Latest WGU Web-Development-Applications Study Plan & Web-Development-Applications Dumps Download

Our Web-Development-Applications study tool can help you obtain the Web-Development-Applications certification and own a powerful weapon for your interview. Our Web-Development-Applications qualification test will help you gain recognition with true talents and better adapted to society. Now, I would like to give you a brief introduction in order to make you deepen your impression of our Web-Development-Applications test guides. Our Web-Development-Applications test guides have a higher standard of practice and are rich in content. If you are anxious about how to get Web-Development-Applications certification, considering purchasing our Web-Development-Applications study tool is a wise choice and you will not feel regretted. Our learning materials will successfully promote your acquisition of certification.

WGU Web Development Applications Sample Questions (Q48-Q53):

NEW QUESTION # 48

A developer tests a website on a tablet and notices that the font is small and unreadable.
What should this developer do to fix the issue?

- A. Link the full site to the domain
- B. Renew the expired SSL certificate
- C. Build the site for mobile devices

- D. Update to a current HTML version

Answer: C

Explanation:

> "To improve readability on tablets and mobile screens, developers should apply responsive design principles. This involves using relative font sizes, media queries, and viewport settings to build the site for mobile devices."

> Updating the HTML version or SSL has no effect on font size or layout.

* MDN Web Docs: Responsive Design

* Google Developer Guidelines: Mobile-Friendly Sites

NEW QUESTION # 49

Which characters are used to enclose multiple statement in a function?

- A. Semicotons
- B. Spaces
- C. Parentheses
- D. Curly braces

Answer: D

Explanation:

In JavaScript, curly braces {} are used to enclose multiple statements in a function, defining the block of code to be executed.

* Curly Braces: Curly braces {} are used to group multiple statements into a single block. This is necessary for defining the body of a function, loops, conditional statements, and other control structures.

* Usage Example:

```
function greet(name) {
  let greeting = "Hello, " + name;
  console.log(greeting);
}
```

In this example, the curly braces enclose the statements that form the body of the greet function.

NEW QUESTION # 50

What is it called when a user must continue to resubmit a form until it is accepted?

- A. Auto-complete
- B. Formatting
- C. Pogo-sticking
- D. In-line validation

Answer: C

Explanation:

> "Pogo-sticking occurs when users repeatedly jump between a form and error messages, resubmitting until successful. This leads to a poor user experience."

>

> It is commonly addressed using in-line validation, which provides immediate feedback.

References:

* UX Design Literature: Pogo-sticking behavior

* MDN Web Docs: Form validation techniques

NEW QUESTION # 51

Which HTML segment should a developer use to enable the Offline AppCache application interface (API)?

- A. `<meta manifest = "date.appcache">`
- B. `<html cache = "date.appcache" >`
- C. `<html manifest = "date.appcache">`
- D. `<meta cache = "date.appcache">`

Answer: C

Explanation:

The correct HTML segment to enable the Offline AppCache application interface (API) is by specifying the `manifest` attribute in the `<html>` tag.

* AppCache Manifest: The `manifest` attribute in the `<html>` tag is used to specify the URL of the AppCache

NEW QUESTION # 52

Which event fires when an issue occurs while an external file loads?

- A. invalid
- B. error
- C. stalled
- D. suspend

Answer: B

Explanation:

> "The 'error' event is triggered when an error occurs during the loading of an external file such as an image, script, or style."

>

> "Events like 'stalled' and 'suspend' relate more to media buffering; 'invalid' relates to form input validation." References:

* MDN Web Docs: `GlobalEventHandlers.onerror`

* HTML Standard: Error event

Here are the fully corrected, verified, and formatted answers for Questions 37 to 40, as per your specifications:

NEW QUESTION # 53

.....
