# Get Realistic 1z0-1057-25 Valid Braindumps Free and Pass Exam in First Attempt

The competition in today's society is the competition of talents. Can you survive and be invincible in a highly competitive society? Can you gain a foothold in such a complex society? If your answer is "no", that is because your ability is not strong enough. Our 1z0-1057-25 test braindumps can help you improve your abilities. Once you choose our learning materials, your dream that you have always been eager to get Oracle certification which can prove your abilities will realized. You will have more competitive advantages than others to find a job that is decent. We are convinced that our 1z0-1057-25 Exam Questions can help you gain the desired social status and thus embrace success.

ValidExam online digital Oracle 1z0-1057-25 exam questions are the best way to prepare. Using our Oracle 1z0-1057-25 exam dumps, you will not have to worry about whatever topics you need to master. To practice for a Oracle 1z0-1057-25 Certification Exam in the software (free test), you should perform a self-assessment.

## Oracle 1z0-1057-25 Practice Exams for Thorough Preparation (Desktop/Online/PDF)

All the 1z0-1057-25 training files of our company are designed by the experts and professors in the field. The quality of our study materials is guaranteed. According to the actual situation of all customers, we will make the suitable study plan for all customers. If you buy the 1z0-1057-25 learning dumps from our company, we can promise that you will get the professional training to help you pass your exam easily. By our professional training, you will pass your exam and get the related certification in the shortest time.

## Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q127-Q132):

**NEW QUESTION # 127**
You recently made some changes to a project contract and the current status of the contract is Under Amendment. Identify the correct sequence of activities that can take place on that contract. (Choose the best answer.)

- A. On Hold > Pending Approval > Active
- B. Pending Approval > Pending Acceptance > Active
- C. Pending Acceptance > Pending Approval > Active
- D. On Hold > Pending Acceptance > Active

**Answer: B**

Explanation:
Reference https://docs.oracle.com/cloud/latest/common/FASCC/FASCC1124283.htm Topic - Contract Actions and Status Changes: Explained

## NEW QUESTION # 128

After completing setups in a source environment, your customer wants to move the setup data to a target environment. Identify the two statements related to task list scope, which you must consider before taking a decision based on the customer requirement. (Choose two.)

- A. Exported setup data cannot be filtered by specific scope values if the business object has scope enabled for the setup data export.
- B. A task list can be segmented by a scope value and a task can be performed for each qualifying value of the selected object.
- C. Exported setup data can be filtered by specific scope values if the business object has scope enabled for the setup data export.
- D. A scope value is used to assign users who can perform a task within an implementation project.

**Answer: B,C**

Explanation:
Reference https://docs.oracle.com/cd/E60665_01/common/OAFSM/OAFSM1166430.htm#OAFSM1166426

## NEW QUESTION # 129

Your organization has a requirement to retrieve the value of the cost center segment based on the department.
Which source can you use while defining the account rule to achieve this requirement?

- A. Event Organization Cost Center Segment
- B. Expenditure Organization Cost Center Segment
- C. Expenditure Business Unit Cost Center Segment
- D. Project Organization Cost Center Segment

**Answer: B**

Explanation:
The source that can be used while defining the account rule to achieve this requirement is Expenditure Organization Cost Center Segment. This source allows you to retrieve the value of the cost center segment based on the expenditure organization of the transaction. The expenditure organization is an attribute of a transaction that represents the organization that incurs or owns the cost of the transaction.

## NEW QUESTION # 130

Your organization has created an Enterprise Project Structure (EPS) and your executives review the overall project labor demand by using the EPS. Identify two correct statements about the periodic project labor demand. (Choose two.)

