

Free PDF Quiz 2025 The Open Group OGEA-103: TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam—Efficient New Test Fee

What's more, part of that ITEXamSimulator OGEA-103 dumps now are free: https://drive.google.com/open?id=1vI1tE5ZsAYQirzgPkoQhOUpX8JLzduM_

Nowadays the test OGEA-103 certificate is more and more important because if you pass OGEA-103 exam you will improve your abilities and your stocks of knowledge in some certain area and find a good job with high pay. If you buy our OGEA-103 exam materials you can pass the OGEA-103 Exam easily and successfully. We have data proved that our OGEA-103 exam material has the high pass rate of 99% to 100%, if you study with our OGEA-103 training questions, you will pass the OGEA-103 exam for sure.

Budget-friendly OGEA-103 study guides have been created by ITEXamSimulator because the registration price for the The Open Group OGEA-103 exam is already high. You won't ever need to look up information in various books because our The Open Group OGEA-103 Real Questions are created with that in mind. We provide 365 days free upgrades.

Pass Guaranteed Quiz 2025 Updated OGEA-103: New TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Test Fee

In fact, our OGEA-103 study materials are not expensive at all. The prices of the OGEA-103 exam questions are reasonable and affordable while the quality of them are unmatched high. So with minimum costs you can harvest desirable outcomes more than you can imagine. By using our OGEA-103 Training Materials you can gain immensely without incurring a large amount of expenditure. And we give some discounts on special festivals.

The Open Group TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Sample Questions (Q118-Q123):

NEW QUESTION # 118

Exhibit

Consider the illustration showing an architecture development cycle Which description matches the phase of the ADM labeled as item 2?

- A. Provides architectural oversight for the implementation
- B. Operates the process of managing architecture requirements
- C. Conducts implementation planning for the architecture defined in previous phases
- D. Establishes procedures for managing change to the new architecture

Answer: A

Explanation:

Based on the illustration, the phase of the ADM labeled as item 2 is the Implementation Governance phase.

This phase provides architectural oversight for the implementation. It ensures that the implementation project conforms to the architecture. It also provides a framework for monitoring and managing the implementation.

The Implementation Governance phase involves the following activities:

Finalizing the Architecture Roadmap and the supporting Implementation and Migration Plan
Assigning an Architecture Board to oversee the implementation
Establishing Architecture Contracts with the implementation partners
Reviewing and approving the implementation project plans and deliverables
Performing Architecture Compliance reviews to ensure alignment with the architecture
Performing Architecture Audit reviews to ensure quality and performance of the architecture
Resolving any architecture issues or change requests that arise during the implementation
Maintaining the architecture lifecycle and ensuring its continuity
The Implementation Governance phase is essential for ensuring that the architecture is realized as intended and that it delivers the expected business value and outcomes.

Implementation Governance

NEW QUESTION # 119

Which ADM phase focuses on defining the problem to be solved, identifying the stakeholders, their concerns, and requirements?

- A. Phase
- B. Phase
- C. Preliminary Phase
- **D. Phase A**

Answer: D

Explanation:

Explanation

Phase A: Architecture Vision is the first phase of the Architecture Development Method (ADM) cycle, which is the core of the TOGAF standard. The main purpose of this phase is to define the scope and approach of the architecture development, and to create the Architecture Vision, which is a high-level description of the desired outcomes and benefits of the proposed architecture. To achieve this purpose, this phase focuses on defining the problem to be solved, identifying the stakeholders, their concerns, and requirements, and establishing the business goals and drivers that motivate the architecture work. This phase also involves obtaining the approval and commitment of the sponsors and other key stakeholders, and initiating the Architecture Governance process.

18.3: Inputs : The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 18.4: Steps

NEW QUESTION # 120

Consider the following descriptions of deliverables consumed and produced across the TOGAF ADM cycle.

General rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets

about fulfilling its mission

The joint agreements between development partners and sponsors on the deliverables, quality, and fitness-for-purpose of an architecture.

