

Free PDF Quiz 2025 VMware High Pass-Rate 2V0-32.24: VMware Cloud Operations 8.x Professional V2 Reliable Learning Materials

BTW, DOWNLOAD part of BraindumpQuiz 2V0-32.24 dumps from Cloud Storage: <https://drive.google.com/open?id=1sth3skKMDT9353xHPG0NGRavP6IA47kb>

BraindumpQuiz is a reliable site offering the 2V0-32.24 valid study material supported by 100% pass rate and full money back guarantee. Besides, our 2V0-32.24 training material is with the high quality and can simulate the actual test environment, which make you feel in the real test situation. You can get the latest information about the 2V0-32.24 real test, because our BraindumpQuiz will give you one year free update. You can be confident to face any difficulties in the 2V0-32.24 actual test no matter any changes.

People always want to prove that they are competent and skillful in some certain area. The ways to prove their competences are varied but the most direct and convenient method is to attend the certification exam and get some certificate. The 2V0-32.24 exam questions have simplified the sophisticated notions. The software boosts varied self-learning and self-assessment functions to check the learning results. The software of our 2V0-32.24 Test Torrent provides the statistics report function and help the students find the weak links and deal with them.

Trustworthy VMware 2V0-32.24 Practice - Latest 2V0-32.24 Cram Materials

The up-to-date VMware 2V0-32.24 exam answers will save you from wasting much time and energy in the exam preparation. The content of our VMware 2V0-32.24 Dumps Torrent covers the key points of exam, which will improve your ability to solve the difficulties of VMware 2V0-32.24 real questions.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	• Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 2	• VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.
Topic 3	• Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.
Topic 4	• Installing, Configuring, and Setting Up: This section of the exam measures skills of Implementation Specialists and covers the end-to-end setup process for vRealize Suite Lifecycle Manager, vRealize Operations, and Log Insight. It includes prerequisites, installation steps (manual and automated), identity and access configuration, environment settings, data sources, content packs, and system integrations to enable a functional cloud management platform.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q45-Q50):

NEW QUESTION # 45

An administrator is deploying vRealize Log Insight and needs to choose the most performant disk format option. Which option should the administrator choose?

- A. Deploy vRealize Log Insight using the Thick Provision Eager Zeroed disk format.
- B. Deploy vRealize Log Insight using the Thin Provision disk format.
- C. Deploy vRealize Log Insight using Raw Disk Mapping.
- D. Deploy vRealize Log Insight using the Thick Provision Lazy Zeroed disk format.

Answer: A

Explanation:

The most performant disk format for vRealize Log Insight is Thick Provision Eager Zeroed. This format provides better performance because the entire disk is allocated at the time of creation and is immediately zeroed out, which eliminates the overhead of allocating space during runtime and ensures faster read/write operations.

NEW QUESTION # 46

An administrator has been tasked with deploying vRealize Operations (vROps).

The requirements are:

The deployment must consume a minimal amount of cluster compute resources The deployment must be resilient against a single vROps node failure Which option would meet the requirements?

- A. Deploy two Remote Collector nodes and place them in a Collector Group

- B. Deploy vRealize Operations as a cluster and enable High Availability (HA)
- C. Deploy vRealize Operations as a cluster
- D. Deploy vRealize Operations so that Continuous Availability (CA) can be enabled

Answer: B

Explanation:

To meet the requirement of consuming minimal cluster compute resources while also being resilient against a single node failure, deploying vRealize Operations as a cluster and enabling High Availability (HA) is the best option.

NEW QUESTION # 47

An administrator needs to change the password for the admin user account on vRealize Operations.

Which two methods can the administrator use to complete this task? (Choose two.)

- A. Log in to the Primary node via SSH and use the appropriate command to reset the admin user account password
- B. Log in to the vRealize Operations admin UI as the admin user and use the change password functionality
- C. Log in to the vRealize Operations admin UI as the admin user, take the cluster offline and use the change password functionality
- D. Log in to each node via SSH and use the appropriate script to reset the admin user account password
- E. Log in to vRealize Suite Lifecycle Manager and use the rotate password functionality

Answer: A,D

Explanation:

To change the password for the admin user account in vRealize Operations, these methods can be used:

Log in to the Primary node via SSH and use the appropriate command to reset the admin user account password: This method allows the administrator to directly reset the admin password on the primary node via SSH using command-line utilities specific to vRealize Operations.

Log in to each node via SSH and use the appropriate script to reset the admin user account password: In a multi-node environment, the password reset might need to be performed on each node using a script to ensure that the new password is applied across all nodes in the cluster.

NEW QUESTION # 48

An administrator is tasked with installing vRealize Log Insight using vRealize Suite Lifecycle Manager (vRSLCM). They have been instructed to use DHCP for the deployment.

Which statement about this scenario is correct?

- A. Static IP addresses are required for any product deployment in vRSLCM
- B. DHCP addresses are only supported for the cluster virtual IP address (VIP)
- C. A default gateway does not need to be supplied for the deployment
- **D. DHCP addresses are only supported for vRealize Log Insight worker nodes**

Answer: D

Explanation:

In vRealize Suite Lifecycle Manager (vRSLCM), DHCP addresses can be used for vRealize Log Insight worker nodes. However, static IP addresses are typically recommended for the management and master nodes to ensure stability and consistency in the deployment. DHCP addresses are not recommended for the primary or management nodes because they might change after a reboot, causing issues with connectivity and accessibility.

NEW QUESTION # 49

Which three types of Virtual Machine (VM) action can be scheduled in a vRealize Operations Automation Central job? (Choose three.)

- **A. Power On VMs**
- B. Delete unused snapshots for VMs
- **C. Reboot VMs**
- **D. Downsize oversized VMs**
- E. Move VMs
- F. Delete powered off VMs

Answer: A,C,D

Explanation:

Power On VMs: You can schedule the action to power on specific VMs at a specified time.

Reboot VMs: Scheduling a reboot for VMs can be done to automate maintenance or restart processes.
 Downsize oversized VMs: This action allows you to resize VMs based on performance data, ensuring resources are allocated optimally.

NEW QUESTION # 50

.....

So it requires no special plugins. The web-based VMware Cloud Operations 8.x Professional V2 (2V0-32.24) practice exam software is genuine, authentic, and real so feel free to start your practice instantly with VMware Cloud Operations 8.x Professional V2 (2V0-32.24) practice test. It would be really helpful to purchase VMware Cloud Operations 8.x Professional V2 (2V0-32.24) exam dumps right away. If you buy this VMware Certification Exams product right now, we'll provide you with up to 1 year of free updates for VMware Cloud Operations 8.x Professional V2 (2V0-32.24) authentic questions. You can prepare using these no-cost updates in accordance with the most recent test content changes provided by the VMware Cloud Operations 8.x Professional V2 (2V0-32.24) exam dumps.
