GIAC Defending Advanced Threats Sample Questions (Q69-Q74):

NEW QUESTION # 69

Your organization is conducting a threat-hunting exercise. During the process, your team identifies an unfamiliar service running on several servers, all communicating with an external IP address that has no known business function. Upon deeper investigation, the team suspects the presence of a command and control (C2) channel.

What immediate steps should your team take to mitigate the threat and secure the network?

Response:

- A. Notify all employees to change their passwords and update their access controls
- B. Reboot the affected servers and restore them from backup

- C. Isolate the affected servers and block communication to the suspicious external IP address
- D. Increase system logging on the servers and wait for more activity to gather evidence

Answer: C

NEW QUESTION # 70
