NEW QUESTION # 42

Which fields must be enabled for the HRIS element payComponentNonRecurring? Note: There are 3 correct answers to this question.

- A. is-target
- B. pay-date
- C. frequency
- D. value
- E. pay-component-code

Answer: B,D,E

Explanation:

In SAP SuccessFactors Employee Central, the payComponentNonRecurring HRIS element is used to record one-time payments or bonuses for employees. The following fields are mandatory and must be enabled for this element:

- * A. value
- * This field captures the monetary amount of the non-recurring payment.
- * B. pay-component-code
- * This field specifies the type of payment, such as a bonus or commission, by referencing predefined pay components.
- * C. pay-date
- * This field indicates the date on which the non-recurring payment is made.

These fields are essential for accurately processing and recording non-recurring payments within the system.

It's important to note that other fields like frequency and is-target are not applicable to non-recurring pay components and are therefore not required.

NEW QUESTION # 45

How do you create country/region-specific fields (CSF) for a country that does NOT have pre-delivered Legal Entity CSF fields?
Note: There are 3 correct answers to this question.

- A. Create a composite association to the new generic object on Legal Entity.
- B. Update the condition and condition values of the association.
- C. Create a new generic object.
- D. Update the field criteria of the association.
- E. Create a composite association on the new generic object to Legal Entity.

Answer: A,C,D

Explanation:

To create country/region-specific fields (CSF) for a country that does not have pre-delivered Legal Entity CSF fields, follow these steps:

* Create a New Generic Object: Develop a new generic object to define the specific fields required for the country/region. This object will store the additional data fields pertinent to the Legal Entity.

* Create a Composite Association to the New Generic Object on Legal Entity: Establish a composite association from the Legal Entity to the newly created generic object. This association links the Legal Entity to the country/region-specific fields, enabling the system to recognize and utilize these fields appropriately.

* Update the Field Criteria of the Association: Modify the field criteria within the association to ensure that the new fields are correctly associated with the Legal Entity. This step involves setting conditions that determine when the new fields are applicable, based on factors such as country/region.

These steps align with the standard procedures for extending the data model in SAP SuccessFactors Employee Central to accommodate country/region-specific requirements.