A document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle

A set of quantitative statements that outline what an implementation project must do in order to comply with the architecture.

Which deliverables match these descriptions?

- A. 1 Architecture Principles - 2 Architecture Contracts - 3 Architecture Requirements Specification - 4 Request for Architecture Work
- B. 1 Architecture Contracts - 2 Architecture Requirements Specification - 3 Architecture Vision - 4 Architecture Principles
- **C. 1 Architecture Principles - 2 Architecture Contracts - 3 Request for Architecture Work - 4 Architecture Requirements Specification**
- D. 1 Architecture Requirements Specification - 2 Architecture Principles - 3 Architecture Vision - 4 Architecture Contracts

Answer: C

Explanation:

According to the TOGAF standard, the deliverables that match the descriptions are as follows:

1 Architecture Principles: These are general rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission¹. They reflect a level of consensus among the various elements of the enterprise, and form the basis for making future IT decisions¹.

2 Architecture Contracts: These are the joint agreements between development partners and sponsors on the deliverables, quality, and fitness-for-purpose of an architecture². They are used to ensure that the architecture is implemented and governed according to the agreed-upon specifications and standards².

3 Request for Architecture Work: This is a document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle³. It defines the scope, schedule, budget, deliverables, and stakeholders of the architecture project³.

4 Architecture Requirements Specification: This is a set of quantitative statements that outline what an implementation project must do in order to comply with the architecture⁴. It defines the requirements for each architecture domain, as well as the relationships and dependencies among them⁴.

NEW QUESTION # 121

What is an objective of the ADM Preliminary Phase?

- A. To obtain approval for the Statement of Architecture Work
- **B. To select and implement tools to support the Architecture Capability**
- C. To create the initial version of the Architecture Roadmap
- D. To develop a vision of the business value to be delivered by the proposed enterprise architecture

Answer: B

Explanation:

The Preliminary Phase is the preparatory phase of the Architecture Development Method (ADM) cycle, which sets the context and direction for the architecture work. One of the objectives of this phase is to select and implement tools to support the Architecture Capability, which is the ability of an organization to perform enterprise architecture effectively and efficiently. Tools can include software applications, methods, techniques, standards, and frameworks that assist the architecture development and governance processes. The selection and implementation of tools should be based on the requirements and constraints of the organization, and the alignment with the Architecture Principles and the Architecture Vision³ References: 3: The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 6: Preliminary Phase : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 45: Establishing and Maintaining an Enterprise Architecture Capability : The TOGAF Standard, Version 9.2, Part VI: Architecture Capability Framework, Chapter 46: Tools for Architecture Development

NEW QUESTION # 122

Exhibit

Consider the illustration showing an architecture development cycle Which description matches the phase of the ADM labeled as item 2?

- A. Provides architectural oversight for the implementation
- B. Operates the process of managing architecture requirements
- C. Conducts implementation planning for the architecture defined in previous phases
- D. Establishes procedures for managing change to the new architecture

Answer: A

Explanation:

Based on the illustration, the phase of the ADM labeled as item 2 is the Implementation Governance phase.

This phase provides architectural oversight for the implementation. It ensures that the implementation project conforms to the architecture. It also provides a framework for monitoring and managing the implementation.

The Implementation Governance phase involves the following activities:

- * Finalizing the Architecture Roadmap and the supporting Implementation and Migration Plan
- * Assigning an Architecture Board to oversee the implementation
- * Establishing Architecture Contracts with the implementation partners
- * Reviewing and approving the implementation project plans and deliverables
- * Performing Architecture Compliance reviews to ensure alignment with the architecture
- * Performing Architecture Audit reviews to ensure quality and performance of the architecture
- * Resolving any architecture issues or change requests that arise during the implementation
- * Maintaining the architecture lifecycle and ensuring its continuity

The Implementation Governance phase is essential for ensuring that the architecture is realized as intended and that it delivers the expected business value and outcomes.
