SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q31-Q36):

NEW QUESTION # 31

What are some aggregation functions in SiGNAL? Note: There are 3 correct answers to this question.

- A. GROUP BY
- B. INNER JOIN
- C. **BOOL_OR**
- D. **FIRST()**
- E. **AVG()**

Answer: C,D,E

Explanation:

In SAP Signavio, SiGNAL is a scripting language used for manipulating and analyzing process data. Among the aggregation functions available in SiGNAL, AVG(), FIRST(), and BOOL_OR are correct answers. These functions serve different purposes:

* AVG() calculates the average value of a numeric column, useful for finding mean values in datasets.

* FIRST() returns the first value in a data set based on a specified order. This can be particularly useful in scenarios where you're interested in retrieving an initial value from a series of events or values.

* BOOL_OR is a boolean aggregation function that returns true if at least one of the input values is true.

This can be used to aggregate boolean data across different rows or entries.

INNER JOIN and GROUP BY are not aggregation functions. INNER JOIN is used to combine rows from two or more tables based on a related column between them. GROUP BY is used to arrange identical data into groups with the help of some aggregate functions like AVG(), but it is not an aggregation function itself.

References: SAP Signavio documentation on SiGNAL scripting language and its functions.

NEW QUESTION # 32

Who becomes Tenant Owner of a workspace in SAP Signavio Process Manager?

- A. Dedicated users selected by the administrator
- B. **The initial user who registered for a workspace**
- C. Every user who is assigned to the user group Tenant Owner
- D. Every user who is assigned to the user group Administrators account

Answer: B

Explanation:

The Tenant Owner of a workspace in SAP Signavio Process Manager is:

* Option D (The initial user who registered for a workspace): The Tenant Owner role is automatically assigned to the initial user who creates or registers for the workspace. This user has the highest level of administrative rights, including managing user permissions, configuring the workspace, and overseeing

* the overall use of SAP Signavio within the organization. This role is crucial for ensuring the security and proper governance of the process modeling environment.
