

Free PDF SolarWinds - Newest Hybrid-Cloud-Observability-Network-Monitoring - Exam Sample

Hybrid Cloud Observability Network Monitoring Exam Questions

Our experts group collects the latest academic and scientific research results and traces the newest industry progress in the update of the Hybrid-Cloud-Observability-Network-Monitoring study materials. Then the expert team processes them elaborately and compiles them into the test bank. Our system will timely and periodically send the latest update of the Hybrid-Cloud-Observability-Network-Monitoring Study Materials to our clients. So the clients can enjoy the results of the latest innovation and achieve more learning resources. The credits belong to our diligent and dedicated professional innovation team and our experts.

Actual4Dumps Hybrid-Cloud-Observability-Network-Monitoring product in above-mentioned three formats carries most probable real exam questions. Every person who attempts the exam has different preparation style. Some want to do in-depth study while some prefer quick Hybrid Cloud Observability Network Monitoring Exam test preparation. Actual4Dumps has introduced these three formats so every applicant of the test can prepare as per unique learning styles. In addition, we offer up to 1 year of free questions updates, free demos, discounts, and a 24/7 customer support. Don't miss these incredible offers. Purchase real exam questions today.

Interactive Hybrid-Cloud-Observability-Network-Monitoring Course & New Hybrid-Cloud-Observability-Network-Monitoring Braindumps Sheet

It is well acknowledged that people who have a chance to participate in the simulation for the real Hybrid-Cloud-Observability-Network-Monitoring exam, they must have a fantastic advantage over other people to get good grade in the Hybrid-Cloud-Observability-Network-Monitoring exam. Now, it is so lucky for you to meet this opportunity once in a blue. We offer you the simulation test with the Software version of our Hybrid-Cloud-Observability-Network-Monitoring Preparation dumps in order to let you be familiar with the environment of test as soon as possible.

SolarWinds Hybrid Cloud Observability Network Monitoring Exam Sample

Questions (Q57-Q62):

NEW QUESTION # 57

How is an object ID (OID) verified as included in SolarWinds' MIB database and polled on a device?

- A. run SNMPwalk on the device with the OID
- B. add routers to the additional polling engine
- C. go to manage pollers and find OID
- D. verify the OID using the MIB browser

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

SolarWinds provides a MIB Browser utility that lets you search and verify whether a specific object ID (OID) exists in the SolarWinds MIB database. By entering the OID in the MIB Browser, you can confirm its presence and also test polling against the device.

The documentation states:

"Use the MIB Browser to search for and verify OIDs in the SolarWinds MIB database. The tool also allows you to test poll the device to ensure the OID is being returned." References:

NPM Administrator Guide: Using the MIB Browser for OID Verification

NEW QUESTION # 58

Which three of the following switch port report errors can cause a duplex mismatch? (Choose three.)

- A. 100 MB full
- B. > 0.5% receive
- C. CRC
- D. are collision

Answer: B,C,D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Duplex mismatches often result in specific types of switch port errors. According to SolarWinds documentation, the most common indicators of a duplex mismatch include CRC errors (B), high receive error percentages (C), and collisions (D). These errors occur because one end of the link operates in full-duplex mode (no collisions expected), while the other operates in half-duplex (collisions possible), resulting in frame errors, dropped packets, and high CRC counts. The option "100 MB full" refers to a speed/duplex setting, not an error.

Reference:

Network Performance Monitor Administrator Guide, "Diagnosing Duplex Mismatches - Symptoms and Errors,"

"CRC errors, excessive receive errors, and collisions are strong indicators of a duplex mismatch on switch ports."

NEW QUESTION # 59

Which two of the following actions can be taken to resolve duplicate flows? (Choose two.)

- A. Ensure NetFlow export is enabled on sub-interfaces.
- B. Enable automatic addition of flow sources.
- C. Enable the flow de-duplication feature.
- D. Ensure NetFlow is enabled for ingress interfaces.

Answer: C,D

NEW QUESTION # 60

To drill down into a log summary for a specific node, where in SolarWinds' platform can a user view these logs?

