SAP E-S4CPE-2405 Test Papers - Reliable E-S4CPE-2405 Exam Labs

By adhering to the principle of "quality first, customer foremost", and "mutual development and benefit", our company will provide first class service for our customers. As a worldwide leader in offering the best E-S4CPE-2405 exam guide, we are committed to providing comprehensive service to the majority of consumers and strive for constructing an integrated service. What's more, we have achieved breakthroughs in E-S4CPE-2405 Study Materials application as well as interactive sharing and after-sales service. As long as you need help, we will offer instant support to deal with any of your problems about our E-S4CPE-2405 exam questions. Any time is available; our responsible staff will be pleased to answer your question whenever and wherever you are.

SAP Certified Specialist - Implementation Consultant - SAP S/4HANA Cloud Private Edition Sample Questions (Q21-Q26):

NEW QUESTION # 21
Which type of testing should be done after a release upgrade has been implemented?

- A. Integration tests
- B. Regression tests
- C. String tests
- D. User acceptance tests

Answer: B

NEW QUESTION # 22
Where do you find industry cloud solutions to address a customer's unique requirement?

- A. SAP Discovery Center
- B. SAP Signavio Process Navigator
- C. SAP Store
- D. SAP Business Technology Platform

Answer: C

Explanation:
Industry cloud solutions are prebuilt, industry-specific applications or extensions developed by SAP and its partners to address unique customer requirements beyond the standard SAP S/4HANA functionality. Let's analyze where these can be found:
* A. SAP Signavio Process Navigator: This tool provides process models, best practices, and reference content for SAP solutions, including SAP S/4HANA. While it helps with process discovery and optimization, it does not serve as a marketplace for finding or acquiring industry cloud solutions.
* B. SAP Store: This is the correct answer. The SAP Store (store.sap.com) is the official online marketplace where customers can find, try, and buy industry cloud solutions developed by SAP and its ecosystem of partners. These solutions are tailored to specific industries (e.g., manufacturing, retail) and integrate with SAP S/4HANA Cloud Private Edition, often leveraging SAP Business Technology Platform (BTP). SAP documentation highlights the SAP Store as the go-to source for such offerings.
* C. SAP Discovery Center: This platform provides information about SAP Business Technology Platform (BTP) services, missions, and use cases, including industry-specific scenarios. While it offers insights and starting points for building custom solutions, it is not a marketplace for prebuilt industry cloud solutions, making it incorrect here.
* D. SAP Business Technology Platform (BTP): BTP is a platform for extending and customizing SAP solutions (e.g., via integration, analytics, or extensions). While industry cloud solutions may be built on BTP, the platform itself is not a source for finding or purchasing them-it's a technical foundation rather than a marketplace.
In conclusion, theSAP Storeis where you find industry cloud solutions to address a customer's unique requirements.

NEW QUESTION # 23
What are some prerequisites if you want to transfer data with the Migrate Your Data - Migration Cockpit app using a separate SAP HANA database in SAP S/4HANA Cloud Private Edition?
Note: There are 2 correct answers to this question.

- A. You have to activate a certain business process.
- B. You have to create the migration projects.
- C. You have to create the migration objects.
- D. You have to set up the integration.

Answer: B,D

Explanation:
When transferring data using the "Migrate Your Data - Migration Cockpit" app with a separate SAP HANA database in SAP S/4HANA Cloud Private Edition, the following prerequisites must be met:
Option A: You have to set up the integration.
This option is correct. Establishing a connection between the source system and the target SAP S/4HANA Cloud system is essential for data migration.
Option B: You have to create the migration projects.
This option is correct. Defining migration projects within the Migration Cockpit organizes and manages the data migration process effectively.
Option C: You have to activate a certain business process.
This option is incorrect. Activating specific business processes is not a prerequisite for data migration using the Migration Cockpit.
Option D: You have to create the migration objects.
This option is incorrect. SAP provides standard migration objects, and while customization is possible, creating new migration objects is not a prerequisite.
In summary, setting up the integration and creating migration projects are essential prerequisites for using the Migration Cockpit app

with a separate SAP HANA database in SAP S/4HANA Cloud Private Edition.

NEW QUESTION # 24
In which tool can you enable a customer-specific field to be available for UIs and reports relevant for the same business context?

- A. Runtime Authoring mode (Adapt UI)
- B. Custom CDS Views app
- C. Custom Fields app
- D. Extensibility Inventory app

Answer: C

Explanation:
To enable a customer-specific field to be available for UIs and reports relevant for the same business context, you should use theCustom Fieldsapp. This app allows key users to create and manage custom fields that can be integrated into various user interfaces and reports within the same business context.
Option A: Runtime Authoring mode (Adapt UI)
This option is incorrect. The Adapt UI feature allows for the modification of existing user interfaces but does not facilitate the creation of new custom fields across different applications.
Option C: Custom CDS Views app
This option is incorrect. The Custom CDS Views app enables the creation of custom Core Data Services views for reporting purposes but does not support the creation of custom fields for UIs.
Option D: Extensibility Inventory app
This option is incorrect. The Extensibility Inventory app provides an overview of existing extensions but does not offer functionality for creating or enabling custom fields.
In summary, theCustom Fieldsapp is the appropriate tool for creating customer-specific fields that are accessible across UIs and reports within the same business context in SAP S/4HANA Cloud Private Edition.

NEW QUESTION # 25
Which of the following systems is provided to you only via the SUM tool in a system conversion?

- A. SAP S/4HANA Cloud Private Edition
- B. SAP Signavio Process Collaboration Hub
- C. SAP Signavio Process Manager
- D. SAP Business Technology Platform

Answer: A

Explanation:
In a system conversion scenario, the Software Update Manager (SUM) tool is employed to transition existing systems to SAP S/4HANA Cloud, private edition. This process involves upgrading the current system to the SAP S/4HANA Cloud, private edition environment.
Option A: SAP Signavio Process Collaboration Hub
This option is incorrect. The SAP Signavio Process Collaboration Hub is a tool for process collaboration and management, not directly involved in system conversion.
Option B: SAP Business Technology Platform
This option is incorrect. SAP Business Technology Platform serves as a platform for integrating and extending SAP applications but is not the tool used for system conversion.
Option C: SAP Signavio Process Manager
This option is incorrect. The SAP Signavio Process Manager is used for process modeling and analysis, not for system conversion.
Option D: SAP S/4HANA Cloud Private Edition
This option is correct. The SUM tool facilitates the conversion of existing systems to SAP S/4HANA Cloud, private edition, ensuring a smooth transition to the new environment.
Therefore, in a system conversion, the SUM tool is utilized to migrate the system toSAP S/4HANA Cloud Private Edition.

NEW QUESTION # 26
......
