Big companies are always on the lookout for capable candidates. You need to pass the SAP Certified Associate - Positioning SAP Business Transformation Management Solutions

(C_BCBTM_2509) certification exam to become a certified professional. This task is considerably tough for unprepared candidates however with the right C_BCBTM_2509 prep material there remains no chance of failure.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q10-Q15):

NEW QUESTION # 10
How does SAP Signavio Process Manager help with business transformations?

- A. By replacing existing ERP systems with a new workflow engine.
- B. By eliminating the need for human oversight in process execution.
- C. By allowing organizations to model processes.
- D. By generating automated financial reports for management.

Answer: C

Explanation:
SAP Signavio Process Manager is the core process modeling and design component of the SAP Signavio Business Transformation Suite. It allows organizations to visualize, document, and optimize processes as part of transformation initiatives.
"SAP Signavio Process Manager enables organizations to model, analyze, and document business processes in a collaborative environment to support transformation and continuous improvement." Reference:
Through its BPMN 2.0-based process modeling, businesses can capture current (as-is) processes, simulate new (to-be) designs, and align stakeholders for change management.
"Organizations use Process Manager to design and optimize processes before implementation in ERP systems, ensuring standardization and efficiency." Incorrect Options:
A: It does not remove human oversight; it supports collaboration and governance.
C: It does not replace ERP systems but complements them by providing modeling and process documentation.
D: Financial reporting is handled by ERP systems, not Signavio.
Verified Correct answer: B: By allowing organizations to model processes.

NEW QUESTION # 11
Which key solution of SAP Signavio helps in collaborative process mining?

- A. SAP Signavio Process Intelligence
- B. SAP Signavio Process Manager
- C. SAP Signavio Process Collaboration Hub
- D. SAP Signavio Value Accelerator

Answer: A

Explanation:
SAP Signavio Process Intelligence is the dedicated process mining and analysis component of the SAP Signavio Business Transformation Suite. It enables organizations to discover, analyze, and improve business processes collaboratively using real data.
"SAP Signavio Process Intelligence connects to system data, reconstructs end-to-end processes, and enables collaborative process mining and analysis to uncover inefficiencies and improvement opportunities." Reference:
The term collaborative process mining refers to enabling multiple stakeholders to analyze, discuss, and align process improvements based on shared process insights - a feature central to Process Intelligence.
"Process Intelligence integrates with the Process Collaboration Hub to allow joint analysis and process improvement discussions."
Option A (Collaboration Hub) is a supporting platform for sharing process models and insights, but it does not perform mining itself.
Option C (Process Manager) focuses on process modeling and design, not mining.
Option D (Value Accelerator) refers to predefined process frameworks and KPIs used for benchmarking, not mining.
Therefore, the correct and verified answer based on SAP's BTM documentation and the official Signavio solution portfolio is B: SAP Signavio Process Intelligence.

NEW QUESTION # 12
What unique technology powers WalkMe's AI-first Digital Adoption Platform (DAP), enabling it to understand application context and drive adoption success?

- A. Library of Pre-Made Content
- B. SAP Ecosystem Integration
- C. DeepUI Technology
- D. FedRAMP Certified Platform

Answer: C

Explanation:
DeepUI Technology is the core AI capability within WalkMe's Digital Adoption Platform (DAP). It enables the platform to understand, interpret, and interact with user interfaces dynamically without requiring code-level integration.
"WalkMe's DeepUI™ technology leverages AI to recognize and interact with any user interface element, allowing context-aware guidance and automation across applications." Reference:
Within SAP's BTM context, DeepUI allows WalkMe to seamlessly overlay SAP applications, providing real-time assistance and ensuring users complete digital processes correctly - a core aspect of digital adoption enablement.
"DeepUI powers WalkMe's AI-first approach, enabling contextual understanding of SAP Fiori, S/4HANA, and other applications for consistent adoption experiences." Option B (SAP Ecosystem Integration) describes compatibility, not the underlying AI engine.
Option C (Library of Pre-Made Content) is a feature, not a technology.
Option D (FedRAMP Certified Platform) refers to compliance for U.S. federal systems, not functionality.
Therefore, the verified and accurate answer based on SAP BTM and WalkMe documentation is A: DeepUI Technology.

NEW QUESTION # 13
What are the core solutions provided by SAP LeanIX?
(Note: There are 2 correct answers to this question.)

- A. Technology Risk and Compliance
- B. SAP Commerce Cloud
- C. Enterprise Architecture Management
- D. SAP Signavio Journey Modeler

Answer: A,C

Explanation:
SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning.
"SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference:
Enterprise Architecture Management (Answer B):
This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.
"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):
This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.
"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:
A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.
C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.
Therefore, the correct and verified answers from SAP BTM documentation are:
B: Enterprise Architecture Management
D: Technology Risk and Compliance

NEW QUESTION # 14
Of the following options, which technologies does SAP provide to help organizations transform?

- A. SAP Finance and SAP Marketing
- B. SAP Signavio and SAP LeanIX solutions
- C. SAP ERP and SAP CRM
- D. SAP Sales and SAP HR

Answer: B

Explanation:
SAP enables digital transformation primarily through its Business Transformation Management (BTM) portfolio, led by SAP Signavio and SAP LeanIX. These technologies give organizations the tools to visualize, plan, and manage transformation initiatives effectively.
"SAP helps organizations accelerate transformation with SAP Signavio for business process transformation and SAP LeanIX for enterprise architecture and technology management." Reference:
SAP Signavio enables business process analysis, mining, and optimization, while SAP LeanIX supports enterprise architecture, application portfolio management, and technology risk compliance - together offering full visibility from business to IT.
"The combination of SAP Signavio and SAP LeanIX forms the backbone of SAP's transformation offerings, aligning business process improvements with IT landscape modernization." Incorrect Options:
A, B, and C refer to standard ERP or LOB modules, not transformation-focused solutions.
Verified Correct answer: D: SAP Signavio and SAP LeanIX solutions.

NEW QUESTION # 15
......
