GIAC GCIH (GIAC Certified Incident Handler) Exam is a certification exam designed to test the ability of IT professionals to manage and respond to security incidents within an organization. GCIH exam is intended to validate the skills and knowledge required to effectively detect, respond to, and resolve incidents that may pose a threat to an organization's systems or data. Certified Incident Handlers are essential members of any organization's security team and are responsible for identifying and containing incidents, performing forensic analysis, and implementing preventative measures to reduce the likelihood of future incidents.

The GCIH certification exam is a rigorous test that requires the candidate to have a thorough understanding of the various aspects of incident handling. GCIH Exam consists of 150 multiple-choice questions, and the candidate has four hours to complete it. The passing score for the exam is 71%, and the candidate must renew the certification every four years. The GCIH certification is highly respected in the cybersecurity industry and is a valuable asset for professionals looking to advance their careers in incident handling.

GIAC GCIH certification is aimed at professionals who work in roles such as incident responder, network security analyst, security operations center (SOC) analyst, and other similar positions. It is designed to validate the individual’s ability to detect, respond to, and recover from security incidents, as well as their knowledge of incident handling methodologies, tools, and best practices.
