

# Google Chrome-Enterprise-Administrator Latest Study Plan & Chrome-Enterprise-Administrator Valid Dumps

What's more, part of that Actual4Cert Chrome-Enterprise-Administrator dumps now are free: <https://drive.google.com/open?id=1GtUQVH6g9WGMQKAsq6JeZwhiP-SK5Gjl>

Each question and answer of our Chrome-Enterprise-Administrator training questions are researched and verified by the industry experts. Our team updates the Chrome-Enterprise-Administrator certification material periodically and the updates include all the questions in the past thesis and the latest knowledge points. So our service team is professional and top-tanking on the Chrome-Enterprise-Administrator Exam braindump. And if you have any questions on our study guide, our services will help you with the right and helpful suggestions. Just have a try on our Chrome-Enterprise-Administrator learning prep!

## Google Chrome-Enterprise-Administrator Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• <b>Chrome Updates:</b> This section of the exam measures skills of a Chrome IT Policy Analyst and addresses the various update methods available for Chrome. It includes selecting the right update strategy for different business and security needs, managing compliance across platforms, and adapting update methods based on environmental changes or risks.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• <b>Chrome Enterprise Management Fundamentals:</b> This section of the exam measures skills of a Chrome Device Administrator and covers the foundational elements of managing Chrome in an enterprise. It includes understanding how policies are applied and resolved, differentiating managed browsers from profiles, and describing how policies work. It also covers Chrome's built-in security features, how extensions are used and deployed, and how the release cycle and channels are managed.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• <b>Manage Chrome Enterprise in the Cloud:</b> This section of the exam measures skills of a Cloud Systems Administrator and focuses on preparing and configuring environments for Chrome cloud management. Candidates must demonstrate how to verify domains, use admin roles, configure organizational structures, deploy enrollment tokens, enable reporting, and maintain Chrome using the Google Admin console.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• <b>Analyze Chrome Data:</b> This section of the exam measures skills of a Chrome Data Analyst and focuses on using the Google Admin console to view, analyze, and troubleshoot browser data. It includes reviewing reports, diagnosing browser or update issues, investigating performance problems, and identifying security risks based on log events and Chrome activity.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>• <b>Chrome Extensions:</b> This section of the exam measures skills of an Endpoint Security Manager and involves managing Chrome extension policies. It includes designing extension management strategies, handling extension exemptions, creating approval workflows, and assessing extensions for their risk and compliance with business continuity requirements.</li></ul>

## Chrome-Enterprise-Administrator Valid Dumps & Trustworthy Chrome-Enterprise-Administrator Source

The scoring system of our Chrome-Enterprise-Administrator exam torrent absolutely has no problem because it is intelligent and powerful. First of all, our researchers have made lots of efforts to develop the scoring system. So the scoring system of the Chrome-Enterprise-Administrator test answers can stand the test of practicability. Once you have submitted your practice. The scoring system will begin to count your marks of the Chrome-Enterprise-Administrator exam guides quickly and correctly. You just need to wait a few seconds before knowing your scores. The scores are calculated by every question of the Chrome-Enterprise-Administrator Exam guides you have done. So the final results will display how many questions you have answered correctly and mistakenly. You even can directly know the score of every question, which is convenient for you to know the current learning condition.

## Google Professional Chrome Enterprise Administrator Certification Exam Sample Questions (Q12-Q17):

### NEW QUESTION # 12

A company is managing browsers in the Google Admin console Security has scanned extensions in the organization and has determined that there are several extensions installed with ability to set proxy This violates company policy How would an administrator block these extensions'?

- A. Remotely connect to each device and delete the extension from the browser
- B. Set policy in the Google Admin console to block all extensions from being installed on the browser
- C. Send an email to the users notifying them that they must uninstall the detected extensions
- **D. Set permission policy in the Google Admin console to block such extensions**

**Answer: D**

Explanation:

The Google Admin console allows administrators to control extension permissions. By configuring the "Permissions and URL access" policy, the administrator can block extensions that request specific permissions, such as the ability to set a proxy. This is a centralized and effective way to enforce the security policy. Remotely connecting to each device (option B) is not scalable. Blocking all extensions (option C) might be too restrictive. Relying on users to uninstall (option D) is not enforceable.

