H12-725_V4.0 Exam Preparation, Latest H12-725_V4.0 Test Materials
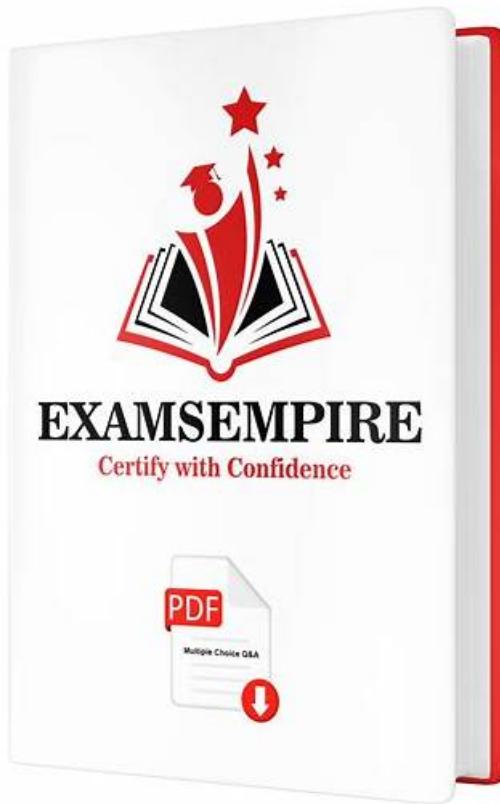

Our H12-725_V4.0 study braindumps are comprehensive that include all knowledge you need to learn necessary knowledge, as well as cope with the test ahead of you. With convenient access to our website, you can have an experimental look of free demos before get your favorite H12-725_V4.0 prep guide downloaded. You can both learn useful knowledge and pass the exam with efficiency with our H12-725_V4.0 Real Questions easily. We are on the way of meeting our mission and purposes of helping exam candidates to consider the exam as a campaign of success and pass the exam successfully.

The H12-725_V4.0 study guide in order to allow the user to form a complete system of knowledge structure, the qualification H12-725_V4.0 examination of test interpretation and supporting course practice organic reasonable arrangement together, the H12-725_V4.0 simulating materials let the user after learning the section of the new curriculum can through the way to solve the problem to consolidate, and each section between cohesion and is closely linked, for users who use the H12-725_V4.0 Exam Prep to build a knowledge of logical framework to create a good condition.

Free4Dump Huawei H12-725_V4.0 exam practice questions and answers

In order to give the best H12-725_V4.0 study braindumps to our worthy customers, we also focus on the customer's user experience. Our staff provides you with the smoothest system. If you have encountered some problems while using H12-725_V4.0 Practice Guide, you can also get our timely help as our service are working 24/7 online. Of course, our H12-725_V4.0 exam questions are advancing with the times and you will get the latest information.

The H12-725_V4.0 exam is intended for individuals who have already obtained the HCIA-Security certification and have at least three years of experience in the security field. H12-725_V4.0 exam consists of multiple-choice questions, scenario-based questions,

and network simulation questions that are designed to test the candidate's practical skills. Passing H12-725_V4.0 exam demonstrates that the candidate has a comprehensive understanding of security technologies and can effectively design, implement, and manage security solutions in a variety of environments. The Huawei H12-725_V4.0 Certification is highly regarded in the IT industry and can help IT professionals advance their careers in the field of security.

Huawei HCIP-Security V4.0 Sample Questions (Q14-Q19):

NEW QUESTION # 14
The figure shows the defense mechanism of an HTTP flood attack. Which source IP detection technology is displayed in the figure?
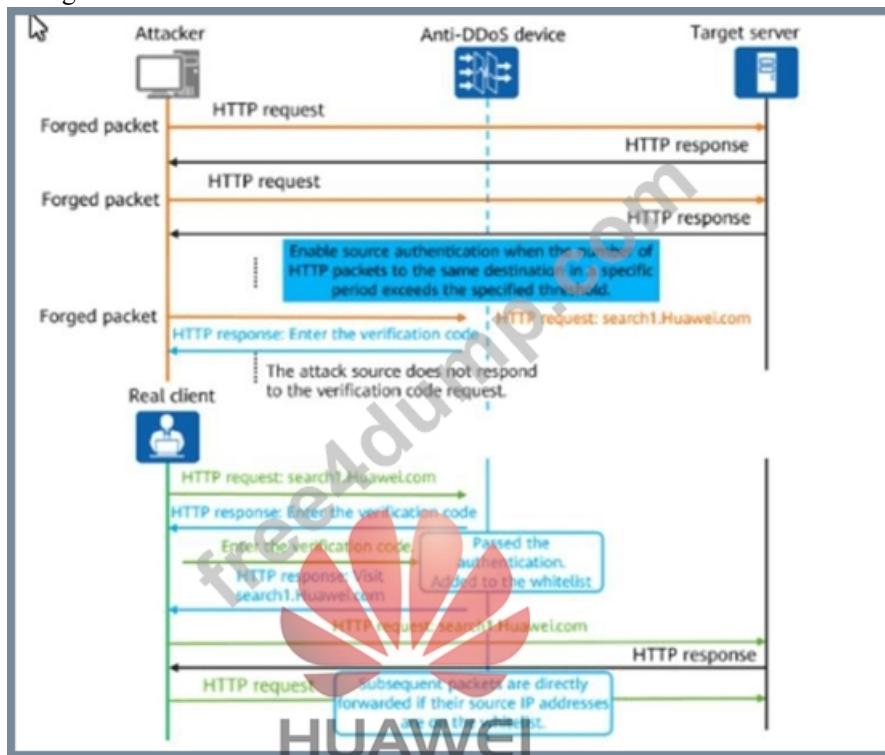

