Easy Cisco 300-715 Questions: Dependable Exam Prep Source [2025]

Lead2PassExam never sells the useless 300-715 certification 300-715 exam dumps out. You will receive our 300-715 exam dumps

in time and get CCNP Security Certified easily. Try 300-715 Exam free demo before you decide to buy it in Lead2PassExam. After you buy Lead2PassExam certification 300-715 exam dumps, you will get free update for ONE YEAR!

Cisco Implementing and Configuring Cisco Identity Services Engine Sample Questions (Q282-Q287):

NEW QUESTION # 282

Which RADIUS attribute is used to dynamically assign the Inactivity active timer for MAB users from the Cisco ISE node?

- A. radius-server timeout
- B. session timeout
- C. termination-action
- D. idle timeout

Answer: D

Explanation:

Reference:

When the inactivity timer is enabled, the switch monitors the activity from authenticated endpoints. When the inactivity timer expires, the switch removes the authenticated session. The inactivity timer for MAB can be statically configured on the switch port, or it can be dynamically assigned using the RADIUS Idle-Timeout attribute

NEW QUESTION # 283

An administrator is configuring RADIUS on a Cisco switch with a key set to Cisc403012128 but is receiving the error "Authentication failed: 22040 Wrong password or invalid shared secret. "what must be done to address this issue?

- A. Configure the key on the Cisco ISE instead of the Cisco switch.
- B. Validate that the key is correct on both the Cisco switch as well as Cisco ISE.
- C. Add the network device as a NAD inside Cisco ISE using the existing key.
- D. Use a key that is between eight and ten characters.

Answer: C

NEW QUESTION # 284

When setting up profiling in an environment using Cisco ISE for network access control, an organization must use non-proprietary protocols for collecting the information at layer 2. Which two probes will provide this information without forwarding SPAN packets to Cisco ISE? {Choose two.)

- A. DHCP SPAN probe
- B. DNS probe
- C. SNMP query probe
- D. NetFlow probe
- E. RADIUS probe

Answer: C,E

Explanation:

NEW QUESTION # 285

Refer to the exhibit. A network engineers configuring the switch to accept downloadable ACLs from a Cisco ISC server. Which two commands should be run to complete the configuration? (Choose two)

```
Switch(config)# aaa new-model
Switch(config)# aaa authentication dot1x default group radius
Switch(config)# aaa authorization network default group radius
```

- A. radius server vsa send authentication
- B. radius-server attribute 8 include-in-access-req
- C. dot1x system-auth-control
- D. ip device tracking
- E. aaa authorization auth-proxy default group radius

Answer: C,D

Explanation:

radius server vsa send authentication is enabled by default on IOS 15.X and later versions.

To configure a switch to accept downloadable ACLs from a Cisco ISE server, the following two commands are required:

ip device tracking: This command enables the switch to track IP device information, which is needed for the ISE server to provide dynamic access policies based on a device's IP address.

dot1x system-auth-control: This command enables 802.1X authentication on the switch and allows the switch to forward authentication requests to the ISE server.

NEW QUESTION # 286

A new employee just connected their workstation to a Cisco IP phone. The network administrator wants to ensure that the Cisco IP phone remains online when the user disconnects their Workstation from the corporate network. Which CoA configuration meets this requirement?

- A. Reauth
- B. Port Bounce
- C. Disconnect
- D. NoCoA

Answer: A

Explanation:

The Reauth option may be sufficient for cases where no VLAN or address change is expected following reauthorization of the current session.

If multiple endpoints are detected on a wired switchport, ISE will automatically revert to using the Reauth option to avoid service disruption of other connected devices. A common example is a workstation connected to an IP phone where a port bounce would interrupt communications for both workstation and phone.

NEW QUESTION # 287

.....

Before clients purchase our Implementing and Configuring Cisco Identity Services Engine test torrent they can download and try out our product freely to see if it is worthy to buy our product. You can visit the pages of our product on the website which provides the demo of our 300-715 study torrent and you can see parts of the titles and the form of our software. On the pages of our 300-715 study tool, you can see the version of the product, the updated time, the quantity of the questions and answers, the characteristics and merits of the product, the price of our product, the discounts to the client, the details and the guarantee of our 300-715 study torrent, the methods to contact us, the evaluations of the client on our product, the related exams and other information about our Implementing and Configuring Cisco Identity Services Engine test torrent.
