- A. A higher level of major risk will require a stage to be shorter
- B. A higher level of major risk will require a stage to be longer
- C. Stage length is influenced by project board availability
- D. Use of management stages represents a time driven control

Answer: A

NEW QUESTION # 158

Which process is triggered towards the end of the final stage when all the assigned work has been completed?

- A. Closing a Project

- B. Managing a Stage Boundary
- C. Managing Product Delivery
- D. Controlling a Stage

Answer: A

Explanation:

The Closing a Project process in PRINCE2 is triggered towards the end of the final stage when all assigned work has been completed. This process is designed to ensure that all project objectives have been achieved, all products have been delivered, and the project can be formally closed and evaluated for success and areas of improvement.
