GAQM Certified Business Continuity Professional (CBCP) Sample Questions (Q19-Q24):

NEW QUESTION # 19

Which certification centre provides the physical infrastructure?

- A. Service
- B. Facility

Answer: B

Explanation:

A facility certification center is a center that provides the physical infrastructure for testing and certifying the functionality and performance of products, systems, or services. A facility certification center may have specialized equipment, tools, environments, or standards that can simulate real-world conditions or scenarios.

A facility certification center may also have qualified staff, experts, or auditors who can conduct the testing and certification process.

NEW QUESTION # 20

Which Process can be both time consuming and expensive as a result, management will expect tangible benefits to be achieved by the process?

- A. Business Process Planning
- B. Business Contingency Planning
- C. Business Ethical Planning
- **D. Business Continuity Planning**

Answer: D

Explanation:

Business continuity planning is the process of identifying, developing, and implementing strategies and plans to ensure the continuity of an organization's critical functions and processes in the event of a disruption. It can be both time consuming and expensive, as it requires a thorough analysis of risks, impacts, resources, and recovery options. However, management will expect tangible benefits from the process, such as reduced losses, increased resilience, improved reputation, and compliance with regulations. Verified

NEW QUESTION # 21

Which type of risk occurs due to volatile environments in which businesses operate and the nature of their operations?

- A. Project Risk
- B. Quality Risk
- **C. Business Risk**
- D. Auditing Risk

Answer: C

Explanation:

Explanation

Business risk is the risk of loss or damage to an organization's performance, reputation, assets, or stakeholders due to internal or external factors that affect its ability to achieve its objectives. Business risk can arise from various sources, such as market conditions, customer preferences, competition, technology, regulation, compliance, operations, finance, human resources, or natural disasters. Business risk can have a direct or indirect impact on an organization's profitability, growth, sustainability, or continuity.

NEW QUESTION # 22

In the event of a disaster that destroys the physical office site operations will be relocated to a temporary site.

- **A. True**
- B. False

Answer: A

Explanation:

In the event of a disaster that destroys the physical office site operations will be relocated to a temporary site.

This is true because one of the recovery strategies for a disaster is to have an alternate site where the critical functions and processes can be resumed until the primary site is restored or replaced. The alternate site can be a pre-arranged location, such as a rented office space, a hotel, or another branch of the same organization, or a mobile facility, such as a trailer or a container. The alternate site should have the necessary equipment, systems, data, and resources to support the continuity of the business. NEW QUESTION # 23

Which type of management is an often used term, but has so many different connotations to different people that invariably the message of its meaning gets confused?

- A. Strategic
- B. Technical
- C. Operational
- D. Functional

Answer: A

Explanation:

Strategic management is the type of management that is an often used term, but has so many different connotations to different people that invariably the message of its meaning gets confused. Strategic management is the process of defining and executing the long-term vision, goals, plans, and actions of an organization. Strategic management involves analyzing the internal and external environment, formulating strategies, implementing them, and evaluating their outcomes. Strategic management can be complex and challenging, as it requires alignment and integration of various aspects of the organization, such as culture, structure, resources, capabilities, stakeholders, markets, competitors, or regulations.
