What's more, part of that Test4Engine 2V0-12.24 dumps now are free: <https://drive.google.com/open?id=1bMcDNC2FCi7YmjUzmbwy9Iu7oZIP3b>

The 2V0-12.24 Practice Questions are designed and verified by experienced and renowned VMware vSphere Foundation 5.2 Administrator exam trainers. They work collectively and strive hard to ensure the top quality of Test4Engine 2V0-12.24 exam practice questions all the time. The 2V0-12.24 Exam Questions are real, updated, and error-free that helps you in VMware vSphere Foundation 5.2 Administrator exam preparation and boost your confidence to crack the upcoming 2V0-12.24 exam easily.

To provide our users with the VMware vSphere Foundation 5.2 Administrator (2V0-12.24) latest questions based on the sections of the actual exam questions, we regularly update our 2V0-12.24 study material. Also, Test4Engine provides free updates of VMware 2V0-12.24 Exam Questions for up to 365 days. For customers who don't crack the VMware 2V0-12.24 test after using our product, Test4Engine will provide them a refund guarantee according to terms and conditions.

**Pass Leader 2V0-12.24 Dumps - VMware 2V0-12.24 Pdf Exam Dump:
VMware vSphere Foundation 5.2 Administrator Pass Certify**

If you have any questions on our 2V0-12.24 exam question, you can just contact us for help. Even if it is a technical problem, our

professional specialists will provide you with one-on-one services to help you solve it in the first time. And our 2V0-12.24 learning materials are really cost-effective in this respect. We always believe that customer satisfaction is the most important. And we always put the considerations of the customers as the most important matters. Our 2V0-12.24 Study Guide won't let you down.

VMware vSphere Foundation 5.2 Administrator Sample Questions (Q102-Q107):

NEW QUESTION # 102

An administrator is deploying an NSX Edge cluster from SDDC Manager. The administrator plans to configure the Border Gateway Protocol (BGP) to enable dynamic routing with the upstream physical networking.

Which three values must be provided when configuring BGP? (Choose three.)

- A. BGP Router ID
- B. BGP Autonomous System Number (ASN)
- C. BGP Password
- D. BGP Route Topology
- E. BGP Peer IP

Answer: A,B,E

Explanation:

The BGP Autonomous System Number (ASN) is a unique identifier that must be configured for BGP to define the routing domain.

The BGP Router ID is used to uniquely identify the BGP router in the network.

The BGP Peer IP is required to establish a BGP peering relationship with an upstream router or another BGP-enabled device.

NEW QUESTION # 103

What is the primary benefit of using VMware vCenter Content Libraries?

- A. They provide enhanced security for vCenter Server.
- B. They enable centralized management and distribution of VM templates, ISO images, and scripts.
- C. They facilitate the creation of virtual networks.
- D. They allow for the automation of VM snapshots.

Answer: B

Explanation:

VMware vCenter Content Libraries provide a centralized location for storing and managing virtual machine templates, ISO images, and scripts, making it easier to distribute these resources across multiple vCenter instances. This helps streamline the deployment process, ensuring consistency and reducing the overhead of managing these resources manually.

NEW QUESTION # 104

What is the impact of consolidating snapshots on a virtual machine?

- A. It reverts the VM to the state of the first snapshot taken.
- B. It disconnects the VM from the network temporarily.
- C. It temporarily increases the available disk space consumption on the datastore while merging data.
- D. It changes the VM's hardware compatibility settings.

Answer: C

Explanation:

When consolidating snapshots, the data from the snapshot files is merged back into the original virtual disk. This process temporarily increases the disk space usage on the datastore because of the additional space required to merge the snapshot data into the primary disk.

NEW QUESTION # 105

While preparing to enable Application Virtual Networks (AVNs) and deploying Aria Suite components, an administrator plans to

deploy an NSX Edge cluster.

What is a requirement for deploying the NSX Edge cluster?

- A. The Edge transport nodes must be deployed using the 'large' form factor.
- B. The Edge cluster must be configured for NSX Federation.
- **C. The Edge cluster must be deployed in the management domain.**
- D. The Edge transport nodes must be configured with an MTU of 1500.

Answer: C

Explanation:

When deploying an NSX Edge cluster in a VMware Cloud Foundation (VCF) environment, it must be deployed in the management domain. The management domain is responsible for managing and orchestrating various resources, including the NSX Edge cluster, which is crucial for network virtualization and security within the environment.

NEW QUESTION # 106

An organization needs to perform maintenance on a specific host in a vSAN cluster. An administrator is required to put the host into maintenance mode whilst ensuring that all VMs in the cluster remain accessible.

Which three steps should the administrator take to correctly set a vSAN host into maintenance mode? (Choose three.)

- **A. Right-click the host and select "Enter Maintenance Mode."**
- **B. Navigate to the vSAN cluster in the vSphere Client and select the host.**
- C. Migrate all VMs manually from the host before enabling maintenance mode.
- D. Select the "No Data Migration" option to speed up the process.
- **E. Choose the "Ensure Accessibility" option to maintain data accessibility.**

Answer: A,B,E

Explanation:

The "Ensure Accessibility" option ensures that all data remains accessible during maintenance while minimizing the impact on performance and data migration.

The administrator must navigate to the vSAN cluster in the vSphere Client to select the host for maintenance mode.

Right-clicking the host and selecting "Enter Maintenance Mode" is the standard action for placing a host into maintenance mode.

NEW QUESTION # 107

.....

Test4Engine VMware 2V0-12.24 exam information are cheap and fine. We use simulation questions and answers dedication to our candidates with ultra-low price and high quality. We sincerely hope that you can pass the exam. We provide you with a convenient online service to resolve any questions about VMware 2V0-12.24 Exam Questions for you.
