Cisco Small and Medium Business Engineer Sample Questions (Q29-Q34):

NEW QUESTION # 29

What do SMBs need to be truly smart?

- A. separate dashboards to provide intelligent monitoring with actionable insight and device manageability
- B. visibility for each process at each location separately
- **C. optimized customer and employee experiences by providing an environment that meets modern expectations**
- D. individually managed technology stacks

Answer: C

Explanation:

To be truly smart, SMBs need to optimize customer and employee experiences by providing an environment that meets modern expectations. This involves leveraging technology to create a seamless, efficient, and responsive experience for both customers and employees. A smart SMB utilizes integrated solutions that enhance collaboration, productivity, and security, enabling the business to adapt quickly to market changes and customer needs. By focusing on the user experience, SMBs can drive innovation and growth, ensuring they remain competitive in a rapidly evolving business landscape¹. References :=

NEW QUESTION # 30

Which Cisco product enables video conferencing and communication?

- A. Duo
- B. Meraki
- C. Umbrella
- **D. Webex**

Answer: D

Explanation:

Cisco Webex is the product that enables video conferencing and communication. It is designed to provide a conferencing experience that rivals in-person collaboration, with features such as real-time translations, meeting recordings, and a secure platform for remote work. Webex offers an all-in-one app to call, meet, message, and get work done, supporting a hybrid work environment with enterprise-grade security. References

NEW QUESTION # 31

Which Cisco product is part of the smart experience for empowering IT?

- A. Meraki Sensors
- B. Meraki Cameras
- C. Umbrella
- **D. Meraki Insight**

Answer: D

Explanation:

Meraki Insight is part of Cisco's smart experience aimed at empowering IT. It provides end-to-end visibility on the network, which is crucial for IT teams to ensure a high-quality user experience. By leveraging Meraki Insight, IT can proactively monitor and troubleshoot network issues, thus empowering them to manage the network more efficiently and effectively. References := 1, 2

NEW QUESTION # 32

What is the primary purpose of Umbrella's Secure Web Gateway?

- **A. logs and inspects web traffic for full visibility, URL and application controls, and protection against malware**
- B. exposes shadow IT by providing the ability to detect and report on cloud applications across organizations
- C. analyzes sensitive data in-line to provide visibility and control over sensitive data
- D. isolates web traffic from the user device to prevent the possibility of malware infections

Answer: A

Explanation:

The primary purpose of Umbrella's Secure Web Gateway (SWG) is to provide a comprehensive security solution that logs and inspects web traffic. This allows for full visibility into the web activities within an organization, enabling URL and application controls, and offering advanced threat protection against malware.

SWG acts as a checkpoint between users and the internet, filtering and monitoring web traffic to ensure safe internet access while blocking potentially harmful content. It is designed to enforce security policies, prevent data leakage, and protect against web-based threats by inspecting URLs, detecting threats, and decrypting select encrypted traffic for inspection.

NEW QUESTION # 33

Meraki Dashboard is used for ease of management of Meraki devices. Which other devices are integrated with the Meraki dashboard?

- A. Smart Assistants
- **B. Catalyst devices**
- C. WebEx Boards
- D. HVAC Sensors

Answer: B

Explanation:

The Meraki Dashboard is designed to provide a centralized management platform for various Cisco devices, including Meraki and Catalyst devices. The integration of Catalyst devices with the Meraki Dashboard allows for simplified management and monitoring, offering a unified view of the network. This integration enables IT administrators to oversee their network infrastructure, including switches and wireless access points, through the Meraki Dashboard's intuitive interface¹².
