2025 Latest Real4Prep 1Z1-771 PDF Dumps and 1Z1-771 Exam Engine Free Share: <https://drive.google.com/open?id=1xVNvw7sAdnDDC1abJoU1EO5m-3tzOVRx>

The Real4Prep is one of the leading platforms that has been offering real and valid Oracle APEX Cloud Developer Professional (1Z1-771) exam practice test questions. These Oracle APEX Cloud Developer Professional (1Z1-771) exam questions are designed and verified by Oracle 1Z1-771 subject matter experts. They work closely together and put all their expertise to check the Oracle 1Z1-771 exam questions one by one.

If you are busy with your work and have little time to prepare for the exam. You can just choose our 1Z1-771 learning materials, and you will save your time. You just need to spend about 48 to 72 hours on practicing, and you can pass the exam successfully. 1Z1-771 exam materials are edited by professional experts, therefore they are high-quality. And 1Z1-771 Learning Materials of us also have certain quantity, and they will be enough for you to carry on practice. We offer you free demo for you to try before buying 1Z1-771 exam dumps, so that you can know the format of the complete version.

## Oracle 1Z1-771 Practice Engine | 1Z1-771 Reliable Test Experience

If you are not certain whether the 1Z1-771 prep guide from our company is suitable for you or not, so you are hesitate to buy and

use our study materials. Do not worry, in order to help you solve your problem and let you have a good understanding of our 1Z1-771 study practice dump, the experts and professors from our company have designed the trial version for all people. You can have a try of using the 1Z1-771 Prep Guide from our company before you purchase it. We believe that the trial version provided by our company will help you know about our study materials well and make the good choice for yourself. More importantly, the trial version of the 1Z1-771 exam questions from our company is free for all people. We believe that the trial version will help you a lot.

## Oracle 1Z1-771 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Managing Workflows and Tasks: This section evaluates the proficiency of Process Automation Specialists in workflow management. It covers customizing workflows, using approval processes, and handling unified task lists to streamline business processes within applications.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management.</li> </ul>

Topic 12	<ul style="list-style-type: none"> <li>Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications.</li> </ul>

## Oracle APEX Cloud Developer Professional Sample Questions (Q29-Q34):

### NEW QUESTION # 29

There is a validation of type Item is Numeric on the P1\_SALARY item. When the page is submitted, this error message is displayed both as a notification and inline with the item. What will cause the validation error to appear only in the Notification area?

- **A. Setting Display Location to Inline in Notification**
- B. Setting Value Required to Yes on P1\_SALARY.
- C. Removing P1\_SALARY from the validation Associated Item.

**Answer: A**

Explanation:

Validation errors in APEX default to both inline (next to the item) and notification (top of page):

C . Setting Display Location to Inline in Notification: In the validation's properties, changing "Display Location" to "Inline in Notification" ensures the error appears only in the notification area, suppressing inline display. This centralizes feedback for a cleaner UI.

A . Removing Associated Item: Breaks the validation's link to P1\_SALARY, stopping it entirely.

B . Value Required: Adds a separate check, unrelated to display location.

Pitfall: Test with non-numeric input (e.g., "abc") to confirm behavior.

### NEW QUESTION # 30

Which search type in keywords do they represent in Oracle Text?

- **A. Oracle Text**
- B. List
- C. Standard

**Answer: A**

Explanation:

In Oracle APEX, when configuring search functionality (e.g., in reports or faceted search), "Oracle Text" refers to a specific search type leveraging the Oracle Text engine. This is a powerful full-text search capability built into Oracle Database, supporting keyword-based searches, fuzzy matching, and indexing.

Standard: A basic SQL-based search (e.g., LIKE), not tied to Oracle Text.

List: Not a search type; it might refer to a UI component or LOV, not a search mechanism.

Oracle Text: Explicitly uses the CONTAINS operator and text indexes (e.g., CONTEXT or CTXCAT) for advanced search features, ideal for large datasets or complex queries.

This choice impacts performance and accuracy, especially in text-heavy applications.

### NEW QUESTION # 31

In a faceted search page, facets can be displayed as different UI types. Which two facet item types are supported in the faceted search region?

- A. Date Picker
- B. Popup LOV
- C. Checkbox Group
- D. Range

**Answer: C,D**

Explanation:

In Oracle APEX, a faceted search page allows users to filter data using facets, which are displayed as UI components in the Faceted Search region. According to the Oracle APEX documentation, the supported facet item types include:

Range: Used for numeric or date ranges, allowing users to filter data within a specified range (e.g., salary or hire date).

Checkbox Group: Used for multi-select options, enabling users to select multiple values from a list (e.g., departments).

Other types like Popup LOV and Date Picker are valid item types in APEX but are not natively supported as facet types in the Faceted Search region. Popup LOV is typically used for single-value selection in forms, and Date Picker is a standalone item type, not a facet-specific UI.

### NEW QUESTION # 32

What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. A new notification server must be created.
- B. Existing Push Subscriptions for the application will be invalidated.
- C. Push Notifications will be disabled for the application.

**Answer: B**

Explanation:

Regenerating Push Notification credentials updates the VAPID keys (public/private pair) in the PWA settings:

A . Existing Push Subscriptions invalidated: Subscriptions (in APEX\_APPL\_PUSH\_SUBSCRIPTIONS) are tied to the old keys. New keys break this link, requiring users to re-subscribe (e.g., via browser prompts), as the push service (e.g., Firebase) can't authenticate old subscriptions.

B . New notification server: False; the server configuration remains; only credentials change.

C . Disabled for the app: False; notifications remain enabled but won't work for old subscriptions until re-established.

Technical Insight: Regeneration updates APEX\_PWA\_VAPID\_PUBLIC\_KEY and APEX\_PWA\_VAPID\_PRIVATE\_KEY, triggering a subscription refresh cycle.

Use Case: Security breach requires key rotation.

Pitfall: Users must re-opt-in, potentially losing some subscribers.

### NEW QUESTION # 33

What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. A new notification server must be created.
- B. Existing Push Subscriptions for the application will be invalidated.
- C. Push Notifications will be disabled for the application.

**Answer: B**

### NEW QUESTION # 34

.....

The pass rate is 98.95% for the 1Z1-771 training materials, and most candidates can pass the exam just one time. We ensure you that you will refund your money if you fail to pass the exam. In addition, we offer you free update for one year, and the update version for the 1Z1-771 exam dumps will be sent to your email automatically, so that you can know the latest information about the 1Z1-771 Exam Dumps. We provide you with the online chat service, and in the process of learning, if you have any questions about the 1Z1-771 exam dumps, you can consult us.
