# Free PDF Quiz IAPP - AIGP - Trustable Online IAPP Certified Artificial Intelligence Governance Professional Lab Simulation

P.S. Free & New AIGP dumps are available on Google Drive shared by Braindumpsqa: https://drive.google.com/open?id=1pR1tzoUOE5zPYodgvoD2hPAu0G2QKWqP

Braindumpsqa recognizes the acute stress the aspirants undergo to get trustworthy and authentic IAPP Certified Artificial Intelligence Governance Professional (AIGP) exam study material. They carry undue pressure with the very mention of appearing in the IAPP AIGP certification test. Here the Braindumpsqa come forward to prevent them from stressful experiences by providing excellent and top-rated IAPP Certified Artificial Intelligence Governance Professional (AIGP) practice test questions to help them hold the IAPP Certified Artificial Intelligence Governance Professional (AIGP) certificate with pride and honor.

IAPP AIGP Exam Syllabus Topics:

Topic	Details
Topic 1	• Understanding How to Govern AI Development: This section of the exam measures the skills of AI project managers and covers the governance responsibilities involved in designing, building, training, testing, and maintaining AI models. It emphasizes defining the business context, performing impact assessments, applying relevant laws and best practices, and managing risks during model development. The domain also includes establishing data governance for training and testing, ensuring data quality and provenance, and documenting processes for compliance. Additionally, it focuses on preparing models for release, continuous monitoring, maintenance, incident management, and transparent disclosures to stakeholders.

Topic 2	• Understanding How to Govern AI Deployment and Use: This section of the exam measures skills of technology deployment leads and covers the responsibilities associated with selecting, deploying, and using AI models in a responsible manner. It includes evaluating key factors and risks before deployment, understanding different model types and deployment options, and ensuring ongoing monitoring and maintenance. The domain applies to both proprietary and third-party AI models, emphasizing the importance of transparency, ethical considerations, and continuous oversight throughout the model's operational life.
Topic 3	• Understanding the Foundations of AI Governance: This section of the exam measures skills of AI governance professionals and covers the core concepts of AI governance, including what AI is, why governance is needed, and the risks and unique characteristics associated with AI. It also addresses the establishment and communication of organizational expectations for AI governance, such as defining roles, fostering cross-functional collaboration, and delivering training on AI strategies. Additionally, it focuses on developing policies and procedures that ensure oversight and accountability throughout the AI lifecycle, including managing third-party risks and updating privacy and security practices.
Topic 4	• Understanding How Laws, Standards, and Frameworks Apply to AI: This section of the exam measures skills of compliance officers and covers the application of existing and emerging legal requirements to AI systems. It explores how data privacy laws, intellectual property, non-discrimination, consumer protection, and product liability laws impact AI. The domain also examines the main elements of the EU AI Act, such as risk classification and requirements for different AI risk levels, as well as enforcement mechanisms. Furthermore, it addresses the key industry standards and frameworks, including OECD principles, NIST AI Risk Management Framework, and ISO AI standards, guiding organizations in trustworthy and compliant AI implementation.

Latest AIGP Exam Papers, AIGP New Braindumps Book

We believe that the best brands are those that go beyond expectations. They don't just do the job – they go deeper and become the fabric of our lives. Therefore, our company as the famous brand, even though we have been very successful we have never satisfied with the status quo, and always be willing to constantly update the contents of our AIGP Exam Torrent in order to keeps latest information about AIGP exam.

IAPP Certified Artificial Intelligence Governance Professional Sample Questions (Q122-Q127):

NEW QUESTION # 122
What is the most significant risk of deploying an AI model that can create realistic images and videos?

- A. Output cannot be protected.
- B. Copyright infringement.
- C. Security breaches.
- D. Downstream harms.

Answer: D

Explanation:
The greatest risk from AI systems generating realistic synthetic media is downstream harm, such as deepfakes, misinformation, reputational damage, and erosion of trust.
From the AI Governance in Practice Report 2024:
"With generative AI, downstream harms such as deception, reputational damage, misinformation, and manipulation can emerge even if original use was lawful." (p. 55-56)

NEW QUESTION # 123
Scenario:

A European AI technology company was found to be non-compliant with certain provisions of the EU AI Act.
The regulator is considering penalties under the enforcement provisions of the regulation.
According to the EU AI Act, which of the following non-compliance examples could lead to fines of up to €
15 million or 3% of annual worldwide turnover(whichever is higher)?

