SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Financial Accounting Sample Questions (Q60-Q65):

NEW QUESTION # 60

Which technologies should you use to integrate SAP S/4HANA Cloud Public Edition with another SAP public cloud solution? Note: There are 2 correct answers to this question

- A. SAP Cloud Connector
- B. Predelivered APIs
- C. SAP Process Orchestration
- D. SAP Integration Suite

Answer: B,D

Explanation:

To integrate SAP S/4HANA Cloud Public Edition with another SAP public cloud solution, you should use: A. Predelivered APIs: These are standard APIs provided by SAP that facilitate secure and efficient data exchange between systems. C. SAP Integration Suite: A comprehensive integration service on the SAP Business Technology Platform that offers tools for connecting cloud and on-premise applications within SAP's ecosystem and with third-party systems.

NEW QUESTION # 61

What is the result of an automatic payment run? Note: There are 3 correct answers to this question.

- A. Payment media
- B. Payment plan
- C. Payment log
- D. Payment documents
- E. Payment blocks

Answer: A,C,D

Explanation:

An automatic payment run in SAP S/4HANA Cloud Public Edition typically results in the creation of payment documents, payment media, and a payment log. Payment documents are the actual financial postings that record the clearing of open invoices with payments. Payment media refer to the files or electronic data transmitted to banks for the execution of the payments, such as

electronic fund transfers or checks. The payment log provides a detailed report of the payment run process, including information on successfully processed payments, errors encountered, and any exceptions handled during the run.

NEW QUESTION # 62

Which tasks are mandatory before you can migrate data for a specific object? Note: There are 2 correct answers to this question

- A. All previous migration projects are in the 'Finished' status
- B. You select the same migration method previously used for other objects
- C. Predecessor objects have been migrated
- D. Permission to migrate the data has been assigned

Answer: C,D

Explanation:

Before migrating data for a specific object in SAP S/4HANA Cloud Public Edition, it's mandatory to ensure that: A. Predecessor objects have been migrated: This ensures that all necessary dependencies and related data objects are in place, providing a solid foundation for the new data. C. Permission to migrate the data has been assigned: This ensures that the user or team responsible for the migration has the necessary access rights and permissions to perform the data migration tasks, safeguarding the integrity and security of the data migration process.

NEW QUESTION # 63

In SAP Central Business Configuration, which activities can you perform in the Product-Specific Configuration Phase? Note: There are 3 correct answers to this question.

- A. Add blocking reasons for billing
- B. Add new sales organizations
- C. Change approval thresholds.
- D. Create new scope items.
- E. Modify building blocks

Answer: A,B,C

Explanation:

In SAP Central Business Configuration during the Product-Specific Configuration Phase, activities such as adding new sales organizations, changing approval thresholds, and adding blocking reasons for billing can be performed. These tasks are part of tailoring the SAP S/4HANA Cloud system to meet the specific business needs and operational requirements of an organization, ensuring that the ERP system aligns with the business's functional and process structures.
