L5M10 best CIPS certification exam questions and answers free download

The product we provide with you is compiled by professionals elaborately and boosts varied versions which aimed to help you learn the L5M10 study materials by the method which is convenient for you. They check the update every day, and we can guarantee that you can get a free update service from the date of purchase. Once you have any questions and doubts about the L5M10 Exam Questions we will provide you with our customer service before or after the sale, you can contact us if you have question or doubt about our exam materials and the professional personnel can help you solve your issue about using L5M10 study materials.

CIPS Logistics Management Sample Questions (Q74-Q79):

NEW QUESTION # 74

In transportation terminology, what type of cargo would be considered "less than carload" (LTC)?

- A. A shipment that is less than a full truckload
- B. A small box of components that would fit on the back seat of a car
- C. Inventory that is worth less than the price of an average car
- D. A shipment that fills half a rail carriage in volume

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

"Less than carload" refers to rail freight shipments smaller than a full railcar load (i.e., not filling an entire rail carriage). The term relates to railway "cars," not road vehicles. (Reference: CIPS L5M10 Study Guide, transport terminology-LTC/LCL/FTL, p. 6)

NEW QUESTION # 75

Terry manages a warehouse stocking electronics and has a pilferage (theft) issue. Which of the following would help reduce this issue?

- A. Paperless communication with suppliers
- **B. RFID tags**
- C. Additional breaks for staff
- D. Warehouse Management System

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

RFID tagging supports item-level identification and can trigger alarms at controlled exit points, helping deter and detect theft. While a WMS improves control and accuracy, RFID directly addresses shrinkage through automated detection. (Reference: CIPS L5M10 Study Guide, RFID uses-waste and pilferage reduction, p. 23)

NEW QUESTION # 76

What is the name of the emerging tool that can help companies improve supply chain visibility across macro- environmental factors such as political, environmental, and social changes?

- A. Six Sigma
- **B. SCEM**
- C. STEEPLE
- D. LEAN

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Supply Chain Event Management (SCEM) systems monitor and compare planned versus actual supply chain events. They issue alerts when disruptions or macro-environmental changes (e.g., political instability or weather) cause deviations from plan, enabling rapid corrective actions. (Reference: CIPS L5M10 Study Guide, SCEM section, p. 40)

NEW QUESTION # 77

Red Lettuce Ltd is a manufacturer of screwdrivers. It uses a finite loading approach in its work centres. What does this mean?

- **A. The amount of work given to each work centre is limited to a specific amount**
- B. Each work centre produces items to a specific budget
- C. Demand for work may vary from work centre to work centre
- D. Each work centre is given a target number of items to produce

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Finite loading assigns work to production centres only up to their available capacity and processing time. It ensures that the workload remains realistic and prevents overloading any resource. By contrast, infinite loading ignores capacity limits and assigns all work regardless of availability, leading to backlogs or bottlenecks.

(Reference: CIPS L5M10 Study Guide, Production planning - finite vs. infinite loading, p. 120)

NEW QUESTION # 78

What is the name given to an additional file attached to an inventory file that links a requirement to the specific order or component that triggered it?

- A. Requirement record
- B. Bill of materials
- **C. Peg record**
- D. CSV file

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Apeg record provides "pegging," i.e., a traceable link between demand (e.g., a customer order/MPS line) and the specific supply created to satisfy it. (CIPS L5M10 Study Guide, p. 186)

NEW QUESTION # 79

.....