### NEW QUESTION # 13

An administrator is using Organizational Units (OU) to apply different Chrome browser settings to different types of devices The administrator needs to ensure that the browsers are placed in the correct OU Which token must the administrator generate and apply?

- A. Cloud Management Token
- **B. Enrollment Token**
- C. Browser Policy Token
- D. Device Management Token

**Answer: B**

Explanation:

The **Enrollment Token** is the key to associating a Chrome browser instance with a specific organizational unit (OU) in the Google Admin console during the enrollment process. By applying the correct enrollment token during setup, the browser will be placed in the designated OU and inherit the policies configured for that OU. Device Management Tokens are more relevant for ChromeOS devices. Browser Policy Tokens are not a standard term for OU assignment during enrollment. Cloud Management Token is a general term encompassing the enrollment process.

### NEW QUESTION # 14

An organization has a critical extension that is force-installed on managed Chrome browsers to meet specific security needs

Additionally, the organization has specified that when extensions are unpublished from the Chrome Web Store, they are also disabled. The extension has been taken over by a malicious actor and has been unpublished from the Chrome Web Store. What impact will this have to the force-installed extension?

- **A. The force-installed extension will automatically be disabled**
- B. The admin will receive an alert in the Google Admin console to remediate the conflict
- C. The force-installed extension will observe no change
- D. The force-installed extension will be disabled for existing users only

**Answer: A**

Explanation:

If an extension that is force-installed via policy is unpublished from the Chrome Web Store, the Chrome browser will detect this status and automatically disable the extension on managed devices. This is a security mechanism to prevent the continued use of potentially compromised or no longer maintained extensions.

#### NEW QUESTION # 15

A company deploys policies in a hybrid manner from both on premises and the Google Admin console. How would policies set in `chrome://policy`?

- A. Level: Recommended, Source: Cloud
- B. Level: Mandatory, Source: Platform
- **C. Level: Mandatory, Source: Cloud**
- D. Applies To: Machine, Source: Cloud

**Answer: C**

Explanation:

When viewing applied Chrome policies in the `chrome://policy` internal page, policies enforced through Chrome Enterprise Core (the cloud management console) will typically be labeled with a "Source" of "Cloud." If the administrator has enforced the policy, the "Level" will likely be "Mandatory," indicating that users cannot change this setting. "Platform" would refer to policies set locally on the operating system (like Group Policy on Windows). "Recommended" policies are suggestions that users can typically override.

#### NEW QUESTION # 16

An administrator wants users to have the ability to install extensions of their choosing. However, due to company security policies, the administrator cannot allow any extension to be installed that has the ability to read documents on the local drive. Which policy combination best meets the administrator's need?

- A. Chrome Webstore: Allow all apps, admin manages blocklist; Runtime Blocked Hosts: `C:\*`
- B. Chrome Webstore: Allow all apps, admin manages blocklist; Runtime Blocked Hosts: `file:///*`
- C. Chrome Webstore: Block all apps, admin manages allowlist; Block extensions by permission: Sync File System
- **D. Chrome Webstore: Allow all apps, admin manages blocklist; Block extensions by permission: File System**

**Answer: D**

Explanation:

To allow users to install extensions while blocking those with specific risky permissions, the administrator should "Allow all apps" from the Chrome Web Store and then use the "Block extensions by permission" policy to block extensions that request the "File System" permission. This prevents extensions from accessing local files. Option A is too restrictive by blocking all apps by default. Options B and D use "Runtime Blocked Hosts," which is for controlling access to specific websites, not for blocking extension permissions.

#### NEW QUESTION # 17

.....

As for the Chrome-Enterprise-Administrator study materials themselves, they boost multiple functions to assist the learners to learn the study materials efficiently from different angles. For example, the function to stimulate the Chrome-Enterprise-Administrator

exam can help the exam candidates be familiar with the atmosphere and the pace of the Real Chrome-Enterprise-Administrator Exam and avoid some unexpected problem occur such as the clients answer the questions in a slow speed and with a very anxious mood which is caused by the reason of lacking confidence.
