Pegasystems PEGACPBA24V1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Pega Express: This section of the exam measures skills of Business Analysts and Delivery Managers and covers the benefits and best practices of the Pega Express delivery approach. Candidates learn about the Pega Express values and best practices framework, the process and advantages of Directly Capture Objectives (DCO), and understand the four phases of Pega Express delivery along with relevant terminology.
Topic 2	<ul style="list-style-type: none"> • Data and Integration: This section measures skills of Data Analysts and Integration Specialists focusing on configuring data objects, relationships, and records. Candidates learn to capture and present data through fields and views, create calculated values, validate data with business logic rules, manipulate application data including setting default property values, and configure data transforms.
Topic 3	<ul style="list-style-type: none"> • Case Management: This domain targets Case Designers and Process Architects and explores designing a case lifecycle, including setting case statuses and adding instructions for tasks. Candidates demonstrate ability to configure service level agreements with urgency, goals, and deadlines, and manage routing of assignments to users, work groups, or queues. This section also includes configuring email correspondence, identifying duplicate cases, adding optional actions and automating workflow decisions using conditions. Candidates learn to pause and resume case processing, skip stages or processes, configure child cases, use automation shapes appropriately, and create and manage user teams.
Topic 4	<ul style="list-style-type: none"> • Security: Designed for Security Analysts and Access Managers, this domain covers the relationship between personas, operators, and access groups within Pega. Candidates articulate the difference between authorization and authentication and understand their applications.
Topic 5	<ul style="list-style-type: none"> • Application Development: This section evaluates skills of Pega Business Architects and Developers in application development. It covers the roles and skills of a Pega Business Architect, identification of project stakeholders, and benefits of Pega's Center-out™ business architecture. Candidates learn about App Studio's value, understand rules, rulesets, classes, and the role of generative AI. The domain also covers Pega's CI • CD pipeline with Deployment Manager, use of collaboration tools, managing application development with user stories, feedback, and bug tracking, and using tools like Case Type Backlog and Estimator for project scoping

Pegasystems Certified Pega Business Architect 24 Sample Questions (Q126-Q131):

NEW QUESTION # 126

You are designing a credit transaction case type and have the following requirement: Transaction disputes must be resolved within 3 days.

To meet this requirement, you need to set the _____ in the service level to 3 days.

- A. goal
- B. urgency
- C. deadline
- D. passed deadline

Answer: C

Explanation:

To meet the requirement that transaction disputes must be resolved within 3 days, you need to set the deadline in the service level agreement (SLA) to 3 days. The deadline specifies the maximum time allowed to resolve the transaction disputes, ensuring that the case is handled within the required timeframe.

Reference: Pega Academy - Service Level Agreements (SLAs): SLAs define the expected time frames for case resolution, including goals, deadlines, and escalation actions. Setting the deadline ensures that the case meets the required resolution time frame of 3 days.

NEW QUESTION # 127

When applying for a credit limit increase, customers with standard credit cards must provide information in an Employment Information process. Requests from customers with Platinum credit cards automatically skip this process.

What task do you perform to implement this requirement?

- A. In the Employment Information process validate card type for continued processing
- B. In the Employment Information process add a custom condition to test the card type
- C. In the Employment Information process add an Approve/Reject step to test the card type
- **D. In the Employment Information process add a card type true/false field to a user view**

Answer: D