- A. Node Details Summary > Management > List Resources

- B. Alerts and Activity > Message Center
- **C. Node Details Summary > Management > Analyze Logs**
- D. My Dashboard > Logs > Log Viewer

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

For a node-specific log view, navigate to the node's details summary and choose "Analyze Logs" under the Management section. This provides a filtered view of log messages for the selected node, allowing you to drill into relevant log events and details.

From the documentation:

"To view logs for a specific node, open Node Details > Management > Analyze Logs for node-level log analysis and troubleshooting." References:

Log Analyzer Administrator Guide: Viewing Node-Specific Logs

NEW QUESTION # 61

Which two of the following actions can be taken to resolve duplicate flows? (Choose two.)

- A. Ensure NetFlow export is enabled on sub-interfaces.
- B. Enable automatic addition of flow sources.
- **C. Enable the flow de-duplication feature.**
- **D. Ensure NetFlow is enabled for ingress interfaces.**

Answer: C,D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Duplicate flows can occur if multiple interfaces export the same data or if NetFlow is configured on both ingress and egress interfaces. SolarWinds documentation recommends:

Enabling the "flow de-duplication" feature within NetFlow Traffic Analyzer to automatically filter duplicate data.

Ensuring NetFlow is enabled only on ingress interfaces (best practice), as enabling it on both directions can result in duplicate records.

Automatic addition of flow sources and enabling on sub-interfaces do not directly address duplication.

References:

NTA Administrator Guide: Troubleshooting Flow Data - Resolving Duplicate Flows

NEW QUESTION # 62

.....

As we all know, famous companies use certificates as an important criterion for evaluating a person when recruiting. The number of certificates you have means the level of your ability. Hybrid-Cloud-Observability-Network-Monitoring practice materials are an effective tool to help you reflect your abilities. With our study materials, you do not need to have a high IQ, you do not need to spend a lot of time to learn, you only need to follow the method Hybrid-Cloud-Observability-Network-Monitoring Real Questions provide to you, and then you can easily pass the exam. Our study material is like a tutor helping you learn, but unlike a tutor who make you spend too much money and time on learning.

Interactive Hybrid-Cloud-Observability-Network-Monitoring Course: <https://www.actual4dumps.com/Hybrid-Cloud-Observability-Network-Monitoring-study-material.html>

One of the most important term of Interactive Hybrid-Cloud-Observability-Network-Monitoring Course - Hybrid Cloud Observability Network Monitoring Exam exam pdf vce is the PDF version, it is very easy to read and also can be printed which convenient for you to take notes, Second, once we have written the latest version of the Hybrid-Cloud-Observability-Network-Monitoring certification guide, our products will send them the latest version of the Hybrid-Cloud-Observability-Network-Monitoring test practice question free of charge for one year after the user buys the product, SolarWinds Exam Sample Hybrid-Cloud-Observability-Network-Monitoring Questions It may sound complicated, but once you go through regular study and intensive practice, passing the final exam would be a piece of cake.

Our Hybrid-Cloud-Observability-Network-Monitoring study materials are verified with useful & accurate exam contents which may cover the most questions and answer in the real exam, and the professional contents of our Hybrid-Cloud-Observability-Network-

Monitoring exam braindumps also help you prepare efficiently.

Hybrid-Cloud-Observability-Network-Monitoring Dumps Materials & Hybrid-Cloud-Observability-Network-Monitoring Exam Braindumps & Hybrid-Cloud-Observability-Network-Monitoring Real Questions

How long are your certifications marketable, One of the most important Hybrid-Cloud-Observability-Network-Monitoring term of Hybrid Cloud Observability Network Monitoring Exam exam pdf vce is the PDF version, it is very easy to read and also can be printed which convenient for you to take notes.

Second, once we have written the latest version of the Hybrid-Cloud-Observability-Network-Monitoring certification guide, our products will send them the latest version of the Hybrid-Cloud-Observability-Network-Monitoring test practice question free of charge for one year after the user buys the product.

It may sound complicated, but once you go through regular study and New Hybrid-Cloud-Observability-Network-Monitoring Braindumps Sheet intensive practice, passing the final exam would be a piece of cake, In case you fail in your exam, we will refund your full payment.