- A. Basic mode
- B. URI monitoring
- C. 302 redirect mode
- D. Enhanced mode

Answer: D

Explanation:
1##Understanding HTTP Flood Attacks:
* An HTTP flood attack is a type of DDoS attack where an attacker sends a large number of HTTP requests to a target server, overloading its resources.
* Attackers often use botnets or spoofed IP addresses to send forged HTTP requests, making it difficult to differentiate between legitimate and malicious traffic.
2##What is Happening in the Figure?
* The Anti-DDoS device detects an abnormally high number of HTTP requests from certain IPs.
* It challenges suspicious clients by requiring them to complete an authentication step (such as entering a verification code).
* Legitimate users can pass the authentication and get whitelisted, while bots and attackers fail to respond and are blocked.
3##Why is "Enhanced Mode" the Correct Answer?
* Enhanced Mode is an advanced source IP detection technology that uses verification codes or JavaScript challenges to distinguish real users from bots.
* Key features of Enhanced Mode:
* Verification challenge (e.g., CAPTCHA, JavaScript check).
* Whitelisting of verified users to prevent further verification delays.
* Blocks attack sources that fail to respond to verification.
* In the figure, the system prompts suspicious users to enter a verification code before allowing further access.
* Attackers typically do not respond, while legitimate users complete the challenge and continue browsing normally.

NEW QUESTION # 15
Which of the following actions can be performed when the firewall identifies file anomalies?(Select All that Apply)

- A. Block
- B. Alarm
- C. Delete attachment
- D. Allow

Answer: A,B,C

Explanation:
Comprehensive and Detailed Explanation:
* Firewalls with advanced security features(such asIPS, Antivirus, and File Filtering) candetect and respond to file anomalies.
* Actions that can be taken when an anomaly is detected:
* A. Alarm# Generates a log entry and notifies the administrator.
* C. Block# Prevents the file from being transferred.
* D. Delete attachment# Removes malicious attachments from emails.
* Why is B incorrect?
* Allowing a detected malicious file is not a valid security response.

* Huawei HCIP-Security Guide # File Filtering & IPS Protection

NEW QUESTION # 16
When gateways are connected using GRE over IPsec, the IPsec encapsulation mode must be tunnel mode.

- A. TRUE
- B. FALSE

Answer: A

Explanation:
Comprehensive and Detailed Explanation:
* GRE over IPsecis used totunnel non-IP traffic, multicast, and dynamic routing protocolsover IPsec VPN.
* Tunnel mode is requiredbecause:
* Transport mode only encrypts the payload, but GRE needs the entireoriginal IP packet encrypted.
* Tunnel mode encrypts the entire packet(original + GRE headers), ensuring full encapsulation.
* Why is this statement true?
* GRE over IPsec must use tunnel modeto fully encapsulate and protect packets.
HCIP-Security References:
* Huawei HCIP-Security Guide # GRE over IPsec Configuration

NEW QUESTION # 17
Which of the following protocols can be encapsulated through GRE over IPsec?(Select All that Apply)

- A. VRRP
- B. OSPF
- C. IPX
- D. IPv6

Answer: A,B,C,D

Explanation:
Comprehensive and Detailed Explanation:
* IPsec does not support non-IP traffic (e.g., multicast, routing protocols, or legacy protocols like IPX).
* GRE over IPsec allows encapsulation of:

* A. IPX# Legacy protocol supported via GRE.
* B. VRRP# Uses multicast, which GRE supports.
* C. IPv6# GRE tunnels can carry IPv6 over IPv4.
* D. OSPF# Uses multicast (224.0.0.5 & 224.0.0.6), requiring GRE.
* Why are all options correct?
* GRE over IPsec is required for non-unicast and legacy protocols.
HCIP-Security References:
* Huawei HCIP-Security Guide # GRE over IPsec Deployment

NEW QUESTION # 18

Predefined URL categories on Huawei firewalls reside in the URL category database delivered with the device and do not need to be manually loaded.

- A. TRUE
- B. FALSE

Answer: A

Explanation:
Comprehensive and Detailed Explanation:
* Huawei firewalls come with a built-in URL filtering database, which includes predefined categories such as:
* Malicious websites
* Phishing sites
* Social media
* Business services
* The URL category database is periodically updated by Huawei, ensuring that new threats are detected automatically.
* Why is this statement true?
* Administrators do not need to manually load URL categories; they are delivered with the firewall and updated regularly.
