SAP Certified Associate - Implementation Consultant - SAP Customer Data Cloud Sample Questions (Q33-Q38):

NEW QUESTION # 33

You are implementing a mobile app and want to expire user sessions after 1800 seconds. How can you achieve this?

- A. By setting a value of 1800 for the session Expiration parameter together with the API key when initializing the SDK
- B. By setting a value of 1800 for the sessionExpiration parameter when calling accounts.initSession
- C. By setting a value of 1800 for the sessionExpiration parameter when calling accounts.login
- D. By setting a value of 1800 for the sessionExpiration parameter in cookie settings

Answer: C

NEW QUESTION # 34

Which features can be overridden at the child level when using site groups? Note: There are 3 correct answers to this question.

- A. Default login and registration screen-set
- B. Login identifier
- C. New User Welcome email template
- D. Data schema
- E. Web SDK configuration

Answer: A,B,C

NEW QUESTION # 35

The client would like to create a new optional consent for data sharing. What consent type needs to be chosen?

- A. Terms of Service
- B. Other consent statement
- C. Privacy Policy

- D. Subscription

Answer: B

NEW QUESTION # 36

You want to use screen-sets to capture multiple consent statements on your website. The statements are needed to complete registration and support the re consent process.

Which of the following screens need to be mapped to the consent statements?

Note: There are 2 correct answers to this question.

- A. Registration
- B. Login
- C. Registration Completion
- D. Profile Update

Answer: A,C

Explanation:

To capture multiple consent statements during registration and support the re consent process, the following screens need to be mapped to the consent statements:

* Option A: Incorrect. TheProfile Updatescreen is used for updating user profiles after registration and is not directly involved in capturing consent during registration.

* Option B: Correct. TheRegistration Completionscreen is used to finalize the registration process and can include consent statements that users must agree to before completing registration.

* Option C: Correct. TheRegistrationscreen is the primary screen where users enter their details and can also include consent statements as part of the registration flow.

* Option D: Incorrect. TheLoginscreen is used for authentication and is not typically used to capture consent statements.
