Quiz The Open Group - OGA-031 - Newest Fresh ArchiMate 3 Part 1 Exam Dumps

Our OGA-031 free dumps demo will provide you some basic information for the accuracy of our exam materials. All questions and answers in our OGA-031 real dumps are tested by our certified trainers with rich experience and one or two days is enough for you practicing Valid OGA-031 Exam Pdf. Our OGA-031 dumps torrent contains everything you want to solve the challenge of real exam.

The Open Group ArchiMate 3 Part 1 Exam Sample Questions (Q30-Q35):

NEW QUESTION # 30

What element types are defined in the top-level hierarchical structure of the language?

- A. Application, Business, Strategy, Technology
- B. Behavior, Composite, Motivation, Structure
- C. Abstract, Core, Object
- D. Active, Behavior, Passive

Answer: D

Explanation:

Comprehensive and Detailed in Depth Explanation: The ArchiMate Core Framework categorizes elements into three primary types:

- * Active Structure Elements- Represent entities that perform behavior (e.g., business actors, applications).
- * Behavior Elements- Represent functions, processes, or services.

* Passive Structure Elements- Represent objects or information (e.g., data objects, artifacts).

The ArchiMate 3.2 Specification explicitly defines these three primary element types.

* ArchiMate 3.2 Specification

NEW QUESTION # 31

In the Business Layer metamodel, what type of element is assigned to a Business Service?

- A. Business Event
- **B. Business Interface**
- C. Business Actor
- D. Business Process

Answer: B

Explanation:

Comprehensive and Detailed in Depth Explanation: A Business Interface is an external active structure element that provides an external point of access to one or more Business Services. In the Business Layer metamodel, a Business Service is assigned to a Business Interface because interfaces define how services are exposed to external parties or other components within an enterprise. This is confirmed in the ArchiMate Specification 3.2, where a Business Interface is described as representing a point of interaction that enables access to Business Services.

NEW QUESTION # 32

Complete the sentence. The passive counterpart of the application component in the application layer is called a(n) _____

- A. Meaning
- **B. Data object**
- C. Application event
- D. Product

Answer: B

Explanation:

According to the application layer metamodel, the passive counterpart of the application component is the data object, which represents data structured for automated processing. A data object can be accessed or manipulated by an application component or an application function.

References: ArchiMate 3.2 Specification, Chapter 8: Application Layer1; Application Layer in ArchiMate Part 1 - Metamodel2.

NEW QUESTION # 33

Complete the sentence. In the Technology Layer metamodel, a communication network a path_

- A. serves
- **B. realizes**
- C. accesses
- D. aggregates

Answer: B

Explanation:

According to the Technology Layer metamodel, a communication network is a physical communication medium between two or more devices or other networks. A communication network realizes a path, which is a relation between two or more nodes through which they can exchange information.

NEW QUESTION # 34

Consider the diagram:

(A diagram showing three goals: Increase Premium by 12%, Reduce Usage of Consultants by 25%, and Increase Internal Labor Expense by no more than 4%, all connected to Reduce Expense Ratio from 15% to 10% using aggregation relationships.) What is the best description of the diagram?

- A. The goal "Reduce Expense Ratio from 15% to 10%" must be achieved before any of the other three goals is achieved.
- B. The goal "Reduce Expense Ratio from 15% to 10%" will be achieved if at least one of the other three goals is achieved.
- **C. The goal "Reduce Expense Ratio from 15% to 10%" combines three other goals.**
- D. The goal "Reduce Expense Ratio from 15% to 10%" is similar to the three other goals.

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

This diagram represents a goal decomposition model in ArchiMate, specifically illustrating how multiple lower-level goals contribute to a higher-level goal.

* The top three goals ("Increase Premium," "Reduce Consultant Usage," and "Increase Internal Labor Expense") are connected to "Reduce Expense Ratio" using an aggregation relationship.

* Aggregation in ArchiMate indicates that multiple elements together contribute to forming a larger whole.

* This means "Reduce Expense Ratio from 15% to 10%" is composed of these three contributing goals.

Analysis of Answer Choices:

#A. The goal "Reduce Expense Ratio from 15% to 10%" combines three other goals. ##Correct Answer

* The aggregation relationship used in the diagram indicates that the three top-level goals together support or combine to form the "Reduce Expense Ratio" goal.

* ArchiMate 3.2 Specification, Section 6.4.1, states that Aggregation represents a "whole-part" relationship, meaning the main goal (Reduce Expense Ratio) is achieved by achieving the contributing goals.

#B. The goal "Reduce Expense Ratio from 15% to 10%" will be achieved if at least one of the other three goals is achieved. ##Incorrect

* This would require an Influence or Contribution relationship rather than Aggregation.

* Aggregation means all three goals contribute to the overall goal, not just one of them.

#C. The goal "Reduce Expense Ratio from 15% to 10%" must be achieved before any of the other three goals is achieved. ##Incorrect

* This would imply a triggering or dependency relationship, which is not present in the diagram.

* The diagram does not indicate a sequence of achievements.

#D. The goal "Reduce Expense Ratio from 15% to 10%" is similar to the three other goals. ##Incorrect

* The relationship shown is not equivalence or similarity, but aggregation, meaning the three smaller goals form part of the main goal.

#A. The goal "Reduce Expense Ratio from 15% to 10%" combines three other goals.

References:

* ArchiMate 3.2 Specification: Sections 6.4.1 (Aggregation) and 6.2.2 (Goal Decomposition).

* Archi User Guide: Understanding goal decomposition and strategic planning.

NEW QUESTION # 35

.....

The The Open Group OGA-031 exam questions are the ideal and recommended study material for quick and easiest ArchiMate 3 Part 1 Exam (OGA-031) exam dumps preparation. The ArchiMate 3 Part 1 Exam (OGA-031) practice questions are designed and verified by qualified and renowned The Open Group Certification Exams trainers. They work closely and check all OGA-031 Exam

Dumps step by step. They also ensure the best possible answer for all OGA-031 exam questions and strive hard to maintain the top standard of ArchiMate 3 Part 1 Exam (OGA-031) exam dumps all the time.
