## Oracle Project Management Cloud 2024 Implementation Professional Sample Questions (Q97-Q102):

### NEW QUESTION # 97

You are trying to create a project purchase order (PO) but you are unable to select Expenditure Organization in the PO. Identify two reasons for this problem. (Choose two.)

- A. The organization is classified as a project unit.
- B. The organization is not classified as a project expenditure organization.
- C. The organization is not classified as a project-owning organization.
- D. The organization is not included in the organization tree that is assigned to the business unit that owns the PO.

Answer: B,D

Explanation:

Ref: Implementing-Project-Financial-Management-and-Grants-Management.pdf Chapter 3 - Define Project Organizations Page # 12 Topic - Selecting Organization Hierarchies for the Business Unit The following conditions are required for an organization to be eligible to be a project expenditure organization:

- \* You must assign the Project Expenditure Organization classification to the organization.
- \* The organization must belong to the hierarchy that you specify in the project implementation options for the business unit.

#### NEW QUESTION # 98

Which two are the workflows in Project Financial Management? (Choose two.)

- A. Project Status Change
- B. Burden Cost Recalculation
- C. Expenditure Item Adjustment
- D. Asset Line Generation
- E. Capital Interest Calculation

**Answer: A,C**

Explanation:

The workflows in Project Financial Management are business processes that automate the approval and notification tasks for various project transactions and events. Two of the workflows in Project Financial Management are:

\* Project Status Change: This workflow manages the approval and notification tasks for changing the status of a project or task from one value to another. For example, when a project or task is submitted for approval, this workflow routes the request to the appropriate approvers and notifies them of the action required.

\* Expenditure Item Adjustment: This workflow manages the approval and notification tasks for adjusting expenditure items that have been charged to a project or task. For example, when an expenditure item is adjusted by a project manager or a cost accountant, this workflow routes the adjustment to the appropriate approvers and notifies them of the action required. Capital Interest Calculation, Burden Cost Recalculation, and Asset Line Generation are not workflows in Project Financial Management, but processes that perform various calculations and transactions for project costs and assets. #### NEW QUESTION # 99

Identify three purposes for which the project resource search index is used. (Choose three.)

- A. Provide absence details for resources
- B. Filter counts while you search for resources
- C. Calculate Resource Qualification Scores
- D. Display resource details
- E. Calculate Resources Availability Scores

**Answer: B,C,D**

Explanation:

The project resource search index is used to store and retrieve information about project resources such as their availability, qualifications, preferences, etc. The project resource search index is used for three purposes:

\* Display resource details: The project resource search index provides the resource details such as name, email, job title, organization, etc. that are displayed on the resource search page.

\* Filter counts while you search for resources: The project resource search index provides the filter counts that show how many resources match each filter criterion on the resource search page.

\* Calculate Resource Qualification Scores: The project resource search index provides the qualification information such as skills, certifications, languages, etc. that are used to calculate the Resource Qualification Scores for each resource based on their match with the resource request. The project resource search index does not provide absence details for resources or calculate Resource Availability Scores. These are provided by other components such as Oracle Fusion Absence Management and Oracle Fusion Human Capital Management.
