Associate-Cloud-Engineer practice materials will be the most professional and dedicated tutor you have ever met.

## Google Associate Cloud Engineer Exam Sample Questions (Q136-Q141):

### NEW QUESTION # 136

You have a virtual machine that is currently configured with 2 vCPUs and 4 GB of memory. It is running out of memory. You want to upgrade the virtual machine to have 8 GB of memory. What should you do?

- A. Rely on live migration to move the workload to a machine with more memory.
- B. Stop the VM, change the machine type to n1-standard-8, and start the VM.
- C. Stop the VM, increase the memory to 8 GB, and start the VM.
- D. Use gcloud to add metadata to the VM. Set the key to required-memory-size and the value to 8 GB.

Answer: C

### NEW QUESTION # 137

During a recent audit of your existing Google Cloud resources, you discovered several users with email addresses outside of your Google Workspace domain.

You want to ensure that your resources are only shared with users whose email addresses match your domain.

You need to remove any mismatched users, and you want to avoid having to audit your resources to identify mismatched users. What should you do?

- A. Create a Cloud Scheduler task to regularly scan your resources and delete mismatched users.
- B. Set an organizational policy constraint to limit identities by domain to automatically remove mismatched users.
- **C. Set an organizational policy constraint to limit identities by domain, and then retroactively remove the existing mismatched users.**
- D. Create a Cloud Scheduler task to regularly scan your projects and delete mismatched users.

**Answer: C**

Explanation:

<https://cloud.google.com/resource-manager/docs/organization-policy/org-policy-constraints> This list constraint defines the set of domains that email addresses added to Essential Contacts can have. By default, email addresses with any domain can be added to Essential Contacts. The allowed/denied list must specify one or more domains of the form @example.com. If this constraint is active and configured with allowed values, only email addresses with a suffix matching one of the entries from the list of allowed domains can be added in Essential Contacts. This constraint has no effect on updating or removing existing contacts. constraints/essentialcontacts.allowedContactDomains

### NEW QUESTION # 138

Your team uses a third-party monitoring solution. They've asked you to deploy it to the nodes in your Kubernetes Engine Cluster. What's the best way to do that?

- A. Deploy the monitoring pod as a Deployment.
- B. Use Deployment Manager to deploy the monitoring solution.
- **C. Deploy the monitoring pod as a DaemonSet.**
- D. Connect to each node via SSH and install the monitoring solution.

**Answer: C**

### NEW QUESTION # 139

You built an application on Google Cloud Platform that uses Cloud Spanner. Your support team needs to monitor the environment but should not have access to table data. You need a streamlined solution to grant the correct permissions to your support team, and you want to follow Google-recommended practices. What should you do?

- A. Add the support team group to the roles/spanner.databaseReader role.
- **B. Add the support team group to the roles/monitoring.viewer role**
- C. Add the support team group to the roles/stackdriver.accounts.viewer role.
- D. Add the support team group to the roles/spanner.databaseUser role.

**Answer: B**

Explanation:

We only need monitoring access.

roles/monitoring.viewer

Monitoring Viewer Grants read-only access to Monitoring in the Google Cloud console and API.

### NEW QUESTION # 140

You are the organization and billing administrator for your company. The engineering team has the Project Creator role on the organization. You do not want the engineering team to be able to link projects to the billing account. Only the finance team should be able to link a project to a billing account, but they should not be able to make any other changes to projects. What should you do?

- A. Assign the engineering team only the Billing Account User role on the billing account.

- B. Assign the finance team only the Billing Account User role on the billing account.
- C. Assign the finance team the Billing Account User role on the billing account and the Project Billing Manager role on the organization.
- D. Assign the engineering team the Billing Account User role on the billing account and the Project Billing Manager role on the organization.

**Answer: C**

Explanation:

Explanation

From this source:

[https://cloud.google.com/billing/docs/how-to/custom-roles#permission\\_association\\_and\\_inheritance](https://cloud.google.com/billing/docs/how-to/custom-roles#permission_association_and_inheritance)

"For example, associating a project with a billing account requires the billing.resourceAssociations.create permission on the billing account and also the resourceManager.projects.createBillingAssignment permission on the project. This is because project permissions are required for actions where project owners control access, while billing account permissions are required for actions where billing account administrators control access. When both should be involved, both permissions are necessary."

## NEW QUESTION # 141

.....

Most candidates who register for Google Associate Cloud Engineer Exam (Associate-Cloud-Engineer) certification lack the right resources to help them achieve it. As a result, they face failure, which causes them to waste time and money, and sometimes even lose motivation to repeat their Google Associate-Cloud-Engineer exam.