- A. Labor Demand FTE is calculated as Yearly Allocation hours divided by Yearly FTE hours, if a year is used as the basis for viewing labor demand.
- B. Labor Demand FTE is calculated as Monthly Allocation hours divided by Monthly FTE hours, if a period is used as the basis for viewing labor demand.
- C. Labor Demand FTE is calculated as Project Allocation hours divided by Project FTE hours, if project duration is used as the basis for viewing labor demand.
- D. Labor Demand FTE is calculated as Quarterly Allocation hours divided by Quarterly FTE hours, if a quarter is used as the basis for viewing labor demand.

**Answer: A,D**

Explanation:

Project Labor Demand: How It's Calculated

Project executives want to track the labor demand in projects in their organization. The Project Hierarchy Viewer provides project executives a hierarchical view of the enterprise project structure (EPS) along with the labor demand in terms of full-time equivalent (FTE).

Settings That Affect Project Labor Demand

Project application administrators must do the following to set up how project labor demand is calculated:

* Organize projects into hierarchical groups on the Manage Enterprise Project Structure page.

* Change the quarterly FTE hours for the organization on the Define Project Management Implementation Options page, if different from 520 hours.

Note: You can choose to view labor demand annually instead of quarterly. The Project Hierarchy Viewer uses the current date to determine which year or quarter to display.

How Project Labor Demand Is Calculated

The Project Hierarchy Viewer calculates project labor demand in the following manner:

* Spreads the allocation hours from the Manage Project Resources page evenly over the days that the resources are allocated to the project.

* Divides the quarterly project allocation hours by the quarterly FTE hours to get the labor demand.

* Rolls up the quarterly and annual labor demand up the hierarchy.

## NEW QUESTION # 131

Your client uses Resource Breakdown Structures (RBS) and Resource Mapping to associate amounts to resources. After making some changes to the resources at project level, forecasts are regenerated. After reviewing the cost amounts associated with the resources, you suspect that the cost association does not match your client's expectations. Identify two valid rules based on which cost association works. (Choose two.)

- A. If there is only one level in RBS to which the transaction maps, the cost amounts are mapped to that level.
- B. If one branch contains a user-defined resource type, precedence is given to the branch that contains a user-defined resource type.
- C. If a transaction maps to more than one level, Oracle PPM Cloud sums the precedence numbers for all resource type in the branch and gives precedence to the resource element in the branch with the highest sum.
- D. If the sum of precedence numbers is the same for more than one branch, precedence is given to the branch with the lowest number at the lowest level.

**Answer: A,D**

Explanation:

Reference https://docs.oracle.com/cd/E37583_01/doc.1116/e22598/F458900AN13D82.htm How Resource Mapping Is Calculated You can track the cost impact of every resource that has been assigned to a project task and use the resource breakdown structure to view the breakdown of these costs. Oracle Fusion Projects associates the costs of the resources used for tasks with branches and levels in the resource breakdown structure. The process for determining the correct association is managed by rules of precedence.

Oracle Fusion Projects uses the following rules to associate cost amounts with resources:

* Select the lowest level in the resource breakdown structure to which a transaction can map.

* If there is only one level to which the transaction maps, the cost amounts are mapped to that level.

* If the transaction maps to more than one level, Oracle Fusion Projects sums the precedence numbers for all resource types in the branch and gives precedence to the resource element in the branch with the lowest sum.

* If more than one branch has the lowest precedence number at the lower level, the application uses the precedence number of the next level up.

* If the sum of precedence numbers is the same for more than one branch, precedence is given to the branch with the lowest number at the lowest level.

* If one branch contains a user-defined resource type, precedence is given to the branch that does not contain a user-defined resource type.

Note Oracle Fusion Projects gives more precedence to a lower precedence number. For example, a resource element with a precedence number of 1 is given precedence over a resource element with a precedence number of 10.

## NEW QUESTION # 132

......

It is a prevailing belief for many people that practice separated from theories are blindfold. Our 1z0-1057-25 learning quiz is a salutary guidance helping you achieve success. The numerous feedbacks from our clients praised and tested our strength on this

career, thus our 1z0-1057-25 practice materials get the epithet of high quality and accuracy.