- A. In case of the supply of misleading information to notified bodies in reply to a request
- B. In case of a breach of AI Act prohibition by the Union institutions, bodies, offices and agencies
- C. In case of breach of a provider's obligations for high-risk AI systems
- D. In case of AI Act prohibitions

Answer: C

Explanation:
The correct answer isB. The EU AI Act assigns atiered penalty systembased on the severity of the violation.
A breach ofobligations related to high-risk AI systemsfalls into the mid-tier category, triggering fines of €
15 million or 3% of annual global turnover.
From the AIGP ILT Guide - EU AI Act Module:
"Providers of high-risk AI systems must comply with strict documentation, testing, monitoring, and registration obligations. Breaches of these result in significant fines of up to €15 million or 3% of turnover." AI Governance in Practice Report 2024 supports this:
"Non-compliance with obligations under Title III (high-risk systems) leads to financial penalties under Article
71(3) of the EU AI Act."
Note: Thehighest penalty (€35 million or 7%)applies toprohibited AI uses, not to obligations for high-risk systems.

NEW QUESTION # 124
CASE STUDY
A company is considering the procurement of an AI system designed to enhance the security of IT infrastructure. The AI system analyzes how users type on their laptops, including typing speed, rhythm and pressure, to create a unique user profile. This data is then used to authenticate users and ensure that only authorized personnel can access sensitive resources.
The data processed by the AI system would be classified as:

- A. Non-personal data, as long as it is not linked to a user ID
- B. Special category data, if it can be used to uniquely identify a person
- C. Non-sensitive personal data, since it does not reveal information about health, gender or race
- D. Organizational data, since it is part of the authentication process

Answer: B

Explanation:
The correct answer is D. Keystroke dynamics, used to identify individuals, fall under biometric data, which is a special category of personal data under the GDPR and other frameworks.
From the AI Governance in Practice Report 2024:
"Keystroke dynamics may constitute biometric data if used to uniquely identify an individual... Biometric data is classified as special category personal data and requires higher protection standards." Also reflected in ILT Participant Guide:
"Biometric data, such as facial images, voiceprints, iris scans or keystroke patterns, are treated as special category data when they are used for the purpose of uniquely identifying individuals."

NEW QUESTION # 125
According to the GDPR's transparency principle, when an Al system processes personal data in automated decision-making, controllers are required to provide data subjects specific information on?

- A. The personal data used during processing, including inferences drawn by the Al system about the data.
- B. The existence of automated decision-making and meaningful information on its logic and consequences.
- C. The contact details of the data protection officer and the data protection national authority.
- D. The data protection impact assessments carried out on the Al system and legal bases for processing.

Answer: B

Explanation:
The GDPR's transparency principle requires that when personal data is processed for automated decision- making, including

profiling, data subjects must be informed about the existence of such automated decision-making. Additionally, they must be provided with meaningful information about the logic involved, as well as the significance and the envisaged consequences of such processing for them. This requirement ensures that data subjects are fully aware of how their personal data is being used and the potential impacts, thereby promoting transparency and trust in the processing activities.

NEW QUESTION # 126

Under the NIST Al Risk Management Framework, all of the following are defined as characteristics of trustworthy Al EXCEPT?

- A. Secure and Resilient.
- B. Tested and Effective.
- C. Explainable and Interpretable.
- D. Accountable and Transparent.

Answer: B

Explanation:
The NIST AI Risk Management Framework outlines several characteristics of trustworthy AI, including being secure and resilient, explainable and interpretable, and accountable and transparent. While being tested and effective is important, it is not explicitly listed as a characteristic of trustworthy AI in the NIST framework.
The focus is more on the system's ability to function safely, securely, and transparently in a way that stakeholders can understand and trust. Reference: AIGP Body of Knowledge, NIST AI RMF section.

NEW QUESTION # 127

......

Nowadays passing the test AIGP certification is extremely significant for you and can bring a lot of benefits to you. Passing the AIGP test certification does not only prove that you are competent in some area but also can help you enter in the big company and double your wage. Buying our AIGP Study Materials can help you pass the test easily and successfully. And at the same time, you don't have to pay much time on the preparation for our AIGP learning guide is high-efficient.
