## H3C Deploy and Manage the H3C CAS virtualization platform V3.0 Sample Questions (Q50-Q55):

### NEW QUESTION # 50

Which of the following statements about virtual machine online migration is correct?

- A. If the migration is not completed within the migration timeout period, the system will suspend the original virtual machine so that it can quickly complete the migration. After the migration is completed, the virtual machine will be restored to the running state.
- B. When migrating a host online, the destination host's virtual machine will be suspended first, then the memory data of the original virtual machine will be copied, and finally the original virtual machine will be shut down, and the destination host's virtual machine will change from the suspended state to the running state.
- C. When migrating hosts and storage online, the virtual machine's memory data and image files are transmitted through the management network.
- D. When migrating hosts and storage online, the virtual machine's memory data is transmitted through the management network, while the image file is transmitted through the storage network.

**Answer: A,B,C**

#### NEW QUESTION # 51

The incorrect statement about installing the CAS system through HDM (or ilo) is

- A. The management server needs to install CVM, but the business server does not need to install CVM
- B. There is a trial period after CAS is installed. It is recommended to register for a formal license during this period.
- C. After the installation is complete, you need to confirm the image file selection in the virtual drivers menu. The ISO file has been disconnected.
- D. The interface address configured during installation is the business network port address

**Answer: D**

#### NEW QUESTION # 52

Regarding the User Self-Service Platform (ssv), which of the following statements is correct?

- A. After the user submits a cloud host application, the organization administrator needs to approve the virtual machine electronic flow
- B. After the user submits a cloud host application, he can directly obtain the right to use the virtual machine
- C. Organization administrators can deploy virtual machines using virtual machine templates and assign them to organization users
- D. After the cloud host application electronic flow is approved, the system will automatically deploy the virtual machine

**Answer: A,C,D**

#### NEW QUESTION # 53

Regarding server RAID cards, the correct statement is:

- A. Server disks do not require array cards to be used for RAID0
- B. When using FBWC, data retention time does not exceed 72 hours. If the phone is disconnected, the server recovery data must be flashed to the hard disk as soon as possible.
- C. The array card cache must be used with a cache battery, otherwise there is a risk of data loss after a power outage
- D. write back mode, data will be written directly to the disk, high security

**Answer: C**

#### NEW QUESTION # 54

Which of the following statements about the functions and effects of the CVM module is correct?

- A. If the server is only used for CVM management and not as a CVK computing resource, the server does not need to support hardware-assisted virtualization.
- B. CVM is responsible for server hardware resource management and virtual machine creation management
- C. CVM supports high availability (HA), dynamic resource scheduling (DRS), virtual machine backup, network policy templates and other functions
- D. Each server needs to install CVM as the hypervisor layer of server virtualization

**Answer: A,B,C**

### NEW QUESTION # 55
