GIAC Strategic Planning, Policy, and Leadership (GSTRT) Sample Questions (Q114-Q119):

NEW QUESTION # 114

During a security program analysis, you discover that the organization's incident response process is slow, leading to extended

downtime during cyberattacks. The executive team is concerned about the financial impact of these delays. How would you address this issue to improve the incident response process and minimize downtime in the future?

Response:

- A. Rely solely on external vendors for incident response
- B. Assign all incident response duties to a single employee to streamline the process
- C. Ignore the delays since no major breaches have occurred
- **D. Implement a formal incident response plan with clear roles, conduct regular incident response drills, and invest in automated tools to accelerate detection and response**

Answer: D

NEW QUESTION # 115

Your organization has been tasked with developing a comprehensive security program to protect customer data as it expands into new markets. However, the executive team is concerned about the cost of implementing new security measures. How would you approach developing the security program while addressing these concerns?

Response:

- A. Implement only basic security measures to reduce costs
- **B. Develop a business case that highlights the potential risks of not securing customer data, present a phased approach to implementation, and demonstrate the long-term value of the program**
- C. Postpone the security program until the company grows further
- D. Eliminate the security program to avoid costs entirely

Answer: B

NEW QUESTION # 116

What is the best way to ensure employees are aware of changes to cybersecurity policies?

Response:

- A. Sending an email with the updated policy and assuming everyone reads it
- B. Posting the policy updates on a bulletin board without explanation
- C. Relying on managers to verbally inform their teams
- **D. Implementing mandatory training sessions and providing clear communication channels to explain the updates**

Answer: D

NEW QUESTION # 117

When managing a geographically distributed cybersecurity team, which of the following tools is essential for maintaining effective communication?

Response:

- A. Centralized file storage
- B. Physical office visits
- C. Weekly status reports
- **D. Video conferencing tools such as Zoom or Microsoft Teams**

Answer: D

NEW QUESTION # 118

What is the best way to ensure that all cybersecurity team members are aligned on project goals and deadlines?

Response:

- A. Send a detailed email outlining project timelines
- **B. Hold regular stand-up meetings to discuss progress and address concerns**
- C. Assign team leaders to relay goals and timelines to their subordinates

- Answer: B**
