focuses on real-time updates, which is secondary to the primary benefit of accuracy emphasized in Oracle documentation.

NEW QUESTION # 26

What is the primary purpose of the Demand to Management OMBP in Oracle Fusion Cloud SCM?

- A. It focuses only on local inventory availability.
- B. It guarantees same-day delivery for all orders.
- C. **It ensures accurate demand forecasting and planning.**
- D. It eliminates the need for supplier collaboration.

Answer: C

Explanation:

The Demand to Management OMBP (C) in Oracle Fusion Cloud SCM ensures accurate demand forecasting and planning, translating market signals into actionable supply strategies. It uses tools like machine learning and collaborative forecasting to predict demand-e.g., forecasting 1,000 units for a holiday season-and aligns inventory and production accordingly. Option A is incorrect-it addresses enterprise-wide demand, not just local stock. Option B is false-no process guarantees same-day delivery; it focuses on planning. Option D is wrong-supplier collaboration is integral to fulfilling demand. This OMBP minimizes overstocking or shortages, optimizing resources and enhancing customer service through precise planning.

NEW QUESTION # 27

Which key metric measures the effectiveness of the Demand Forecast to Supply Plan OMBP?

- A. Lead Time Variability.
- B. **Demand Fulfillment.**
- C. Supplier Service Quality.
- D. Supply Chain Flexibility.

Answer: B

Explanation:

The Demand Forecast to Supply Plan OMBP in Oracle Fusion Cloud SCM bridges demand forecasting with supply planning, and its effectiveness is best measured by Demand Fulfillment-the percentage of demand met on time and in full. This metric evaluates how well the supply plan, derived from forecasts, satisfies actual customer orders. For example, if a forecast predicts 500 units and the supply plan delivers 480 units on time, the fulfillment rate is 96%. Option A (Lead Time Variability) assesses supplier

performance, not the forecast-to-plan process. Option B (Supplier Service Quality) focuses on supplier reliability, a separate concern. Option C (Supply Chain Flexibility) measures adaptability, not direct fulfillment success. Demand Fulfillment ties directly to the OMBP's goal of aligning supply with demand, ensuring customer satisfaction and operational efficiency while minimizing excess inventory or stockouts.

NEW QUESTION # 28

The sources and content of our 1Z0-1163-1 practice materials are all based on the real exam. And they are the masterpieces of professional expertise in this area with reasonable prices. Besides, the passing rate is between 98 to 100 percent, so they can help you save time and cut down additional time to focus on the 1Z0-1163-1 Actual Exam review only. We understand your drive of the 1Z0-1163-1 certificate, so you have a focus already and that is a good start.
